Catalog of Copyright Entries. New Series Library of Congress. Copyright Office,1932 , **The Complete Idiot's Guide to Frauds, Scams, and Cons** Duane Swierczynski,2002-12-03 The main target for scams are those 50 years of age or older This book will expose all the latest scams frauds and cons and can be updated yearly if necessary to expose all the latest schemes Fraud credit card fraud telemarketing scares Internet scares identity theft and hundreds of other items that are geared to separate you from your money is a multi billion dollar business both in the U S and worldwide From a simple three card monte game on a street corner to sophisticated banking and Wall Street swindles cons frauds and scams are destined to strike one in ten Americans this year Check kiting ATM scares bankruptcy fraud real estate scams Nigerian money offers and even slave reparation scams there are hundreds maybe thousands of ways to get suckered by telemarketers or just plain fast talking swindlers Scary stuff right This book identifies the myriad of scams cons and frauds perpetrated every minute of every day in this country and gives cutting edge up to date advice on how you can protect yourself from unscrupulous cons of every conceivable stripe There will also be an entertaining section on con artists through history from the infamous grifters of the Great Depression to the masterminds of the recent Enron collapse perhaps one of the greatest scams in America s history Materialising the Roman Empire Jeremy Tanner,Andrew Gardner,2024-03-19 Materialising the Roman Empire defines an innovative research agenda for Roman archaeology highlighting the diverse ways in which the Empire was made materially tangible in the lives of its inhabitants The volume explores how material culture was integral to the processes of imperialism both as the Empire grew and as it fragmented and in doing so provide up to date overviews of major topics in Roman archaeology Each chapter offers a critical overview of a major field within the archaeology of the Roman Empire The book s authors explore the distinctive contribution that archaeology and the study of material culture can make to our understanding of the key institutions and fields of activity in the Roman Empire The initial chapters address major technologies which at first glance appear to be mechanisms of integration across the Roman Empire roads writing and coinage The focus then shifts to analysis of key social structures oriented around material forms and activities found all over the Roman world such as trade urbanism slavery craft production and frontiers Finally the book extends to more abstract dimensions of the Roman world art empire religion and ideology in which the significant themes remain the dynamics of power and influence The whole builds towards a broad exploration of the nature of imperial power and the inter connections that stimulated new community identities and created new social divisions *Bishops, Community and Authority in Late Roman Society* Rebecca Devlin,2025-10-01 When the bishop Hydatius found himself held hostage in Gallaecia a Roman province in the northwestern Iberian Peninsula by a band of Sueves in the year 460 he deployed his experience as an ambassador for his congregation and used his captivity as a tool for negotiating peace As this example shows bishops held considerable economic political and social power in the early Middle Ages The expansion of ecclesiastical influence was not

however a simple consequence of the legalization of Christianity or a power vacuum that followed the withdrawal of imperial authority The transformation of the episcopate resulted instead from dynamic processes to which all status groups contributed and that are best understood through contextual and diachronic analysis This monograph focuses on the clerical community in Gallaecia and employs a case study and interdisciplinary approach incorporating written and material evidence to put bishops like Hydatius in their larger social and economic contexts to elucidate why the people living and working in their sees would imbue them with increasing authority and explain how their roles within their local communities expanded This book Analyses the accumulation of political power social capital and local influence by bishops approaching them as part of a larger social system understood as a whole that experienced transformative change across all of its layers Deploys all evidence written material etc without privileging one form over the other a priori to produce a deep reconstruction of the social and physical contexts micro historical landscapes in which bishops operated to explain their rise to prominence Turns the problem of Iberian early medieval written sources on its head i e the NW and clerical authors are overrepresented by engaging in a series of diachronic case studies to develop a rich understanding of episcopal influence in the NW as a point of departure for understanding broader developments in the late and post Roman periods Classical Archaeology Susan E. Alcock, Robin Osborne, 2012-03-14 The fully revised second edition of this successful volume includes updates on the latest archaeological research in all chapters and two new essays on Greek and Roman art It retains its unique paired essay format as well as key contributions from leading archaeologists and historians of the classical world Second edition is updated and revised throughout showcasing the latest research and fresh theoretical approaches in classical archaeology Includes brand new essays on ancient Greek and Roman art in a modern context Designed to encourage critical thinking about the interpretation of ancient material culture and the role of modern perceptions in shaping the study of art and archaeology Features paired essays one covering the Greek world the other the Roman to stimulate a dialogue not only between the two ancient cultures but between scholars from different historiographic and methodological traditions Includes maps chronologies diagrams photographs and short editorial introductions to each chapter *Roman Domestic Art and Early House Churches* David L. The Ancient Roman Afterlife Charles King, 2020-03-10 In ancient Rome it was believed some humans were transformed into special empowered beings after death These deified dead known as the manes watched over and protected their surviving family members possibly even extending those relatives lives But unlike the Greek hero cult the worship of dead emperors or the Christian saints the manes were incredibly inclusive enrolling even those without social clout such as women and the poor among Rome's deities The Roman afterlife promised posthumous power in the world of the living While the manes have often been glossed over in studies of Roman religion this book brings their compelling story to the forefront exploring their myriad forms and how their worship played out in the context of Roman religion's daily practice Exploring the place of the manes in Roman society Charles King delves into Roman beliefs about their powers to sustain life and bring death to individuals or armies examines the rituals the Romans performed to honor them and reclaims the vital role the manes played in the ancient Roman afterlife
