Red Star Over China Edgar Snow, 1984-03-01 An historical survey of the ideals and power structure that make up the Chinese Communist movement [Red Star Over China](#) , 1996 *How the "Red Star" Rose* Ishikawa

Yoshihiro, 2022-01-30 The fact that Snow did not sneak into red China to gather information constituting the basis of his Red Star over China all alone is in many instances misunderstood even by scholars Mao Zedong s biography has been the subject of an international mountain of commentary in China and elsewhere Biographies praising Mao and those slandering him are all based on the American journalist Edgar Snow s 1905 1972 account in Red Star over China for the route Mao traveled from early childhood through his youth How the Red Star Rose introduces the image of Mao and the biographical information made known to the world through the publication of Red Star and with its publication the circumstances which they fundamentally undermined Ishikawa Yoshihiro uses Mao Zedong as raw material to examine from whence and how ordinary historical information and images which we habitually use unconsciously come into being He desires to help readers to reconsider the historicity of the generation of not only Mao s image but of that of historical materials With a title that evokes Gao Hua s seminal study of Mao Zedong s rise in the Chinese Communist Party Ishikawa Yoshihiro asks two critical questions What did the world know of Mao before the publication of Edgar Snow s Red Star over China How did Red Star change that understanding With the meticulous research careful documentation and fair minded judgment that characterizes all of Ishikawa s work he shows how little even Moscow and the Communist International knew about Mao before 1936 This study

is full of unexpected insights into the origins of early visual images of Mao the background to Snow s historic trip to northern Shaanxi and the evolution of the classic study that he left In a world where balanced judgment of the rise of Mao is increasingly difficult to find Ishikawa s scholarship stands out as a rare model of judicious balance Joseph W Esherick Emeritus Professor Hwei chih and Julia Hsiu Chair in Chinese Studies University of California San Diego This book is first an exquisite excavation on the enabling infrastructures in the writing and publishing of one of the most iconic works in journalistic interviews in the 20th century a text that broke through a wall of intelligence blockade to give to the world in an autobiographical voice and with a striking image the debut of the revolutionary Mao while holed up in a mountain base area It is in addition a history of the reading of the book in multiple languages including Chinese that is indexed to the rise of the Mao cult thereafter Ishikawa captures a moment of a past gearing up in anticipation of a future that never came This book is a must read for all with an interest in Mao journalism and the history of books Wen hsin Yeh Richard H and Laurie C Morrison Chair Professor in History University of California Berkeley Ishikawa offers a challenging reflection on how historical information and images that we take for granted come into being through the twin case studies of images of Mao Zedong before Edgar Snow s famous biography in 1936 and then how Snow s images of Mao were translated and transmuted into Chinese Russian and Japanese Joshua Fogel s careful translation brings this impeccable example of Japanese sinology to the English reading public Timothy Cheek Professor and Louis Cha Chair in Chinese Research University of British Columbia

Red Star Over China Edgar Snow,1944 **Red Star Over China, by Edgar Snow ...** Edgar Snow,1944 Summary of Edgar Snow's Red Star over China Everest Media,2022-07-07T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The Chinese Red Army was a mystery that no one had been able to solve It was a mass of hungry brigands some people said while others claimed that they were fighting for agrarian revolution and against imperialism 2 The Chinese Communists were unlike any other Communists I had ever seen They were not like Stalinists or Trotskyites and they did not read Capital or the works of Lenin They were not internationalists but nationalists who were struggling for an independent China 3 The Chinese Communist movement was a fascinating story that was difficult to understand It was a story of China and it was difficult to get information about it 4 I decided to try and enter Red territory in 1936 I had little to cheer me on my way other than a letter of introduction to Mao Tse tung chairman of the Soviet Government I had to find him *Going to the Countryside* Yu Zhang,2020-03-03 Since the beginning of the twentieth century modern Chinese intellectuals reformers revolutionaries leftist journalists and idealistic youth had often crossed the increasing gap between the city and the countryside which made the act of going to the countryside a distinctively modern experience and a continuous practice in China Such a spatial crossing eventually culminated in the socialist state program of down to the villages movements during the 1960s and 1970s What then was the special significance of going to the countryside before that era *Going to the Countryside* deals with the cultural representations and practices of this practice

between 1915 and 1965 focusing on individual homecoming rural reconstruction revolutionary journeys to Yan an the revolutionary going down to the people as well as going to the frontiers and rural hometowns for socialist construction As part of the larger discourses of enlightenment revolution and socialist industrialization going to the countryside entailed new ways of looking at the world and ordinary people brought about new experiences of space and time initiated new means of human communication and interaction generated new forms of cultural production revealed a fundamental epistemic shift in modern China and ultimately created a new aesthetic social and political landscape As a critical response to the urban turn in the past few decades this book brings the rural back to the central concern of Chinese cultural studies and aims to bridge the city and the countryside as two types of important geographical entities which have often remained as disparate scholarly subjects of inquiry in the current state of China studies Chinese modernity has been characterized by a dual process that created problems from the vast gap between the city and the countryside but simultaneously initiated constant efforts to cope with the gap personally collectively and institutionally The process of crossing two distinct geographical spaces was often presented as continuous explorations of various ways of establishing the connectivity interaction and relationship of these two imagined geographical entities Going to the Countryside argues that this new body of cultural productions did not merely turn the rural into a constantly changing representational space most importantly the rural has been constructed as a distinct modern experiential and aesthetic realm characterized by revolutionary changes in human conceptions and sentiments

