Shark Richard Ellis, 2012-04-17 The sharks ancient or modern real or imaginary have always been with us and will probably remain with us forever They appear not only in movies and literature but in countless permutations of size shape and materials permeating our daily lives with their silent menace In a sense humans live in a world replete with sharks not vice versa Thus Richard Ellis sets about chronicling and debunking the myths of sharks throughout history From 18th century art to the phenomena of JAWS the shark has remained the indomitable aggressor of the deep the last demon of humankind The image of the shark and the fear it inspires infiltrates our daily lives with its mythical power and strength But it is not man who should fear the shark Our need to dominate these predators is destroying them and their habitat Through hundreds of full color images Ellis proves the necessity of preserving these majestic creatures As curator of the Ft Lauderdale Museum of Art s exhibition entitled Shark debuting May 2012 Ellis adeptly turns these sleek efficient hunters from monsters of the deep into rare beautiful forces of nature

Loan Sharks Charles R. Geisst, 2017-04-04 Predatory lending A problem rooted in the past that continues today Looking for an investment return that could exceed 500 percent annually maybe even twice that much Private unregulated lending to high risk borrowers is the answer or at least it was in the United States for much of the period from the Civil War to the onset of the early decades of the twentieth century Newspapers called the practice loan sharking because lenders employed the same ruthlessness as the great predators in the ocean Slowly state and federal governments adopted laws and regulations curtailing the practice but organized crime continued to operate much of the business In the end lending to high margin investors contributed directly to the Wall Street crash of 1929 Loan Sharks is the first history of predatory lending in the United States It traces the origins of modern consumer lending to such older practices as salary buying and hidden interest charges Yet as Geisst shows no holds barred loan sharking is not a thing of the past Many current lending practices employed today by credit card companies payday lenders and providers of consumer loans would have been easily recognizable at the end of the nineteenth century Geisst demonstrates the still prevalent custom of lenders charging high interest rates especially to risky borrowers despite attempts to control the practice by individual states Usury and loan sharking have not disappeared a century and a half after the predatory practices first raised public concern

No Reluctant Citizens Jeremiah Clabough, Timothy Lintner, 2018-06-01 American democracy is at a critical crossroads Rancor division and suspicion are the unfortunate byproducts of the contentious 2016 presidential election The election also bred a measure of civic uncertainty where citizens of all ages struggle to find and define their roles within a functioning democracy No Reluctant Citizens Teaching Civics in K 12 Classrooms is designed to help social studies teachers reinforce the centrality of civic education through a series of hands on participatory and empowering activities From civic literacy to human rights from service learning to controversial issues No Reluctant Citizens Teaching Civics in K 12 Classrooms explores an array of topics that ultimately provides K 12 students the conceptual and practical tools to become civically engaged

Wildlife Issues in a Changing World, 1998-08-18 Students of conservation encounter some of the most complex issues on our planet The resolution of existing problems become more complex when humans create further stresses on the natural balance Moulton and Sanderson brought the challenging issues in wildlife conservation into greater clarity in *Wildlife Issues in a Changing World* The Second Edition of this definitive reference focuses more closely on the causes of wildlife issues The examination of Jared Diamond's *Evil Quartet* the four principal causes of extinction provides a framework for categorizing and resolving these issues The authors encourage the use of the scientific method basis for resolution especially where environmental laws have failed The three new chapters provide further counterpoints to preconceived notions A two part history of wildlife in the U S shows how wildlife had already been decimated by the year 1900 Can Humans Manage Wildlife questions efforts to revive endangered species acts which may inadvertently jeopardize

