## **Shattered City The Halifax Explosion And The Road To Recovery:**

**Shattered City** Janet Kitz,2010-09-01 This chronicle of the 1917 Halifax Explosion presents a vivid account of the historic tragedy and the relief and rebuilding efforts that followed On December 6th 1917 the French cargo ship SS Mont Blanc collided with the Norwegian vessel SS Imo in the Narrows that lead into Halifax Harbor The Mont Blanc was carrying a shipment of explosives from New York ultimately bound for Bordeaux France A fire onboard ignited the cargo causing a blast that obliterated everything within a half mile radius The Richmond district of Halifax was destroyed A tsunami created by the blast washed the Imo ashore and wiped out a Mi kmaq community Shattered City is the most comprehensive book on the Halifax Explosion detailing the event the aftermath and the restoration It encompasses dozens of previously unpublished stories photographs and documents along with some thought provoking coverage of the inquiry into the disaster

**Shattered City** Janet F. Kitz,2004 The Halifax Explosion took place on December 6 1917 when a French munitions ship and a Belgian relief vessel collided in the harbour The munitions vessel drifted into the North End and exploded killing more than sixteen hundred people instantly wounding more than nine thousand others and damaging or destroying approximately twelve thousand buildings The complete devastation covered an area of 325 acres and hardly a window in the city was left intact This book the most comprehensive ever written on the explosion details the terrific devastation the aftermath and the restoration It encompasses dozens of previously unpublished stories photographs and documents along with some thought provoking coverage of the inquiry into the disaster A best selling book from its first printing in 1989 this new updated edition includes a comprehensive index and is sure to be a must have for readers *Shattered City : the Halifax Explosion and the Road to Recovery* ,2015 This book the most comprehensive ever written on the Explosion details the terrific devastation the aftermath and the restoration It encompasses dozens of previously unpublished stories photographs and documents along with some thought provoking coverage of the inquiry into the disaster Halifax Explosion Joyce Glasner,2018-06 The Halifax explosion was unprecedented in its devastation with regards to casualties force and radius of the blast and widespread damage to property This book offers a collection of carefully selected visuals that tell the story of the devastation caused by the explosion and the impact it had on Halifax Joyce Glasner focuses on the impact of this wartime disaster on the thousands of survivors *Explosion in Halifax Harbour* David Flemming,2004-10 This book offers a definitive account of the Halifax explosion and its aftermath and the most extensive collection of images many in colour available in print **The Halifax Explosion and the Royal Canadian Navy** John Griffith Armstrong,2011-11-01 The Halifax Explosion of 1917 is a defining event in the Canadian consciousness yet it has never been the subject of a sustained analytical history Astonishingly until now no one has consulted the large federal government archives that contain first hand accounts of the disaster and the response of national authorities Canada s recently established navy was at the epicentre of the crisis Armstrong reveals the navy s compelling and little known story by carefully retracing the events preceding the disaster and the role of the military

