Privatization Of Schooling A Powerful Way To Change Schools And Enhance Learning:

The Privatization of Schooling Joseph Murphy,1996-06-19 Focusing on an important emerging issue in United States education school reform via privatization this book is designed to meet three major goals to examine the foundations and the context of the privatization movement to review the evidence on privatization in areas other than schooling and to shape decisions about privatization in the school reform arena

Reframing Education as a Public and Common Good Rita Locatelli,2019-08-19 This book examines the normative principles that guide the governance of education in particular the notion of education as a public good Determining whether this concept is still valid is a topic of growing importance especially considering the phenomena of increasing privatisation and marketisation in the sector The author posits that the prioritisation of economic aspects of education may lead to the weakening of the role of the State in ensuring equality of opportunity and social justice and thus to a significant risk of considering education as merely a private marketable good The volume argues that considering education as a common good can lead to the strengthening of democratic and participatory approaches to educational governance based on the recognition of education as a shared endeavour and responsibility It will be of interest and value to students and scholars of education as a public good social justice and the wider neoliberalisation of the education sector

Privatizing Education Henry Levin,2018-03-05 Privatizing Education is a collection of essays written by such luminaries as Martin Carnoy Christopher Connell Wendy Connors Fred Doolittle Pearl Rock Kane Frank Kemerer Christopher Lauricella Arthur Levine Ellen Magenheim Patrick McEwan Lee D Mitgang David Myers Gary Natriello Caroline Persell Mark Schneider Janelle Scott Geoffrey Walford and Amy Stuart Wells who examine the efforts of some educators reformers investors and political groups to move education from the public to the private sector This is occurring through tuition tax credits voucher initiatives and for profit educational management organizations The volume grows out of a conference that took place at Columbia University s Teachers College which launched the National Center for the Study of Privatization in Education

The Privatization of State Education Chris Green,2007-04-11 Anyone who wants to know what is really happening in schools behind all the hype and political rhetoric about the privatizing reforms in education should read this book It clarifies how private interests are influencing the public education process and investigates Labour s successes and failures In plain English it shows how schools are set up run and held to account through testing and inspection and how they make judgements about the relative merits of different schools performances It also indicates ways in which ordinary people can participate in shaping the future of education in order to achieve progress and better standards of achievement from schools and the education service generally This is essential reading for all those concerned about the new future of our education system and of our children

Resources in Education ,2001-04 [Critical Issues in Education](#) Jack L. Nelson,Stuart B. Palonsky,Mary Rose McCarthy,2020-08-12 Critical Issues in Education examines three questions that are at the core of the education debate in the United States What interests should schools serve What

knowledge should schools teach How do we develop the human environment of schools When answering these queries the authors advocate the use of critical thinking which includes dialogue and dialectic reasoning Dynamic and interactive dialogue requires listening and assessment while dialectic stimulates the development of a creative response that encompasses both sides of an issue When applied these approaches engender an informative and stimulating discussion In order to explore the depth of current educational issues the Ninth Edition considers 15 topics providing supporting evidence and reasoning for two divergent views These issues include violence in schools the role of technology gender equity multiculturalism inclusion and disability and school choice Both civic and professional discussions regarding improvements will have consequences for students teachers and society As a result educational views and the social landscape in which they reside deserve critical study

Privatisation and Commercialisation in Public Education Anna Hogan, Greg Thompson, 2020-10-08 Privatisation and Commercialisation in Public Education asks how publicness is being redefined through the restructuring of nominally public school systems Over the past few decades governments have engineered a wave of reforms in their public systems opening them to privatisation and commercialisation In public education systems competition choice and autonomy have become entrenched vectors of these reforms This edited collection carefully examines the difference between privatisation and commercialisation and traces the varying effects privatised and commercialised policy reforms have had in different educational contexts Many countries have approached the thorny issues of school choice and school autonomy in different ways and this book investigates the impact of these agendas across the USA UK Australia New Zealand parts of Europe sub Saharan Africa and India This book brings together contemporary international perspectives from high profile policy academics on both privatisation and commercialisation in public education systems under the provocation of how the public nature of schooling is changing This is essential reading for those interested in the idea that current education policy reforms are reshaping what might be considered core educational practices in public schooling

The Road to Privatization of Higher Education in China Li Wang, 2013-11-29 This book makes both empirical and conceptual contributions to the debate on privatization of higher education in China Empirically it aims to fill a gap in our knowledge of privatization of higher education in North China To this end Beijing was chosen as a case for analysis and nine local higher educational institutions were visited The case study

strategy is also complemented by an extensive review of national policies to reveal problems beyond the specific case of Beijing and of national concern. The effects of the cultural and socioeconomic background and the unique state party controlling system on higher education management are stressed. Conceptually, most existing studies on privatization of higher education in China adopt a policy analysis approach while research on privatization of other public sectors or in other countries is frequently guided by economic theories. This book thus seeks to combine both social policy and econometric approaches to provide a systematic and detailed investigation of the privatization process in the context of higher education. It also improves and examines the applicability of western theories in the Chinese context. *The Rich World and the Impoverishment of Education* Dave Hill, 2010-07-15. This book advances a powerful critique of neoliberalised education privatization, marketisation, new public managerialism, increasing control and surveillance of schools and colleges in eight of the rich countries of the world: USA, Canada, England and Wales, Finland, Greece, Taiwan, Israel, and Japan.

Cost-effectiveness and Educational Policy Henry M. Levin, 2002. This Yearbook provides a unique and original assessment of the state of the art of cost effectiveness analysis in education. It identifies key issues that need to be considered and presents original empirical studies to serve as models. Research Handbook on Education Privatization and Marketization Adrián Zancajo, Clara Fontdevila, Huriya Jabbar, Antoni Verger, 2025-02-12. This Research Handbook analyses global trends within education privatization and marketization, two of the most debated topics in contemporary education policy. An international array of expert contributors present illuminating case studies from across Asia, Europe, North America, and South America. **Problems and Possibilities of Neoliberal Education Reforms** Mustafa Toprak, 2024-11-14. Neoliberal education reforms promise but often don't succeed to improve student outcomes and provide more equitable educational opportunities to students with different backgrounds. They hold schools accountable for their performance through high stakes testing and linking performance to rewards and sanctions and by empowering parents. This book presents a critical and objective appraisal of these neoliberalist education reforms. Mustafa Toprak considers the practical elements of neoliberal reforms including voucher systems, choice, accountability, competition within and between schools, educational inequalities, and high stakes testing and in doing this contributes to social justice debates and the idea of education as a common good. He uses reforms in Chile as a case study and offers a critique of its neoliberal educational reforms. Rather than discrediting all the central tenets of neoliberal education, Toprak considers the pros and cons of these reforms for students, teachers, schools, and societies and proposes new reforms to ensure that policies accurately and responsively address the needs of all stakeholders.