Eurasia Without Borders Katerina Clark, 2021-11-02 A long awaited corrective to the controversial idea of world literature from a major voice in the field Katerina Clark charts interwar efforts by Soviet European and Asian leftist writers to create a Eurasian commons a single cultural space that would overcome national cultural and linguistic differences in the name of an anticapitalist anti imperialist and later antifascist aesthetic At the heart of this story stands the literary arm of the Communist International or Comintern anchored in Moscow but reaching Baku Beijing London and parts in between Its mission attracted diverse networks of writers who hailed from Turkey Iran India and China as well as the Soviet Union and Europe Between 1919 and 1943 they sought to establish a new world literature to rival the capitalist republic of Western letters Eurasia without Borders revises standard accounts of global twentieth century literary movements The Eurocentric discourse of world literature focuses on transatlantic interactions largely omitting the international left and its Asian members Meanwhile postcolonial studies have overlooked the socialist aligned world in favor of the clash between Western European imperialism and subaltern resistance Clark provides the missing pieces illuminating a distinctive literature that sought to fuse European and vernacular Asian traditions in the name of a post imperialist culture Socialist literary internationalism was not without serious problems and at times it succumbed to an orientalist aesthetic that rivaled any coming from Europe Its history is marked by both promise and tragedy With clear eyed honesty Clark traces the limits compromises and achievements of an ambitious cultural collaboration whose resonances in later movements can no longer be

ignored **Edgar Snow and His Red Star Over China** Shan Chiang, Edgar Snow, 1978* **Edgar Snow** John Maxwell Hamilton, 2003-09-25 Edgar Snow 1905 1972 was one of the most notable Western journalists to report on China in both the revolutionary and postrevolutionary periods He first became famous in the mid 1930s when he broke through a Nationalist blockade and reached the Communists in northwest China For nearly a decade no foreign reporter had seen the Communists who were widely regarded as a ragtag bandit army Snow took them seriously as a national movement His reporting in the now famous book *Red Star over China* was major news even to the Chinese thousands of whom joined the Communists after reading it It has remained a seminal reference on the early Chinese Communist movement In this award winning biography journalist John Maxwell Hamilton follows Snow from his birth in Kansas City to his rise as a celebrated foreign correspondent for the *Saturday Evening Post* his ostracism during the cold war and his role as a singular journalistic bridge between Communist China and the United States With a new preface by the author this revealing portrait of the widely misunderstood Snow firmly establishes him as a model for the kind of committed reporting that is crucial to understanding our interdependent world **The Tragedy of the Chinese Revolution** Harold Isaacs, 2010 The story of contemporary China typically dates back to Mao's 1949 revolution But in this classic work Harold R Isaacs uncovers how workers and peasants struggled for a different kind of revolution one built from the bottom up in the 1920s The defeat of their heroic efforts profoundly shaped the further course of modern Chinese history Mao Alexander V. Pantsov, Steven I. Levine, 2013-10-29 Originally published in a different version in 2007 in Russian by Molodaia Gvardiia as *Mao Tzedun* Title page verso *From Vagabond to Journalist* Robert M. Farnsworth, 1996 Beginning with Snow's youthful ambition to travel the globe and concluding with his notable if unobtrusive role in the reestablishment of diplomatic ties between America and China Farnsworth weaves a spellbinding narrative Snow's adventure in Asia began in Yokohama where he landed as a stowaway from Hawaii Then just steps ahead of Japanese port police he made his way to China where he soon empathized with the suffering of the Chinese people and became curious about the role Communism might play in the rebellion against colonialism As he traveled throughout the continent during the next thirteen years Snow established contacts with many important people and won extraordinary personal access to the leaders of the Chinese Communist Party In 1936 he became the first Western journalist to visit the Chinese Red forces and report on a detailed interview with Mao Tse tung after the completion of the epic Long March **Museum Representations of Maoist China** Amy Jane Barnes, 2016-04-15 The collection interpretation and display of art from the People's Republic of China and particularly the art of the Cultural Revolution have been problematic for museums These objects challenge our perception of Chineseness and their style content and the means of their production question accepted notions of how we perceive art This book links art history museology and visual culture studies to examine how museums have attempted to reveal discuss and resolve some of these issues Amy Jane Barnes addresses a series of related issues associated with collection and display how museums deal with