in its aftermath He catches the pulse of disaster response in official Ottawa and provides a compelling analysis of the legal manoeuvres rhetoric blunders public controversy and crisis management that ensued His disturbing conclusion is that federal officials knew of potential dangers in the harbour before the explosion took no corrective action and kept the information from the public As a result a Halifax naval officer was made a scapegoat and the navy received lasting and mostly undeserved vilification This is a provocative read not only for military and naval devotees but for anyone who wants to understand one of the events that shaped Canada in the twentieth century Lives of Dalhousie University Peter B. Waite,1994 V 1 1818 1925 Lord Dalhousie s college v 2 1925 1980 the old college transformed *Explosion in Halifax Harbour, 1917* Dan Soucoup,2017-10-30 A riveting account of the collision of two ships and the worst human caused explosion in history before Hiroshima with dozens of photos and illustrations In late 1917 one of the greatest natural harbors in the world was humming with excitement Halifax Harbor was filled with naval convoys and merchant vessels while factories worked overtime in support of the Allied war effort in Europe But on December 6 Canada s worst disaster struck as two ships one carrying high explosives collided The resulting blast killed and injured thousands razing the city s North End and destroying nearly everything in its path This history is an account of tremendous human suffering and devastation yet also of human bravery and survival against all odds Chaos and confusion reigned that day in Halifax and Dartmouth Nova Scotia but what followed was a massive relief effort involving charitable assistance from all over the globe especially Massachusetts *Explosion in Halifax Harbour 1917* includes a detailed account of the event chronicling many remarkable human tragedies rescue and relief efforts attempts to place blame for the collision and the reconstruction program that created Canada s first government assisted housing program Also included are 60 full color images as well as sidebars on many monuments and commemorations that pay tribute to this catastrophic event Begins with a history of Halifax and its harbor and how important it was for the war effort in Europe while there were countless acts of heroism Soucoup writes there were also acts of looting and profiteering *The Star Catastrophe* T. Joseph Scanlon,2020-11-27 *Catastrophe* weaves together compelling stories and potent lessons learned from the calamitous Halifax explosion the worst non natural disaster in North America before 9 11 On December 6 1917 the Canadian city of Halifax Nova Scotia was shattered when volatile cargo on the SS Mont Blanc freighter exploded in the bustling wartime harbour More than nineteen hundred people were killed and nine thousand injured Across more than two square kilometres some 1200 homes factories schools and churches were obliterated or heavily damaged Written from a scholarly perspective but in a journalistic style accessible to the general reader this book explores how the explosion influenced later emergency planning and disaster theory Rich in firsthand accounts gathered in decades of research in Canada the US the UK France and Norway the book examines the disaster from all angles It delivers an inspiring message the women and men at ground zero responded speedily courageously and effectively fighting fires rescuing the injured and sheltering the homeless The book also shows that the generous assistance that later came from central Canada

and the US also brought some unhelpful intrusions by outside authorities Unable to imagine the horror of the initial crisis they ignored or even vilified a number of the first responders This book will be of particular interest to disaster researchers and emergency planners along with journalists and scholars of history Maritime studies and Canadian studies *Counted Among the Dead* Anne Emery, 2024-09-24 Award winning author Anne Emery is back with another Collins Burke team up The students at Father Brennan Burke's choir school have written a two act play about the Halifax Explosion of 1917 The last thing Burke expects is a series of threats against his school and his students designed to make sure they never perform act two Then the body of a young woman Trudi Ebbett is found strangled in Halifax A junior hockey player a friend of one of the students is the last person known to have seen her alive and is suspected of the murder Lawyer Monty Collins hired to represent him cannot find anyone with a motive for killing Trudi But Monty's daughter Normie who is a student at the school and one of the authors of the script joins her dad and Father Burke as they look deeper into the case And they begin to suspect that the death is somehow linked to the threats against the play and the events of 1917 But how could something that happened so long ago be a motive for murder in the 1990s **Blizzard of Glass** Sally M. Walker, 2011-11-22 Recounts the story from World War I in which two towns were leveled and almost two thousand people killed following the collision of two warships in Halifax Harbour and a blizzard that dumped over a foot of snow in the area *Bearing Witness* Michael Dupuis, 2017-06-27T00:00:00Z At approximately 8 45 a m on 6 December 1917 the Belgian Relief vessel IMO struck the munitions laden freighter Mont Blanc in Halifax Harbour The Mont Blanc exploded in a devastating 2 9 kiloton blast which killed 2 000 people and injured 9 000 More than 6 000 people were made homeless and an additional 12 000 were left without shelter *Bearing Witness* tells the story of the Explosion and the catastrophic damage it caused through the eyes and words of more than two dozen journalists and record keepers who experienced it first hand Their accounts reveal a unique perspective offering new detail about the tragedy and providing insight into the individuals who struggled to articulate the magnitude of the shocking event to the rest of the world In addition to the original work by journalists and record keepers Michael Dupuis provides over 30 photographs and illustrations several previously unseen and a detailed timeline of journalistic activities from the time of the Explosion on December 6 to December 16 Learning to Practise Ruby Heap, Wyn Millar, Elizabeth Smyth, 2005-10-25 How does one become a professional This interdisciplinary collection offers new insights into that fundamental question Employing a wide variety of approaches and methodologies the original and thematically linked essays discuss such problematic issues as the most appropriate site for professional education the proper focus and content of the initial and on going preparation of professionals and the nature of both continuity and change in professional education In the process they raise challenging questions about the development of professional education in Canada and elsewhere from the early 19th century to the present day in fields as diverse as the health sciences law engineering social work theology and university teaching An essential resource for those studying the professions this book will also appeal to

