by Wallace MacCaffrey

Shaping Of The Elizabethan Regime

A. N. McLaren

Shaping Of The Elizabethan Regime:

The Shaping of the Elizabethan Regime Wallace T. MacCaffrey, 2015-03-08 The fifteen years between the accession of Elizabeth I to the throne and the death of the Duke of Norfolk were a true time of testing for the new regime Originally published in 1971 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Shaping of the Elizabethan Regime Wallace MacCaffrey, 1972

The Shaping of the Elizabethan Regime Wallace T. MacCaffrey, 1969 *The Shaping of the Elizabethan Regime* Wallace MacCaffrey, 1969

Elizabeth I David Loades, 2006-08-23

Elizabethans Patrick Collinson, 2003-04-01 The age of Elizabeth I continues to exercise a fascination unmatched by other periods of English history Yet while the leading figures may seem familiar many Elizabethan figures including the queen herself remain enigmatic In Elizabethans Patrick Collinson examines the religious beliefs both of Elizabeth and of Shakespeare as well as redrawing the main features of the political and religious structure of the reign He understands the characters of the period as individuals but is also sensitive to the attitudes and beliefs of the day

The Shaping of the Elizabethan Regime Wallace Trerithie MacCaffrey, 1969

The Making of the British Isles Steven G. Ellis, Christopher Maginn, 2014-07-15 The history of the British Isles is the story of four peoples linked together by a process of state building that was as much about far sighted planning and vision as coincidence accident and failure It is a history of revolts and reversal familial bonds and enmity the study of which does much to explain the underlying tension between the nations of modern day Britain The Making of the British Isles recounts the development of the nations of England Scotland Wales and Ireland from the time of the Anglo French dual monarchy under Henry VI through the Wars of the Roses the Reformation crisis the reigns of Henry VIII and Elizabeth I the Anglo Scottish dynastic union the British multiple monarchy and the Cromwellian Republic ending with the acts of British Union and the Restoration of the Monarchy

The Reign of Elizabeth 1 Carole Levin, 2017-03-14 The reign of Elizabeth I was marked by change England finally became a protestant nation and England's relations with her neighbours were also changing in part because of religious controversies Elizabeth's reign was also significant in terms of changing gender expectations and in terms of attitudes towards those considered different While a woman ruled others often at the bottom of the social scale were condemned as witches Levin evaluates Elizabeth and the significance of her reign both in the context of her age and our own examining the increasing cultural diversity of Elizabethan England and the impact of the reign of an unmarried queen on gender expectations as well as exploring the more traditional themes of religion foreign policy plots and conspiracies Levin's fresh perspective will be welcomed by students of this exceptional reign

Political

Culture in the Reign of Elizabeth I A. N. McLaren, 1999-12-09 In this major contribution to the Ideas in Context series Anne McLaren explores the consequences for English political culture when with the accession of Elizabeth I imperial kingship came to be invested in the person of a female ruler She looks at how Elizabeth managed to be queen in the face of considerable male opposition and demonstrates how that opposition was enacted Dr McLaren argues that during Elizabeth's reign men were able to accept the rule of a woman partly by inventing a new definition of citizen one that made it an exclusively male identity and she emphasizes the continuities between Elizabeth's reign and the outbreak of the English civil wars in the seventeenth century A significant work of cultural history informed by political thought *Political Culture in the Reign of Elizabeth I* offers a wholesale reinterpretation of the political dynamics of the reign of Queen Elizabeth *This England* Patrick Collinson, 2013-07-19 Patrick Collinson was one of Britain's foremost early modern historians This volume collects together a number of his most interesting and least easily accessible essays with a thoughtful introduction written specifically for this book This England is a celebration of Englishness in the sixteenth century It explores the growing conviction of Englishness through the rapidly developing English language the reinforcement of cultural nationalism as a result of the Protestant Reformation the national and international situation of England at a time of acute national catastrophe and of Queen Elizabeth I the last of her line remaining unmarried refusing to even discuss the succession to her throne Introducing students of the period to an aspect of history largely neglected in the current vogue for histories of the Tudors Collinson investigates the rising role of English of England's God-centredness before focusing on the role of Elizabethans as citizens rather than mere subjects It responds to a demand for a history which is no less social than political and investigates what it meant to be a citizen of early modern England living through the 1570s and 1580s **Women and Politics in Early Modern England, 1450-1700** James Daybell, 2017-03-02 This collection of essays examines women's involvement in politics in early modern England as writers as members of kinship and patronage networks and as petitioners intermediaries and patrons It challenges conventional conceptualizations of female power and influence defining politics broadly in order to incorporate women excluded from formal male dominated state institutions The chapters embrace a range of interdisciplinary approaches historical literary palaeographic linguistic and gender based They deal with a variety of issues related to female intervention within political spheres including women's rhetorical persuasive and communicative skills the production by women of a range of texts that can be termed political the politicization of marital family and kinship networks and female involvement in patronage and court politics *Women and Politics in Early Modern England 1450-1700* also looks at ways in which images of female power and authority were represented within canonical texts such as Shakespeare's plays and Milton's epic poetry The volume extends the range of areas and texts for the study of women gender and politics and locates women's political social and cultural activities within the contexts of the family locality and wider national stage It argues for a blurring of the boundaries between the traditional categories of the public and the private the domestic and

