## **Shape Of The City Toronto Struggles With Modern Planning:**

**The Shape of the City** John Sewell, 1993-12-15 Critics have long voiced concerns about the wisdom of living in cities and the effects of city life on physical and mental health For a century planners have tried to meet these issues John Sewell traces changes in urban planning from the pre Depression garden cities to postwar modernism and a revival of interest in the streetscape grid In this far ranging review Sewell recounts the arrival of modern city planning with its emphasis on lower densities limited access streets segregated uses and considerable green space He makes Toronto a case history with its pioneering suburban development in Don Mills and its other planned communities including Regent Park St Jamestown Thorncrest Village and Bramalea The heyday of the modern planning movement was in the 1940s to the 1960s and the Don Mills concept was repeated in spirit and in style across Canada Eventually strong public reaction brought modern planning almost to a halt within the city of Toronto The battles centred on saving the Old City Hall and stopping the Spadina Expressway Sewell concludes that although the modernist approach remains ascendant in the suburbs the City of Toronto has begun to replace it with alternatives that work This is a reflective but vigorous statement by a committed urban reformer Few Canadians are better suited to point the way towards city planning for the future

**Streetscars and the Shifting Geographies of Toronto** Brian Doucet, Michael Doucet, 2022-03-01 When looking at old pictures of Toronto it is clear that the city's urban economic and social geography has changed dramatically over the generations Historic photos of Toronto's streetcar network offer a unique opportunity to examine how the city has been transformed from a provincial industrial city into one of North America's largest and most diverse regions Streetscars and the Shifting Geographies of Toronto studies the city's urban transformations through an analysis of photographs taken by streetcar enthusiasts beginning in the 1960s These photographers did not intend to record the urban form function or social geographies of Toronto they were accidental archivists whose main goal was to photograph the streetcars themselves But today their images render visible the ordinary day to day life in the city in a way that no others did These historic photographs show a Toronto before gentrification globalization and deindustrialization Each image has been re photographed to provide fresh insights into a city that is in a constant state of flux With gorgeous illustrations this unique book offers an understanding of how Toronto has changed and the reasons behind these urban shifts The visual exploration of historic and contemporary images from different parts of the city helps to explain how the major forces shaping the city affect its form functions neighbourhoods and public spaces

**Toronto Architecture** Patricia McHugh, Alex Bozickovic, 2017-06-27 Toronto has been hailed as a city in the making and the city that works It's an ongoing project in recent years Canada's largest city has experienced transformative exciting change But just what does contemporary Toronto look like This authoritative architectural guide newly updated and expanded leads readers on 26 walking tours revealing the evolution of the place from a quiet Georgian town to a dynamic global city More than 1 000 designs are featured from modest Victorian houses to shimmering downtown towers and cultural

landmarks Over 300 photographs 29 maps a description of architectural styles a glossary of architectural terms and indexes of architects and buildings pilot readers through Toronto's diverse cityscape New sections illustrate the swiftly changing face of Toronto's waterfront and design highlights across the region Originally written by architectural journalist Patricia McHugh and enhanced with new material and insights by Globe and Mail architecture critic Alex Bozickovic this definitive guide offers a revealing exploration of Toronto's past and future for the city's visitors and locals alike *Citizen Participation at the Local Level in China and Canada* Andrew Sancton, Chen Zhenming, 2014-11-13 What if anything is similar about citizen participation at the local level in Canada and China The answer of course is politically sensitive There are many in Canada who would claim that the question is absurd How can there be meaningful citizen participation in a country where there are significant restrictions on political activity included *Inside the Mosaic* Eric Fong, 2006-01-01 Inside the Mosaic is an essential tool for understanding the struggle faced by both the city and its new residents which will bring clarity to a subject that has historically been fraught with divergent views *The New Urban Agenda* Bill Freeman, 2015-06-06 Equal parts history social science and call to action The New Urban Agenda focuses on fixing the major issues facing the Greater Toronto and Hamilton Area GTHA Award winning author Bill Freeman shows how cities have overcome them in the past and gives level headed advice for tackling Toronto's biggest challenges *Post-Industrial Urban Greenspace* Jennifer Foster, L. Anders Sandberg, 2017-10-02 Post industrial urban spaces typically include abandoned factories disused rail lines old pits and quarries and decommissioned landfills In these places different visions compete for dominance with respect to current and future land uses Neighbours often view such urban greenspace as polluted unkempt and weedy harbouring undesirable biophysical features and people These are spaces that often become the focus of some form of revitalization reinvestment and restoration From the perspective of civic authorities and urban planners transforming post industrial landscapes into disciplined and tended greenspace creates the urban conditions and signals of popular contemporary taste that attract investors gentrifiers and tourists But post industrial spaces are also places where unique and unpredictable human and ecological associations can emerge spontaneously Such places may contain considerable ecological integrity and biodiversity and host human populations who find a home and respite in such ecologies They also tell stories of an industrial and urban past that should be acknowledged understood and if suitable celebrated This volume explores the environmental justice and injustice dimensions of emerging urban post industrial landscapes including the ecological politics cultural representations and aesthetics of these spaces This book was published as a special issue of Local Environment *Regent Park Redux* Laura Johnson, Robert Johnson, 2017-05-12 Regent Park Redux evaluates one of the biggest experiments in public housing redevelopment from the tenant perspective Built in the 1940s Toronto's Regent Park has experienced common large scale public housing problems Instead of simply tearing down old buildings and scattering inhabitants the city's housing authority came up with a plan for radical transformation In partnership with a private developer the Toronto Community Housing

