[The Shape of the Past](#) Gordon Graham, 1997 Can human history as a whole be interpreted in any meaningful way Has there been real progress between stone age and space age Does history repeat itself Is there evidence of divine providence Questions such as these have fascinated thinkers and some of the greatest philosophers notably Kant and Hegel have turned their minds to philosophical history As a branch of philosophy however it has received little attention in the analytical tradition This pioneering work aims to bring the methods of analytical philosophy to the critical examination of some of these questions In addition to Hegel and Kant the discussion ranges over

the writings of Augustine Machiavelli and Alasdair MacIntyre The ideas of historical progress secularization and the decline of religion cultural cycles historical rupture and God in history are all subjected to careful analysis Gordon Graham argues that although unfashionable the claim that history is the story of progress under the guidance of providence is one of the most plausible accounts of the shape of the past *Incense & Iconoclasm* Charles Leonard Moore,1915 **The Shape of Fear** Susan Jennifer Navarette,2021-05-11 During the last decades of the nineteenth century Charles Darwin Thomas Henry Huxley Walter Pater and others changed the nature of thought concerning the human body and the physical environment that had shaped it In response the 1890s saw the publication of a series of remarkable literary works that had their genesis in the intense scientific and aesthetic activity of those preceding decades texts that emphasized themes of degeneration and were themselves stylistically decompositive with language both a surrogate for physical deformity and a source of anxiety Susan J Navarette examines the ways in which scientific and cultural concerns of late nineteenth century England are coded in the horror literature of the period By contextualizing the structural stylistic and thematic systems developed by writers seeking to reenact textually the entropic forces they perceived in the natural world Navarette reconstructs the late Victorian mentalit She analyzes aesthetic responses to trends in contemporary science and explores horror writers use of scientific methodologies to support their perception that a long awaited period of cultural decline had begun In her analysis of the classics *Turn of the Screw* and *Heart of Darkness* Navarette shows how James and Conrad made artistic use of earlier scientific readings of the body She also considers works by lesser known authors Walter de la Mare Vernon Lee and Arthur Machen who produced fin de si cle stories that took the form of hybrid literary monstrosities To underscore the fascination with bodily decay and deformation that these writers explored *The Shape of Fear* is enhanced with prints and line drawings by Victor Hugo James Ensor and other artists of the day This elegantly written book formulates a new canon of late Victorian fiction that will intrigue scholars of literature and cultural history *The Shape of the Past* John Warwick Montgomery,2008-02-05 Dr Montgomery contends that no one can sit in a house by the side of the road and watch the world go by Everyone is caught up in the flux of human life and there is no naturalistic resting resting place within human history from which one can gain a universal absolute perspective on man s life Christianity is the only answer to this basic human predicament for it claims and by the resurrection backs up its claim that there is a God and that He entered human history and revealed its essential nature *Scotland's Future Culture* Stuart McHardy,2017-09-26 The culture of all nations is rooted in past experience individual and communal In *Scotland s Future History* McHardy looked at the misrepresentation of so much of Scotland s political and social history In this new volume he takes a wider look at aspects of Scotland s culture that have been at the heart of how we have developed into who we are in today s world Topics include literature religion history and story the Radical 1790s the remarkable Douglas Young and an introduction to Geomythography a new way of melding prehistory and history to present a new and refreshing way seeing our past Understanding our past is vital to the

process of building a new Scotland in the years ahead As Scotland moves towards reclaiming her status among the nations of the world it is important that we understand just how culturally distinctive we are Being Scottish is no better than having any other nationality but is certainly no worse and as this work hopefully shows it is something worth celebrating