the political and enhances our understanding of the ways in which women exerted political force through informal intimate and personal as well as more official and formal channels of power As a whole the book makes an important contribution to the reassessment of early modern politics from the perspective of women *John Foxe and His World* Christopher Highley, John N. King, 2017-07-05 Interest in John Foxe and his hugely influential text *Acts and Monuments* is particularly vibrant at present This volume the third to arise from a series of international colloquia on Foxe collects essays by established and up and coming scholars It broadly embraces five major areas of early modern studies Roman Catholicism women and gender visual culture the history of the book and historiography Patrick Collinson provides an entire overview of the field of Foxe studies and further essays place Foxe and his work within the context of their times **The Reign of Elizabeth I** John Alexander Guy, 1995-09-07 This book is about the politics and political culture of the last decade of the reign of Elizabeth I in effect the years 1585 to 1603 It argues that this period was so distinctive that it amounted to the second of two reigns It also invites readers at times provocatively to take a critical look at the declining Virgin Queen Many teachers and their students have failed to consider the last decade in its own right or have ignored it having begun their accounts in 1558 and struggled on to the defeat of the Armada in 1588 Only two major political surveys have been attempted since 1926 Both consider mainly the war with Spain and the politics of war and each allots inadequate space to Crown patronage puritanism and religion society and the economy political thought and literature and drama This book written by some of the leading scholars of their generation will be indispensable to a fuller understanding of the age *Behind the Mask* Jane Resh Thomas, 1998 A biography of Elizabeth I Queen of England from her troubled childhood through her forty year reign **Monarchy and Matrimony** Susan Doran, 2002-11-01 Challenges traditional view of Elizabeth as intrinsically hostile to marriage Comprehensive coverage of all the marriage negotiations First to look at marriage negotiations in political context rather than solely from the perspective of Elizabeth's personality and image Based on extensive archival research in Britain France and Spain Draws conclusions about Elizabeth's ability as a ruler **Conspiracies and Conspiracy Theory in Early Modern Europe** Barry Coward, Julian Swann, 2017-07-05 For many generations Guy Fawkes and his gunpowder plot the Man in the Iron Mask and the Devils of Loudun have offered some of the most compelling images of the early modern period Conspiracies real or imagined were an essential feature of early modern life offering a seemingly rational and convincing explanation for patterns of political and social behaviour This volume examines conspiracies and conspiracy theory from a broad historical and interdisciplinary perspective by combining the theoretical approach of the history of ideas with specific examples from the period Each contribution addresses a number of common themes such as the popularity of conspiracy theory as a mode of explanation through a series of original case studies Individual chapters examine for example why witches religious minorities and other groups were perceived in conspiratorial terms and how far if at all these attitudes were challenged or redefined by the Enlightenment Cultural influences on conspiracy theory are also

discussed particularly in those chapters dealing with the relationship between literature and politics As prevailing notions of royal sovereignty equated open opposition with treason almost any political activity had to be clandestine in nature and conspiracy theory was central to interpretations of early modern politics Factions and cabals abounded in European courts as a result and their actions were frequently interpreted in conspiratorial terms By the late eighteenth century it seemed as if this had begun to change and in Britain in particular the notion of a loyal opposition had begun to take shape Yet the outbreak of the French Revolution was frequently explained in conspiratorial terms and subsequently European rulers and their subjects remained obsessed with conspiracies both real and imagined This volume helps us to understand why

Elizabeth I Susan Frye, 1996-11-28 Elizabeth I is perhaps the most visible woman in early modern Europe yet little attention has been paid to what she said about the difficulties of constructing her power in a patriarchal society This revisionist study examines her struggle for authority through the representation of her female body Based on a variety of extant historical and literary materials Frye's interpretation focuses on three representational crises spaced fifteen years apart the London coronation of 1559 the Kenilworth entertainments of 1575 and the publication of *The Faerie Queene* in 1590 In ways which varied with social class and historical circumstance the London merchants the members of the Protestant faction courtly artists and artful courtiers all sought to stabilize their own gendered identities by constructing the queen within the natural definitions of the feminine as passive and weak Elizabeth fought back acting as a discursive agent by crossing and thus disrupting these definitions She and those closely identified with her interests evolved a number of strategies through which to express her political control in terms of the ownership of her body including her elaborate iconography and a mythic biography upon which most accounts of Elizabeth's life have been based The more authoritative her image became the more vigorously it was contested in a process which this study examines and consciously perpetuates

British Women's History, 1996 This is one of a series of bibliographical guides designed to meet the needs of undergraduates postgraduates and their teachers in universities and colleges of further education All volumes in the series share a number of common characteristics They are selective manageable in size and include those books and articles which are considered most important and useful All are edited by practising teachers of the subject in question and are based on their experience of the needs of students The arrangement combines chronological with thematic divisions Most of the items listed receive some descriptive comment **Philip's Phoenix** Margaret P. Hannay, 1990 A biography of Mary Sidney 1561-1621 Countess of Pembroke sister of Sir Philip Sidney based on primary sources such as account books legal documents letters and diaries
