Shattered Illusions Analysing The War On Terrorism:

Shattered Illusions Aftab Ahmad Malik, 2002 **Writing the War on Terrorism** Richard Jackson, 2005-07-22 This book examines the language of the war on terrorism and is essential reading for anyone wanting to understand how the Bush administration's approach to counter terrorism became the dominant policy paradigm in American politics today

Securitization and the Iraq War Faye Donnelly, 2013-08-15 This book critiques the conceptualization of security found in mainstream and critical theoretical debates and applies this to the empirical case of the 2003 Iraq War The Iraq War represents one of the most puzzling complex and controversial events in the post Cold War era The manner in which the Bush administration finally decided to hold Saddam Hussein accountable through military intervention provoked a worldwide outcry due to the narratives they constructed to justify the pre-emptive use of force and enhanced interrogation techniques Responding to constructivist and post-structuralist scholars calls for a turn to discourse and aligning its argument with critical security studies particularly the Copenhagen School CS this book conceptualizes language as a pivotal mechanism of power Adopting a Wittgensteinian approach it moves away from thinking about the nexus between security and language from a single action or speech act to a series of actions or interactions To illustrate this new approach the author examines two cases in particular the UN inspectors finding that there was no credible evidence that Iraq possessed weapons of mass destruction WMD in early 2003 and the Abu Ghraib scandal in 2004 Both events show that the boundaries and relations between securitized rules and environments are not pre-given but produced in a particular language game This book will be of much interest to students of critical security studies US foreign policy and IR in general **Critical Terrorism Studies**

Richard Jackson, Marie Breen Smyth, Jeroen Gunning, 2009-02-05 In direct response to the growth of a critical perspective on contemporary issues of terrorism this edited volume brings together a number of leading scholars to debate the need for and the shape of the exciting new subfield of critical terrorism studies *The Road to Al-Qaeda* Montasser Al-Zayyat, 2004-01-20

Reasoning with God Khaled Abou El Fadl, 2014-10-23 In light of recent concern over Shari ah such as proposed laws to prohibit it in the United States and conflict over the role it should play in the new Egyptian constitution many people are confused about the meaning of Shari ah in Islam and its role in the world today In Reasoning with God renowned Islamic scholar Khaled Abou El Fadl explains not only what Shari ah really means but also the way it can revitalize and reengage contemporary Islam After a prologue that provides an essential overview of Shari ah Abou El Fadl explores the moral trajectory of Islam in today s world Weaving powerful personal stories with broader global examples he shows the ways that some interpretations of Islam today have undermined its potential in peace and love Rather than simply outlining challenges however the author provides constructive suggestions about how Muslims can reengage the ethical tradition of their faith through Shari ah As the world s second largest religion Islam remains an important force on the global stage Reasoning with God takes readers both Muslim and non Muslim beyond superficial understandings of Shari ah to a deeper understanding of its meaning and potential
