Wayne te Brake s outstanding synthesis builds on the many studies of popular political action in specific settings and conflicts locating the interaction of rulers and subjects more generally within the multiple political spaces of composite states In these states says Te Brake a broad range of political subjects often religiously divided among themselves necessarily aligned themselves with alternative claimants to cultural and political sovereignty in challenging the cultural and fiscal demands of some rulers This often violent interaction between subjects and rulers had particularly potent consequences during the course of the Reformation the Counter Reformation and the Crisis of the Seventeenth Century But as Te Brake makes clear it was an ongoing political process not a series of separate cataclysmic events Offering a compelling alternative to traditionally elite centered accounts of territorial state formation in Europe this book calls attention to the variety of ways ordinary people have molded and shaped their own political histories As long as there have been governments ordinary people have been acting in a variety of often informal or extralegal ways to influence the rulers who claimed authority over them *Shaping History* shows how ordinary people broke down the institution *Shaping History* Helen Geracimos

Chapin,1996-07-01 Just a decade after the first printing press arrived in Honolulu in 1820 American Protestant missionaries produced the first newspaper in the islands More than a thousand daily weekly or monthly papers in nine different languages have appeared since then Today they are often considered a secondary source of information but in their heyday Hawai i s newspapers formed one of the most diversified vigorous and influential presses in the world In this original and timely work Helen Geracimos Chapin charts the role Hawai i s newspapers played in shaping major historic events in the islands and how the rise of the newspaper abetted the rise of American influence in Hawai i *Shaping History* is based on a wide selection of written and oral sources including extensive interviews with journalists and others working in the newspaper industry Students of journalism and Hawaiian history will find this comprehensive history of Hawai i s newspapers especially valuable

Time and the Shape of History P. J. Corfield, 2007-01-01 In this lively comedy of love and money in sixteenth century Venice Bassanio wants to impress the wealthy heiress Portia but lacks the necessary funds He turns to his merchant friend Antonio who is forced to borrow from Shylock a Jewish moneylender When Antonio's business falters repayment becomes impossible and by the terms of the loan agreement Shylock is able to demand a pound of Antonio's flesh Portia cleverly intervenes and all ends well except of course for Shylock Abbatial Authority and the Writing of History in the Middle Ages

Benjamin Pohl, 2023-08-22 This book argues that abbatial authority was fundamental to monastic historical writing in the period c 500 1500 Writing history was a collaborative enterprise integral to the life and identity of medieval monastic communities but it was not an activity for which time and resources were set aside routinely Each act of historiographical production constituted an extraordinary event one for which singular provision had to be made workers and materials assigned time carved out from the monastic routine and licence granted This allocation of human and material resources was the responsibility and prerogative of the monastic superior Drawing on a wide and diverse range of primary evidence gathered from across the medieval Latin West this book is the first to investigate systematically how and why abbots and abbesses exercised their official authority and resources to lay the foundations on which their communities historiographical traditions were built by themselves and others It showcases them as prolific authors patrons commissioners project managers and facilitators of historical narratives who not only regularly put pen to parchment personally but also and perhaps more importantly enabled others inside and outside their communities by granting them the resources and licence to write Revealing the intrinsic relationship between abbatial authority and the writing of history in the Middle Ages with unprecedented clarity Benjamin Pohl urges us to revisit and revise our understanding of monastic historiography its processes and its protagonists in ways that require some radical rethinking of the medieval historian's craft in communal and institutional contexts

The Arts and the Teaching of History Penney Clark, Alan Sears, 2020-08-26 This book closely examines the pedagogical possibilities of integrating the arts into history curriculum at the secondary and post secondary levels Students encounter expressions of history every day in the form of fiction paintings and commemorative art as well as other art forms Research demonstrates it is often these more informal encounters with history that define students knowledge and understandings rather than the official accounts present in school curricula This volume will provide educators with tools to bring together these parallel tracks of history education to help enrich students understandings and as a mechanism for students to present their own emerging historical perspectives