Corporation organized a twenty year billion dollar makeover The reconstituted neighbourhood one of the most diverse in the world will offer a new mix of amenities and social services intended to reknit the urban fabric Regent Park Redux based on a ten year study of 52 households as they moved through stages of displacement and resettlement examines the dreams and hopes residents have for their community and their future Urban planners and designers across the world in cities facing some of the same challenges as Toronto will want to pay attention to this story **City Life** Witold Rybczynski,1996-10-10 Tracing the development of American cities and city life from early colonial settlements to the familiar downtowns of today a sweeping cultural history reveals how our urban spaces have been shaped by the land and the American lifestyle Reprint 25 000 first printing NYT **Big Moves** Anthony Perl,Matt Hern,Jeffrey Kenworthy,2020-09-23 All countries have distinctive urban regions but Canadian cities especially differ from one another in culture structure and history Anthony Perl Matt Hern and Jeffrey Kenworthy reveal that despite the peculiarities and singular traits that each city embodies a common logic has guided the development of transportation infrastructure across the country Big Moves analyzes how Canada s three largest urban regions Montreal Toronto and Vancouver have been shaped by the interplay of globalized imperatives aspirations activism investment and local development initiatives both historically and in a contemporary context Canadian urban development follows a distinct pattern that involves compromise between local viewpoints and values and the pursuit of global capital at particular historical junctures As the authors show the success or failure of each city to construct major mobility infrastructure has always depended on the timing of investments and the specific ways that cities have gained access to necessary capital Drawing on urban mobility history and global city theory this book delves into the details of the big moves that have affected transport infrastructure in major Canadian cities Knowing where urban development will head in the twenty first century requires understanding how cities major mobility infrastructures were built Big Moves explains the shape of Canada s three biggest cities and how their mix of expressways and rapid transit emerged **The Oak Ridges Moraine Battles** L. Anders Sandberg,Gerda R. Wekerle,Liette Gilbert,2013-06-17 The Oak Ridges Moraine is a unique landform that generated heated battles over the future of nature conservation sprawl and development in the Toronto region at the turn of the twenty first century This book provides a careful multi faceted history and policy analysis of planning issues and citizen activism on the Moraine s future in the face of rapid urban expansion The Oak Ridges Moraine Battles captures the hidden aspects of a story that received a great deal of attention in the local and national news and that ultimately led to provincial legislation aimed at protecting the Moraine and Ontario s Greenbelt By giving voice to a range of actors residents activists civil servants scientists developers and aggregate and other resource users the book demonstrates how space on the urban periphery was reshaped in the Toronto region The authors ask hard questions about who is included and excluded when the preservation of nature challenges the relentless process of urbanization **Caught in the Eye of the Storm** Jon Careless,2024-10-05T00:00:00Z This book is a case study analysis of the public housing district of Lawrence Heights in North

York Toronto a neighbourhood undergoing the largest revitalization in Canada The book presents a chronological narrative of change and upheaval in Lawrence Heights beginning with its origins after World War Two as a modernist style city on a hill that was intended to help remedy Toronto's affordable housing shortage and simultaneously transform its systemically disadvantaged tenant base into idealized members of the middle class As the community became progressively more racialized and oppressed in the late twentieth century the reputation of Lawrence Heights and its occupants became steadily more denigrated by the forces of stigmatization governmental neglect and police brutality In this milieu local political officials and private developer partners have striven to tear Lawrence Heights down and rebuild it into a socially mixed neighbourhood This plan threatens the existing social fabric of a proud and politically active community

Power in the Global Era T. Cohn, S. McBride, J. Wiseman, 2000-09-08 This volume discusses the effects of globalization on changing power relationships between transnational corporations TNCs and transnational capital the state and subnational groups TNCs have expanded their power with the deepening of market relations but they are not causing the state to wither away Indeed neoliberal changes often occur with the permission or even encouragement of powerful states Transnational capital has weakened labour groups in order to make production more competitive but the disadvantaged groups may mobilise to counter the power of transnational capital Finally globalization is subjecting domestic policies to increased international scrutiny

*Building the Ecological City* Rodney R. White, 2002-03-05 Our cities are plagued by problems of congestion waste and pollution that deplete natural resources damage the environment and reduce the quality of life for their citizens The irony is as this fascinating new study shows it doesn't have to be like this Building the Ecological City describes the problems we face and puts forward solutions to the question how can we build cities that provide an acceptable standard of living for their inhabitants without depleting the ecosystems and bio geochemical cycles on which they depend The book suggests and examines the concept of urban metabolism which characterizes the city as a set of interlinked systems of physical flows linking air land and water A series of chapters looks at the production and management of waste energy use and air emissions water supply and management urban land use and air quality issues Within the broader context of climate change the book then considers a range of practical strategies for restoring the health of urban ecosystems from the remediation of brownfield land to improving air quality and making better use of water resources A major contribution to better urban management and planning for both citizens and the environment Building the Ecological City is an invaluable sourcebook for urban and national planners architects and environmental agencies

