Violence and the Cultural Politics of Trauma Jane Kilby, 2007-04-18 During the late 1970s and 1980s speaking out about the traumatic reality of incest and rape was a rare and politically groundbreaking act Today it is a ubiquitous feature of popular culture and its political value uncertain In *Violence and the Cultural Politics of Trauma* Jane Kilby explores the complexity and consequences of this shift in giving first hand testimony by focusing on debates over recovered memory therapy and false memory syndrome the spectacle of talkshow disclosures discourses of innocence and complicity as well as the aesthetics and affect of shock In counterpoint to the frequently cynical readings of personal narrative politics Kilby advances an alternative reading built around the concept of unrepresentability Key to this intervention is the stress placed by Kilby on the limits of representing sexually traumatic experiences and how this requires both theoretical and methodological innovation Based on close readings of survivor narratives and artworks this book demonstrates the significance of unrepresentability for a feminist understanding of sexual violence and victimisation The book will of interest to those working in the areas of Cultural Literary Media and Women s Studies as well as Memory and Trauma Studies

Key Features Provides a topical discussion of the debates generated by a mass culture of speaking out about violence and victimisation Offers an interdisciplinary case study analysis of survivor testimony Applies cutting edge developments in trauma and testimony theory to a feminist analysis of women s incest testimony Makes accessible the significance of unrepresentability for a cultural politics of trauma

Creativity and the Dissociative Patient Lani Elaine Gerity, 1999 Lani Gerity shows in this book that puppet making incorporating both art and narrative provides an ideal vehicle for therapeutic work It is particularly valuable in the treatment of dissociative patients whose symptoms may include disturbances in body image a dissociated sense of self a disrupted sense of history and causality and a feeling of alienation from the self Lani Gerity explores the application of this in the context of object relations theory She shows the creative process working on many levels for dissociative individuals and groups Making puppets three dimensional representations of the human body helped one patient to integrate her sense of her body image and herself Using puppets and creating narratives about them encourages patients to build communities and to release themselves from the hold of the trauma of their pasts Descriptions and analyses of Gerity s work with dissociative patients in the US and Canada is underpinned by a theoretical framework which encompasses theories from the arts therapies and from psychiatry

The Healing Flow: Artistic Expression in Therapy Martina Schnetz, 2004-10-15 Drawing on her extensive experience as a creative arts therapist Martina Schnetz puts forward a new approach to the process of art in healing She explores the dialogue between the internal world external images and words shaping a new vocabulary for creative arts therapists The

Healing Flow Artistic Expression in Therapy is a theoretical and experiential account of the author's work with survivors of childhood trauma and post-traumatic stress. Case studies are presented in this model through providing deeper insight into the creative processes participants recover meaningful patterns in their lives and restore connectedness between themselves and the world. Feminism and Method Nancy A. Naples, 2013-10-16 Naples draws on different research topics such as welfare, poverty, sexual identity and sexual abuse to illustrate some of the most salient dilemmas of feminist research: the debate over objectivity, the paradox of discourse, the dilemma of standpoint and the challenges of activist research. By linking important feminist theoretical debates with case studies, Naples illustrates the strategies she developed for resolving the challenges posed by postmodern, Third World, postcolonial and queer studies. The Complete Handbook for College Women Carol Weinberg, 1994-07-01 Increasingly, college is portrayed as posing as many perils for young women as it does opportunities and challenges. The cover of The New York Times Magazine tells us that Crime Turns The Campus into an Armed Camp at the same time that dozens of schools experience painful racial upheavals. Date rape, eating disorders, drugs and alcohol, hate crimes, the recent firestorm over political correctness all have combined recently to make college seem a daunting, even threatening experience. This need not be so, says Carol Weinberg, and in The Complete Handbook for College Women she provides concrete, incisive advice to help young women make the most of their college experience. Away from home for the first time in an unfamiliar environment, paired with a stranger as a roommate, the college student faces a number of imposing academic and social challenges. As an experienced college administrator who has spent over twenty years working with students at a range of colleges, Weinberg is an ideally suited guide to help young women navigate their way through what may well be the most formative experience of their lives. Written in a straight-forward, personable manner, The Complete Handbook for College Women is must reading for both college-bound women and students already at school, as well as a valuable guide for administrators, parents and anyone involved with higher education. Issues discussed include: first arrival and issues of independence and responsibility, family ties and loneliness, assertiveness and conflict resolution, physical and emotional health, eating disorders, alcohol and drugs, codependency, sexuality, sexual harassment, sexual abuse, rape and personal safety, and the many components of living in a diverse environment such as ethnicity, religion, sexual orientation, class, disability, age and appearance. Table of Contents: Introduction 1. Arrival, Independence, Freedom and Responsibility 2. Family Ties 3. Assertiveness and Conflict Resolution 4. Taking Care of Yourself 5. Eating Disorders 6. Alcohol and Drugs 7. Codependency 8. Sexuality 9. Sexual Harassment 10. Sexual Abuse, Rape and Personal Safety 11. Living in a Diverse Environment 12. Ethnicity and Culture 13. Religion 14. Haunted Bodies Anne Goodwyn Jones, Susan Van D'Elzen Donaldson, 1997 In Haunted Bodies, Anne Goodwyn Jones and Susan V. Donaldson have brought together some of our most highly regarded southern historians and literary critics to consider race, gender and texts through three centuries and from a wealth of vantage points.

