Jones,2019-11-11 In *Wild Capital* Barbara Jones demonstrates that looking at nature through the lens of the marketplace is a surprisingly effective approach to protecting the environment Showing that policy makers and developers rarely associate wild places with monetary values Jones argues that nature can and should be viewed as a capital asset like any other in order for environmental preservation to be a competitive alternative to development Jones describes how the ecosystem services model a tool that connects human well being with the services nature provides can play a critical role in assigning species and their habitats measurable values She uses five highly recognizable animal species moose manatees sharks wolves and bald eagles as examples to show how highly valued charismatic fauna can serve as symbolic representations of entire ecosystems at risk Through an emphasis on branding incentives and ecotourism Jones advocates for channeling the social and economic power of these and other faces of nature to inspire greater environmental awareness and stewardship Contending that many people don t realize how fiscally pragmatic environmental initiatives can be Jones is optimistic that by recognizing the costs of habitat destruction and diminished biodiversity we will make better choices regarding conservation and development In doing so we can more readily move toward co existence with nature and a sustainable future      **Lancelets, Cyclostomes, Sharks** Henry B. Garrick,1982     Ages of American Capitalism Jonathan Levy,2022-04-05 A leading economic historian traces the evolution of American capitalism from the colonial era to the present and argues that we ve reached a turning point that will define the era ahead A monumental achievement sure to become a classic Zachary D Carter author of *The Price of Peace* In this ambitious single volume history of the United States economic historian Jonathan Levy reveals how capitalism in America has evolved through four distinct ages and how the country s economic evolution is inseparable from the nature of American life itself The Age of Commerce spans the colonial era through the outbreak of the Civil War and the Age of Capital traces the lasting impact of the industrial revolution The volatility of the Age of Capital ultimately led to the Great Depression which sparked the Age of Control during which the government took on a more active role in the economy and finally in the Age of Chaos deregulation and the growth of the finance industry created a booming economy for some but also striking inequalities and a lack of oversight that led directly to the crash of 2008 In *Ages of American Capitalism* Levy proves that capitalism in the United States has never been just one thing Instead it has morphed through the country s history and it s likely changing again right now A stunning accomplishment an indispensable guide to understanding American history and what s happening in today s economy Christian Science Monitor The best one volume history of American capitalism Sven Beckert author of *Empire of Cotton*

**Father Water, Mother Woods** Gary Paulsen,Ruth Wright Paulsen,2011-08-31 Survival in the wilderness Gary Paulsen writes about it so powerfully in his novels *Hatchet* and *The River* because he s lived it These essays recount his adventures alone and with friends along the rivers and in the woods of northern Minnesota There fishing and hunting are serious business requiring skill secrets and inspiration Luck too not every big one gets away This book takes readers through the seasons from the incredible taste of a spring fish fresh from the smokehouse to the first sight of the first deer to the peace of the winter days spent dreaming by the stove in a fishhouse on the ice In Paulsen s north country every expedition is a major one and often hilarious Once again Gary Paulsen demonstrates why he is one of America s most beloved writers for he shows us fishing and hunting as pleasure as art as companionship and as sources of life s deepest lessons     Proceedings of the Seventh International Zoological Congress, Boston, 19-24 August, 1907 ,1912     **Proceedings of the ...