practitioners professional associations administrators and faculty in professional schools and to all those interested in the past present and future state of their professions Published in English *Disaster Citizenship* Jacob A.C. Remes,2015-12-30 A century ago governments buoyed by Progressive Era beliefs began to assume greater responsibility for protecting and rescuing citizens Yet the aftermath of two disasters in the United States Canada borderlands the Salem Fire of 1914 and the Halifax Explosion of 1917 saw working class survivors instead turn to friends neighbors coworkers and family members for succor and aid Both official and unofficial responses meanwhile showed how the United States and Canada were linked by experts workers and money In *Disaster Citizenship* Jacob A C Remes draws on histories of the Salem and Halifax events to explore the institutions both formal and informal that ordinary people relied upon in times of crisis He explores patterns and traditions of self help informal order and solidarity and details how people adapted these traditions when necessary Yet as he shows these methods though often quick and effective remained illegible to reformers Indeed soldiers social workers and reformers wielding extraordinary emergency powers challenged these grassroots practices to impose progressive solutions on what they wrongly imagined to be a fractured social landscape **Harbours and Havens** Gordon Jackson,International Maritime Economic History Association,1999 This book is a collection of ten essays concerning various aspects of ports port towns and port history by means of tribute to the maritime historian Gordon Jackson The volumes begins with an appreciation of Gordon Jackson s career and concludes with a bibliography of his published work The first four essays concern British ports Hull Liverpool and Dumfries in particular and the remaining six concern international ports a wide range stretching across the ports of Fremantle Yokohama Dubai and Bremen The essays cover topics such as politics and port management port development throughout history post war port development individual case studies the construction of artificial ports and port policies *Curse of the Narrows* Laura M. Mac Donald,2009-05-26 In 1917 the port of Halifax Nova Scotia was crowded with ships leaving for war torn Europe On December 6th two of them the Mont Blanc and the Imo collided in the Narrows a hard to navigate stretch of the harbor Ablaze and with explosions on her deck filling the sky the Mont Blanc grounded against the city s docks As thousands rushed to their windows and into the streets to watch she exploded with such force that the 3 121 tons of her iron hull vaporized in a cloud that shot up more than 2 000 feet the explosion was so unusual that Robert Oppenheimer would study its effects to predict the devastation of an atomic bomb The blast caused a giant wave that swept over parts of the city followed by a slick black rain that fell for ten minutes Much of the city was flattened and not one in 12 000 buildings within a 16 mile radius left undamaged More than 1 600 Haligonians were killed and 6 000 injured and within twenty four hours a blizzard had isolated Halifax from the world Set vividly against the background of World War I *Curse of the Narrows* is the first major account of the world s largest pre atomic explosion the epic relief mission from Boston and the riveting trial of the Mont Blanc s captain and pilot Laura M Mac Donald is as adept at describing the dynamics of a chain reaction explosion as she is at chronicling unforgettable human dramas of miraculous

survival unfathomable loss and the medical breakthroughs in pediatrics and eye surgery that followed the disaster Using primary sources many of which haven't been read in decades and with a wonderful feel for narrative history Mac Donald chronicles one of the most compelling and dramatic events of the 20th century      **The World of Maritime and**

Interwar Halifax was a city in flux a place where citizens debated adopting new ideas and technologies but agreed on one thing modernity was corrupting public morality and unleashing untold social problems on their fair city In this context citizens policy makers and officials turned to the criminal justice system to create a bulwark against further social dislocation Officials modernized the city's machinery of order courts prisons and the police force and placed greater emphasis on crime control while residents supported tough on crime measures and attached little importance to rehabilitation These initiatives gave birth to a constructed vision of a criminal class that singled out ethnic minorities working class men and female and juvenile offenders as problem figures in the eternal quest for order Michael Boudreau's in depth study of crime and culture in interwar Halifax the first of its kind shows how tough on crime measures can compound rather than resolve social inequalities and dislocations      The Blind Mechanic Marilyn Davidson Elliot, 2021-04-06

A daughter's inspiring biography of her father who lost his sight in a massive maritime disaster and went on to build a rewarding life and career Eric Davidson was a beautiful fair haired toddler when the historic Halifax Explosion struck devastating the Nova Scotia capital and killing almost two thousand people while seriously injuring thousands more Eric lost both eyes a tragedy that his mother never fully recovered from Eric however was positive and energetic He also developed a fascination with cars and how they worked and
