It supports a deeper understanding of the difficulties encountered in mathematical development. This third edition has been updated to link to the new National Curriculum. New for this edition is a chapter on addressing errors/misconceptions which explores how errors can best be identified and countered. The text examines misconceptions individually and in each case provides a description of the error alongside an explanation of why the error happens. The text also considers the role of the teacher in understanding and addressing children's common mathematical misconceptions. **The Problem Child in School** Mary Buell Sayles, Howard Webster Nudd, 1925 The Problem Child at Home Mary Buell Sayles, 1928 The problem child at home, 1929 *Strong Kids, Strong Futures* Sharpay Sarah Wheeler, Colleen Sasa Walker, Give your child the skills to bounce back from challenges and thrive in today's complex world.
