Problems Of Daily Living:

Thinking about Social Problems Donileen R. Loseke, 2011-12-31 The new second edition of this distinctive and widely adopted textbook brings into the classroom an overview of how images of social problems can shape not only public policy and social services but also the ways in which we make sense of ourselves and others It introduces two primary changes First some attention is devoted to the new social movements that emphasize social change through identity transformation rather than through structural change Second the text now also looks more closely at the importance of emotions in constructing public consciousness of social problems When the first edition was published Teaching Sociology noted Loseke does a superb job explaining the relationship between sociology and social problems in a text that is very well researched and engaging yet with tremendous attention to detail and accuracy Would provide a solid base for any social problems class Contemporary Sociology wrote that the book is engagingly well written in a personal unpretentious style and well informed by the author's knowledge of the professional literature [Living with Obesity](#) Nicolas Stettler, Susan Shelly, 2009 A guide for teens that explains obesity the causes symptoms and related illnesses as well as how to cope with it and maintain a healthy lifestyle

Bernard, Oana A. David, 2018-06-11 This eminently useful guide presents an up to date framework for Rational Emotive Cognitive Behavioral Coaching RE CBC from basic concepts techniques and applications to evidence of how and why this versatile method works It details how RE CBC synthesizes the rational thinking cognitive disputing and semantic training traditions of RE and CB

therapies into coaching strategies for solving problems or furthering personal development The book's sections on process and techniques demonstrate the flexibility of the method as used in a variety of settings toward a gamut of purposes illustrating Albert Ellis' central goal of long term happiness through rational living And specialized chapters offer applications of RE/CBC to familiar coaching domains: life, health, family, motivation, as well as to the complex worlds of business and organizations Included in the coverage: Coaching for rational living; rational, emotive, cognitive, behavioral perspectives; Psychological blockers to successful coaching outcomes; Enhancing positive psychology coaching practice; Assessment, case formulation and intervention models; A step-based framework for coaching practice; Plus applications of Rational Emotive Cognitive Behavioral Coaching including motivational parent, family, workplace, stress management, organizational change, school success and sports performance Coaching for Rational Living is a robust practice building resource for coaches, psychologists, counselors and health professionals, particularly mental health practitioners who use rational emotive and cognitive behavioral therapy and coaching

Chronic Respiratory Illness Simon J. Williams, 2004-11-11 Chronic obstructive airways disease (COAD), bronchitis, emphysema and chronic asthma is a major medical, psychological, social and economic problem. Breathlessness is one of the most distressing and disabling symptoms of COAD and it has long been apparent that the condition results in impaired quality of life. Drawing upon sociological and psychological sources and his own detailed research in this area, Simon Williams sensitively portrays the meaning, experience and impact of COAD. Sufferers and their families' own accounts are used to portray the various stages and aspects of COAD ranging from the experience of symptoms and the management of medical regimens to the practical problems it creates in daily life and the more diffuse and intangible ways in which it impinges on social and family life. He also provides a comprehensive review of the psychosocial literature and concludes by discussing some of the policy implications for health care professionals

Psychiatric Diagnosis Juan E. Mezzich, Yutaka Honda, Marianne C. Kastrup, 2012-12-06 Advances in the standardization, precision and thoroughness of psychiatric diagnosis are being supplemented with attention to personalized or ideographic descriptive approaches. This promises not only to enhance the clinician's understanding of a case but to allow a fuller and more effective use of the evolving range of therapeutic possibilities. To reflect these developments, the Section on Classification, Diagnostic Assessment and Nomenclature of the World Psychiatric Association has prepared this volume which is organized around five prominent themes in contemporary psychiatric diagnosis: major regional perspectives; ICD 10 comprehensive diagnosis through the multiaxial model; treatment planning and organization of health services; the role and challenges of psychiatric diagnosis in primary health care

The Glaucoma Book Paul N. Schacknow, John R. Samples, 2010-06-10 Putting together a comprehensive multiauthored text is a daunting task. However, the benefits may justify the effort. Such is the case with regards to the present Glaucoma Book. It is not likely that many ophthalmologists or others will decide at the end of a busy day to pour themselves a cocktail and settle into a comfortable chair with this large tome in

hand with the intent of reading it from start to finish. A pity. It would make several enjoyable and profitable days of good reading. The text starts with comments by an individual who is strongly grounded in the fundamentals of being a good physician. Ivan Goldberg has used his brilliance, his wide international experiences and knowledge and his commitment to assuring that physicians know their craft to provide a penetrating perspective on ophthalmology today and tomorrow. The Glaucoma Book ends with commentaries by the editors John Samples, a true physician scientist and Paul Schacknow, an experienced community based clinician. Samples' essay 'What Really Causes Glaucoma' nicely describes the leading theories underlying the cell biology of glaucoma. In 'What Do We Know Now? What Do We Need to Know About Glaucoma?' Schacknow offers an essay on some of the controversial ideas raised within the book and speculates on future research.