Works as diverse as eighteenth century court petitions and lyrics of 1970s rock music demonstrate how definitions of southern masculinity and femininity have been subject to bewildering shifts and disabling contradictions for centuries

The Woman in the Red Dress Minrose Gwin, 2002 Graceful and impassioned *The Woman in the Red Dress* offers important new approaches to narratives about father daughter incest as well as stories that contaminate the myth of home as a safe space and map a geography of sexual violence victimization and survival Gwin situates her analysis of fiction such as Morrison's *The Bluest Eye* Alice Walker's *The Color Purple* Dorothy Allison's *Bastard out of Carolina* and Jane Smiley's *A Thousand Acres* within contemporary debates concerning survivor discourse theories of domestic space and issues of race and class She also explores books such as Hulme's *The Bone People* that enter a murky and liminal queer space in which gender itself travels and the most claustrophobic physical and social spaces can unexpectedly unhinge and open **Lesbian Couples** D. Merilee Clunis, G. Dorsey Green, 2004-12-21 Written by two experienced lesbian therapists *Lesbian Couples* covers a range of topics from marriage to money to conflict resolution and presents a variety of helpful examples and problem solving techniques drawing from research done on lesbian couples over the past decade *Gossips, Gorgons and Crones* Jane Caputi, 1993-10 *Gossips Gorgons Crones* is the first comprehensive analysis of nuclear age culture and the accompanying return of female Powers Based in feminist pre patriarchal and Native American philosophies this book provides a biting critique of patriarchal practices myths and values including family values **Goddesses and Monsters** Jane Caputi, 2004 The essays focus upon popular culture as it is informed by ancient and current mythic images narratives personalities icons and archetypes Topics include the cult status of the serial sex killer sexual murder as a contemporary form of religious sacrifice pornography as an everyday narrative underlying not only sexism but also racism homophobia and militarism the relation of incest to nuclearism pornography and the sacred cyborg myth and subtextual presence of ancient goddess figures in contemporary narratives including that of Princess Diana **Skeletons in the Closet** Jan E. Trost, 2011-01-17 *Skeletons in the Closet* consists of ten essays about unresolved or unresolvable family conflicts The contributors start from the assumption that families whether legal marriage families common law marriage families single parent families multiple generation families same sex partnerships or adoptive families are cradles of intense emotion That intensity they argue may translate into conflict competition domination abuse exploitation or even hate This book explores those areas most likely to grip family members in unresolved interpersonal strife as well as the strategies people use to solve the issues and the shame and isolation that conflict brings in societies that normatively expect family life to be one of joy mutual sharing and caring *Violent States and Creative States (Volume 2)* John Adlam, Tilman Kluttig, Bandy Lee, 2018-05-03 This is a provocative collection exploring the different types of violence and how they relate to one another examined through the integration of several disciplines including forensic psychotherapy psychiatry sociology psychosocial studies and political science By examining the violent states of mind behind specific forms of violence and the social and

societal contexts in which an individual act of human violence takes place the contributors reveal the dynamic forces and reasoning behind specific forms of violence including structural violence and conceptualise the societal structures themselves as violent states Other research often stops short at examining the causes and risk factors for violence without considering the opposite states that may not only mitigate but allow for a different unfolding of individual and societal evolution As a potential antidote to violence the authors prescribe an understanding of these creative states with their psychological origins and their importance in human behaviour and meaning seeking Making a call to move beyond merely mitigating violence to the opposite direction of fostering creative potential this book is foundational in its capacity to cultivate social consciousness and effect positive change in areas of governance policy making and collective responsibility

Volume 2 Human Violence and Creative Humanity explores violent states of mind behavioural or subjective interpersonal violence including self injury and the fine distinctions between violent and creative states of mind Poetry and Story Therapy Geri Giebel Chavis, 2011-08-15 This accessible book explores the therapeutic possibilities of poetry and stories providing techniques for facilitating personally relevant and growth enhancing sessions The author provides ideas for writing activities that emerge from this discussion and explains how participants can create their own poetic and narrative pieces

Unspeakable Lynn Sacco, 2009-08-17 First place Large Nonprofit Publishers Illustrated Covers 2010 Washington Book Publishers Named one of the Top Five Books of 2009 by Anne Grant The Providence Journal This history of father daughter incest in the United States explains how cultural mores and political needs distorted attitudes toward and medical knowledge of patriarchal sexual abuse at a time when the nation was committed to the familial power of white fathers and the idealized white family For much of the nineteenth century father daughter incest was understood to take place among all classes and legal and extralegal attempts to deal with it tended to be swift and severe But public understanding changed markedly during the Progressive Era when accusations of incest began to be directed exclusively toward immigrants blacks and the lower socioeconomic classes Focusing on early twentieth century reform movements and that era's epidemic of child gonorrhea Lynn Sacco argues that middle and upper class white males too molested female children in their households even as official records of their acts declined dramatically Sacco draws on a wealth of sources including professional journals medical and court records and private and public accounts to explain how racial politics and professional self interest among doctors social workers and professionals in allied fields drove claims and evidence of incest among middle and upper class white families into the shadows The new feminism of the 1970s she finds brought allegations of father daughter incest back into the light creating new societal tensions Against several different historical backdrops public accusations of incest against genteel men in the nineteenth century the epidemic of gonorrhea among young girls in the early twentieth century and adult women's incest narratives in the mid to late twentieth century Sacco demonstrates that attitude shifts about patriarchal sexual abuse were influenced by a variety of individuals and groups seeking to protect their own interests