*"Craft, Community and the Material Culture of Place and Politics, 19th-20th Century"* Janice Helland, 2017-07-05 Craft practice has a rich history and remains vibrant sustaining communities while negotiating cultures within local or international contexts More than two centuries of industrialization have not extinguished handmade goods rather the broader force of industrialization has redefined and continues to define the context of creation deployment and use of craft objects With object study at the core this book brings together a

collection of essays that address the past and present of craft production its use and meaning within a range of community settings from the Huron Wendat of colonial Quebec to the Girls Friendly Society of twentieth century England The making of handcrafted objects has and continues to flourish despite the powerful juggernaut of global industrialization whether inspired by a calculated refutation of industrial sameness an essential means to sustain a cultural community under threat or a rejection of the imposed definitions by a dominant culture The broader effects of urbanizing imperial and globalizing projects shape the multiple contexts of interaction and resistance that can define craft ventures through place and time By attending to the political histories of craft objects and their makers over the last few centuries these essays reveal the creative persistence of various hand mediums and the material debates they represented      **Reconstructing Urban**

**Regime Theory** Mickey Lauria,1997 Providing a robust conceptual framework urban regime theory has despite its cited shortcomings gained a dominant position in the literature on local politics in addition to its recent use in contexts outside the United States and in comparative cross national research Reconstructing Urban Regime Theory presents a challenging argument for the need to reconceptualize urban regime s middle level abstractions by interpreting it through the higher level abstractions of regulationist theory The contributors propose stronger conceptual linkages between local agents and institutions regime transformation and the restructuring of urban space The blend of empirical and case study provides an excellent mix of theory and practice      **Winnipeg Modern** Serena Keshavjee,2006-09-15 A vivid stylish and fascinating look at internationally acclaimed architects and their work Beginning in the 1940s John A Russell dean of the School of Architecture at the University of Manitoba nurtured a strong tradition of Modernist design with close connections to architectural giants such as Mies van der Rohe and Walter Gropius Under Russell s guidance a generation of young architects such as James Donahue and David Thordarson adapted the principles of European Modernism to the prairie geography Other nationally renowned architects such as tienne Gaboury and Gustavo da Roza also left a lasting Modernist mark on Winnipeg s skyline and private residences Edited by Serena Keshavjee and designed by architect Herbert Enns Winnipeg Modern captures the grace and beauty of the Modernist period and includes critical and historical essays on the aesthetic and social project of Modernist architecture in Winnipeg Lavishly illustrated with 300 photographs from provincial archives the private archives of architect Henry Kalen and contemporary photographer Martin Tessler this book is a testament to the Modernist principles of structural expression and purity of form      *The Death and Life of the Single-Family*

*House* Nathanael Lauster,2016-11-02 Vancouver today is recognized as one of the most livable cities in the world as well as an international model for sustainability and urbanism Single family homes in this city are a dying breed Most people live in the various low rise and high rise urban alternatives throughout the metropolitan area The Death and Life of the Single Family House explains how residents in Vancouver attempt to make themselves at home without a house Local sociologist Nathanael Lauster has painstakingly studied the city s dramatic transformation to curb sprawl He tracks the history of

housing and interviews residents about the cultural importance of the house as well as the urban problems it once appeared to solve Although Vancouver's built environment is unique Lauster argues that it was never predestined by geography or demography Instead regulatory transformations enabled the city to renovate build over and build around the house Moreover he insists there are lessons here for the rest of North America We can start building our cities differently and without sacrificing their livability     City Stages Michael McKinnie,2007-01-01 City Stages combines primary archival research with the scholarly literature emerging from both the humanities and social sciences     *Modest Hopes* Don Loucks,Leslie Valpy,2021-09-14 Celebrating Toronto's built heritage of row houses semis and cottages and the people who lived in them Despite their value as urban property Toronto's workers cottages are often characterized as being small cramped poorly built and in need of modernization or even demolition But for the workers and their families who originally lived in them from the 1820s to the 1920s these houses were far from modest Many had been driven off their ancestral farms or had left the crowded conditions of tenements in their home cities abroad Once in Toronto many lived in unsanitary conditions in makeshift shantytowns or cramped shared houses in downtown neighbourhoods such as The Ward To then move to a self contained cottage or rowhouse was the result of an unimaginably strong hope for the future and a commitment to family life Through the stories of eight families who lived in these Modest Hopes authors Don Loucks and Leslie Valpy bring an important but forgotten part of the Toronto narrative to life They illuminate the development of Toronto's working class neighbourhoods such as Leslieville Corktown and others and explain the designs and architectural antecedents of these undervalued heritage properties