the survival of other life Viewing the natural order from prehistoric times to the present Wildlife Issues in a Changing World Second Edition gives students and instructors an all encompassing introduction to past relations between humans and nature explorations of current threats to species and their habitats and recent novel solutions where humanity and industry have made adjustments to protect the natural order Professionals will also find invaluable reminders of the importance of their work the continuation and endurance of wildlife everywhere on Earth Advances in Food Authenticity Testing Gerard Downey, 2016-08-08 Advances in Food Authenticity Testing covers a topic that is of great importance to both the food industry whose responsibility it is to provide clear and accurate labeling of their products and maintain food safety and the government agencies and organizations that are tasked with the verification of claims of food authenticity The adulteration of foods with cheaper alternatives has a long history but the analytical techniques which can be implemented to test for these are ever advancing The book covers the wide range of methods and techniques utilized in the testing of food authenticity including new implementations and processes The first part of the book examines in detail the scientific basis and the process of how these techniques are used while other sections highlight specific examples of the use of these techniques in the testing of various foods Written by experts in both academia and industry the book provides the most up to date and comprehensive coverage of this important and rapidly progressing field Covers a topic that is of great importance to both the food industry and the governmental agencies tasked with verifying the safety and authenticity of food products Presents a wide range of methods and techniques utilized in the testing of food authenticity including new implementations and processes Highlights specific examples of the use of the emerging techniques and testing strategies for various foods

Sharks: Conservation, Governance and Management Erika J. Techera, Natalie Klein, 2014-06-05 The key aim of this book is to explore the global conservation and management of sharks There has been a rapid decline in populations of many shark species while new science has emerged of the critical role they play in marine ecosystems However the authors show that conservation law and policy have been slow to develop with only a small number of iconic species being protected worldwide The increase in fishing impact primarily through shark finning and by catch has led to shark conservation receiving greater international attention in recent years The book explores our current knowledge and status of the law and science in relation to sharks with a particular focus on improving frameworks for their conservation and management Recent trends are analysed including shark finning bans that have been put in place in several countries the widening number of nations establishing shark sanctuaries and the growth of shark based tourism The efficacy of current listing processes for endangered species and fisheries regulations is also examined Tourism is explored as an alternative to fishing and the risks and impacts associated with this industry are analysed Contributors include leading authorities from universities and conservation organizations in North America Europe and Australia A common theme is to emphasise the importance of collaborative governance between various interest groups and the need for inter disciplinary research and management

approaches that are necessary to address the decline in sharks *Making Sense of Science* Cornelia Dean, 2017-03-13 A Los Angeles Times Book Prize Finalist Most of us learn about science from media coverage and anyone seeking factual information on climate change vaccine safety genetically modified foods or the dangers of peanut allergies has to sift through an avalanche of bogus assertions misinformation and carefully packaged spin Cornelia Dean draws on thirty years of experience as a science reporter at the New York Times to expose the tricks that handicap readers with little background in science She reveals how activists business spokespersons religious leaders and talk show hosts influence the way science is reported and describes the conflicts of interest that color research At a time when facts are under daily assault *Making Sense of Science* seeks to equip nonscientists with a set of critical tools to evaluate the claims and controversies that shape our lives *Making Sense of Science* explains how to decide who is an expert how to understand data what you need to do to read science and figure out whether someone is lying to you If science leaves you with a headache trying to figure out what's true what it all means and who to trust Dean's book is a great place to start Casper Star Tribune Fascinating Its mission is to help nonscientists evaluate scientific claims with much attention paid to studies related to health Seattle Times This engaging book offers non scientists the tools to connect with and evaluate science and for scientists it is a timely call to action for effective communication Times Higher Education Customs Bulletin , 1996-04 *Secondary Superheroes of Golden Age Comics* Lou Mouglin, 2020-01-13 When Superman debuted in 1938 he ushered in a string of imitators Batman Wonder Woman Captain Marvel Captain America But what about the many less well known heroes who lined up to fight crooks super villains or Hitler like the Shield the Black Terror Crimebuster Cat Man Dynamic Man the Blue Beetle the Black Cat and even Frankenstein These and other four color fighters crowded the newsstands from the late 1930s through the early 1950s Most have since been overlooked and not necessarily because they were victims of poor publication This book gives the other superheroes of the Golden Age of comics their due *The Socioeconomic Importance of Sharks in the U.S. Flag Areas of the Western and Central Pacific* Mike A.
