Fuentes, Sarah Marak, Heike Paul, 2023-07-06 The romance of extraction underlies and partly defines Western modernity and our cultural imaginaries Combining affect studies and environmental humanities this volume analyzes societies devotion to extraction and fossil resources This devotion is shaped by a nostalgic view on settler colonialism as well as by contemporary affective economies Sara Ahmed The contributors examine the links between forms of extractivism and gendered discourses of sentimentality and the ways in which cultural narratives and practices deploy the sentimental mode in plots of attachment sacrifice and suffering to promote or challenge extractivism

### **A Cultural History of the Sea in the Age of Empire**

Margaret Cohen, 2023-02-09 Across the 19th century maritime globalization expanded at a hitherto unimaginable pace transforming transport and communications over the seas into oceanic networks at a planetary scale These networks shaped culture in its most expansive sense affecting seafaring warfare empire commerce communications passenger travel leisure and science Authors recover the sea experience of people and groups entangled with and yet neglected in an earlier generation of maritime history focused on conquest empire and knowledge Thus across a century when Britannia nominally ruled the waves military control emerges as both opportunistic harboring slavers as well as partial giving agency to mutineers and enslaved crew members including on the Royal Navy's own fleet the wreck of Arctic exploring voyages such as the Erebus and the Terror takes readers to PanInuit exploration over sea ice around the Arctic circle colonial and mercantile transport in the Indian Ocean reveals the role of lascars the seafarers of color who for centuries had practiced these waters on the coasts of industrial nations the professional establishment of marine sciences depends on the pathbreaking contributions of female amateur naturalists As part of its revisionary aim this volume gives voice to the physical environment Thus we discover contrasting perspectives about this environment under threat today of European mariners for whom it was deadly and treacherous and for maritime Aborigines who lived in its shelter Considering literature and art as well as history authors further trace how the paradoxes of sea practice shape some of the most memorable ocean fantasies of the Western tradition fostering both a celebration of work and technology and a preservation of secular magic in a disenchanted world

Gender at Sea Marleen Reichgelt e.a., 2022-12-14 For centuries seafaring people thought that the presence of women on board would mean bad luck rough weather shipwreck and other disasters were sure to follow Because of these beliefs and prejudices women were supposedly excluded from the maritime domain In the field of maritime history too the ship and the sea have predominantly been perceived as a space for men This volume of the Yearbook of Women's History challenges these notions It asks to what extent were the sea and the ship ever male dominated and masculine spaces How have women been part of seafaring communities maritime undertakings and maritime culture How did gender notions impact life on board and vice versa From a multidisciplinary perspective this volume moves from Indonesia to the Faroe Islands from the Mediterranean to Newfoundland bringing to light the presence of women and the workings of gender on sailing whaling steam cruise passenger pirate and navy ships As a whole it demonstrates the diversity and the agency of women at sea from

