Seamanship in the Age of Sail John H. Harland, 1984 Numerous successful reprints of contemporary works on rigging and seamanship indicate the breadth of interest in the lost art of handling square rigged ships Modelmakers marine painters and enthusiasts need to know not only how the ships were rigged but how much sail was set in each condition of wind and sea how the various manoeuvres were carried out and the intricacies of operations like reefing sails or catting an anchor Contemporary treatises such as Brady s Kedge Anchor in the USA or Darcy Lever s Sheet Anchor in Britain tell only half the story for they were training manuals intended to be used at sea in conjunction with practical experiences and often only cover officially condoned practices This book on the other hand is a modern objective appraisal of the evidence concerned with the actualities as much as the theory The author s facility in a remarkable range of languages has allowed him to study virtually every manual published over a period of nearly four centuries This gives the book a completely international balance and allows the author to describe for the first time the proper historical development of seamanship among the major navies of the world *Publisher and Bookseller* , 1905 Vols for 1871 76 1913 14 include an extra number The Christmas bookseller separately paged and not included in the consecutive numbering of the regular series Turmoil Michael Layland, 2025-11-04 Meticulously researched and engagingly written Turmoil The Life and Times of Philip Hankin follows the daring rocky life of a world traveler marine charter four time acting head of government and larger than life personality who has for too long been an unseen shadow in the background of B C s turbulent early history Hailing from a frigid aristocratic family in England Philip Hankin first landed in Esquimalt British Columbia in 1847 as a young man in the Royal Navy By then he was already a world traveller who had spent time on expeditions hunting slavers on the coast of West Africa and been personally gifted signed portraits from the King and Queen of Hawai i A gregarious man with a penchant for gravitating

toward the people and positions that would shape the early development of the region Philip Hankin was a subtle but fascinating force on Vancouver Island in the latter half of the nineteenth century Turmoil traces a remarkable man's life from birth painting an engrossing portrait of both one individual and of a whole region in flux Philip Hankin touched the history of the islands first as a member of the navy working on the first accurate marine chart of local waters and delineating the boundary with the United States then as a linguistic enthusiast and negotiator with Indigenous communities and finally as a superintendent of the police an administrator under three governors and acting head of government on four separate occasions Published for the first time in Turmoil is also the word list co created in 1861 by Philip Hankin and a member of Huu ay aht First Nation that features three hundred words thirty five phrases numbers and the Lord's Prayer This list was a tremendous early contribution to linguistic scholarship and cross cultural communication lost to the archives introduced here by Dr Henry Kammler of the University of Munich Institute of Ethnology Rigorously researched and featuring excerpts from Hankin's biography letters and numerous primary sources award winning author and historian Michael Layland reveals mysterious traumas and tipping points in Hankin's life that go unmentioned in his memoir and from the twists and turns of one man's journey outlines the complicated global and regional forces that with varying degrees of subtlety and force moulded British Columbia as we know it today