ancient times to the present day      **Iron Men, Wooden Women** Margaret S. Creighton, Lisa Norling, 1996-05 From the voyage of the Argonauts to the Tailhook scandal seafaring has long been one of the most glaringly male dominated occupations In this groundbreaking interdisciplinary study Margaret Creighton Lisa Norling and their co authors explore the relationship of gender and seafaring in the Anglo American age of sail Drawing on a wide range of American and British sources from diaries logbooks and account ledgers to songs poetry fiction and a range of public sources the authors show how popular fascination with seafaring and the sailors rigorous male only life led to models of gender behavior based on iron men aboard ship and stoic women ashore Yet Iron Men Wooden Women also offers new material that defies conventional views The authors investigate such topics as women in the American whaling industry and the role of the captain s wife aboard ship They explore the careers of the female pirates Anne Bonny and Mary Read as well as those of other women transvestite heroines who dressed as men to serve on the crews of sailing ships And they explore the importance of gender and its connection to race for African American and other seamen in both the American and the British merchant marine Contributors include both social historians and literary critics Marcus Rediker Dianne Dugaw Ruth Wallis Herndon Haskell Springer W Jeffrey Bolster Laura Tabili Lillian Nayder and Melody Graulich in addition to Margaret Creighton and Lisa Norling      **Hidden History of Mystic & Stonington** Gail B. sweeping social and economic history provides rich and often fantastic accounts of the men themselves who mutinied murdered rioted deserted drank scrimshawed and recorded their experiences in journals and memoirs Containing a wealth of naturalistic detail on whales *Leviathan* is the most original and stirring history of American whaling in many decades In the Wake of Madness Joan Druett,2004-01-04 After more than a century of silence the true story of one of history's most notorious mutinies is revealed in Joan Druett's riveting nautical murder mystery USA Today On May 25 1841 the Massachusetts whaleship *Sharon* set out for the whaling ground of the northwestern Pacific A year later while most of the crew was out hunting Captain Howes Norris was brutally murdered When the men in the whaleboats returned they found four crew members on board three of whom were covered in blood the other screaming from atop the mast Single handedly the third officer launched a surprise attack to recapture the *Sharon* killing two of the attackers and subduing the other An American investigation into the murder was never conducted even when the *Sharon* returned home three years later with only four of the original twenty nine crew on board Joan Druett a historian who's been called a female Patrick O Brian by the Wall Street Journal dramatically re creates the mystery of the ill fated whaleship and reveals a voyage filled with savagery under the command of one of the most ruthless captains to sail the high seas *Index to the Hawaiian Journal of History* Lela Goodell,Agnes C. Conrad,2004 The Hawaiian Journal of History first published in 1967 is a scholarly journal devoted to original articles on the history of Hawaii Polynesia and the Pacific area Each issue includes articles illustrations book reviews notes and queries and a bibliography of Hawaiian titles of historical interest This is the index to over 300 articles **Ahab's Rolling Sea** Richard J. King,2019-11-11 In this invigorating study a maritime historian delves into the environmental and scientific concerns beneath the surface of Melville's epic tale *Nature* One of the most profound and enduring works of American fiction Herman Melville's *Moby Dick* is also a landmark of nature writing In conversation with the works of Emerson and Thoreau this epic of the sea draws on Melville's own travels to the Pacific The author spent more than three years at sea before writing his masterpiece in 1851 Ahab's *Rolling Sea* is a chronological journey through the natural history of Melville's novel From white whales to whale intelligence giant squids barnacles albatross and sharks Richard J King examines what Melville knew from his own experiences and the sources available to a reader in the mid 1800s exploring how and why Melville might have twisted what was known to serve his fiction King then climbs to the crow's nest setting Melville in the context of the American perception of the ocean in 1851 at the very start of the Industrial Revolution and just before the publication of *On the Origin of Species* King compares Ahab's and Ishmael's worldviews to how we see the ocean today an expanse still immortal and sublime but also in crisis Featuring a coffer of illustrations and an array of interviews with contemporary scientists fishers and whale watch operators Ahab's *Rolling Sea* offers new insight into a cherished masterwork its adventurous author and our own evolving relationship with the briny deep *Furs and Frontiers In the Far North* John R. Bockstoe,2009-09-15 This comprehensive history of the native and maritime fur trade in Alaska during the

eighteenth and nineteenth centuries is without precedent The Bering Strait formed the nexus of the circumpolar fur trade in which Russians British Americans and members of fifty native nations competed and cooperated The desire to dominate the fur trade fed the European expansion into the most remote regions of Asia and America and was an agent of massive change in these regions Award winning author John R Bockstoce fills a major gap in the historiography of the area in covering the scientific commercial and foreign relations implications of the northern fur trade In addition the book provides rare insight into the relationship between the Western powers and the Native Americans who provided them with fur ivory and whalebone in exchange for manufactured goods tobacco tea alcohol and hundreds of other things But this is also the story of the enterprising individuals who energized the Alaskan fur trade and in doing so forever altered the region s history

**Maritime Labour** Richard Gorski,2007 This is a collection of soundings into various aspects of the history of maritime labor from the close of the Middle Ages to the present The spatial emphasis of the essays is north European and Atlantic since they deal with the countries around the North Sea and Baltic with some coverage of North America Indeed from time to time the authors leave the sea behind in order to examine broader issues such as labor markets the regulation and institutions of seafaring and industrial relations on the waterfront But at all points there is a common theme of sea related labor and a common objective of better understanding what have often been perceived as difficult and elusive groups of people

**Religion in the Lands That Became America** Thomas A. Tweed,2025-05-13 A sweeping retelling of American religious history showing how religion has enhanced and hindered human flourishing from the Ice Age to the Information Age Until now the standard narrative of American religious history has begun with English settlers in Jamestown or Plymouth and remained predominantly Protestant and Atlantic Driven by his strong sense of the historical and moral shortcomings of the usual story Thomas A Tweed offers a very different narrative in

this ambitious new history He begins the story much earlier 11 000 years ago at a rock shelter in present day Texas and follows Indigenous Peoples African Americans transnational migrants and people of many faiths as they transform the landscape and confront the big lifeway transitions from foraging to farming and from factories to fiber optics Setting aside the familiar narrative themes he highlights sustainability showing how religion both promoted and inhibited individual communal and environmental flourishing during three sustainability crises the medieval Cornfield Crisis which destabilized Indigenous ceremonial centers the Colonial Crisis which began with the displacement of Indigenous Peoples and the enslavement of Africans and the Industrial Crisis which brought social inequity and environmental degradation The unresolved Colonial and Industrial Crises continue to haunt the nation Tweed suggests but he recovers historical sources of hope as he retells the rich story of America's religious past *Literature of Travel and Exploration* Jennifer
