Red Network A Whos Whos And Handbook Of:

Red Network Dilling Elizabeth Kirkpatrick,1901 *Out of the Mouths of Babes* Thomas A. Robinson,Lanette R. Ruff,2011-12-05 The 1920s marked one of the greatest cultural shifts in American life and the risque flapper became the icon of the period But there was a counter image of the feminine the decade was also the golden age for girl evangelists who defended traditional morals and traditional Christian beliefs and attitudes *Observers from Abroad* Martin A. Miller,2025-03-31 *Observers from Abroad* offers an examination of published and archival images of Soviet Russia providing a deeper understanding of the complexities and vicissitudes of its political culture The book argues that photography when accurately interpreted can be utilized as primary historical evidence that has the potential to both enhance and counter traditional verbal analysis Employing a number of images of the Soviet Union captured by gifted documentary photographers from the West who received visas to work in Moscow from the Bolshevik seizure of power in 1917 to the collapse of the USSR in 1991 the book also assesses the intentions of the photographers who acted as conscious observers capturing visual evidence under the restraining conditions of state surveillance Each chapter provides a closer look at the life and work of these photographers with a wealth of historical images and discussion Richly illustrated and engaging this volume will be ideal for students scholars and readers interested in Soviet history twentieth century history and the history of photography

Anti-Communism in Twentieth-Century America Larry Ceplair,2011-10-05 This compelling critical analysis of anti communism illustrates the variety of anti Communist styles and agendas thereby making a persuasive case that the threat of domestic communism in Cold War America was vastly overblown In the United States today communism is an ideology or political movement that barely registers in the consciousness of our nation Yet merely half a century ago communist was a buzzword that every citizen in our nation was aware of a term that connoted traitor and almost certainly a characterization that most Americans were afraid of **Anti Communism in Twentieth Century America A Critical History** provides a panoramic perspective of the types of anti communists in the United States between 1919 and the collapse of the Soviet Union It explains the causes and exceptional nature of anti communism in the United States and divides it into eight discrete categories This title then thoroughly examines the words and deeds of the various anti Communists in each of these categories during the three Red Scares in the past century The work concludes with an unapologetic assessment of domestic anti communism This book allows readers to more fully comprehend what the anti communists meant with their rhetoric and grasp their impact on the United States during the 20th century and beyond for example how anti communism has reappeared as anti terrorism **American Radical** D. D. Guttenplan,2024-05-01 Popular Front columnist and New Deal propagandist Fearless opponent of McCarthyism and feared scourge of official liars Enterprising independent reporter and avid amateur classicist As D D Guttenplan puts it in his compelling book *I F Stone* did what few in his profession could he always thought for himself America s most celebrated investigative journalist himself remains something of a mystery

however Born Isidor Feinstein in Philadelphia raised in rural New Jersey by the age of 25 this college drop out was already an influential newsman and enjoying extraordinary access to key figures in New Deal Washington and the friendship of important artists in New York It is Guttenplan's wisdom to see that the key to Stone's achievements throughout his singular career and not just in his celebrated I F Stone's Weekly lay in the force and passion of his political commitments Stone's calm forensic yet devastating reports on American politics and institutions sprang from a radical faith in the long term prospects for American democracy His testimony on the legacy of American politics from the New Deal and World War II to the era of the civil rights struggles the Vietnam War and beyond amounts to as vivid a record of those times as we are likely to have Guttenplan's lively provocative book makes clear why so many of his pronouncements have acquired the force of prophecy

The Broadcast 41 Carol A Stabile, 2018-10-16 How forty one women including Dorothy Parker Gypsy Rose Lee and Lena Horne were forced out of American television and radio in the 1950s Red Scare At the dawn of the Cold War era forty one women working in American radio and television were placed on a media blacklist and forced from their industry The ostensible reason so called Communist influence But in truth these women among them Dorothy Parker Lena Horne and Gypsy Rose Lee were by nature of their diversity and ambition a threat to the traditional portrayal of the American family on the airwaves This book from Goldsmiths Press describes what American radio and television lost when these women were blacklisted documenting their aspirations and achievements Through original archival research and access to FBI blacklist documents The Broadcast 41 details the blacklisted women's attempts in the 1930s and 1940s to depict America as diverse complicated and inclusive The book tells a story about what happens when non male non white perspectives are excluded from media industries and it imagines what the new medium of television might have looked like had dissenting viewpoints not been eliminated at such a formative moment The all white male dominated Leave it to Beaver America about which conservative politicians wax nostalgic existed largely because of the forcible silencing of these forty one women and others like them For anyone concerned with the ways in which our cultural narrative is constructed this book offers an urgent reminder of the myths we perpetuate when a select few dominate the airwaves The Cold War Comes to Main Street Lisle A. Rose, 1999-02-01 In 1950 Main Street America restored by victories in a global war and hopeful for a prosperous and peaceful future was abruptly traumatized The sudden prospect of thermonuclear war with the Soviet Union Senator Joseph McCarthy's vicious anticommunist crusade and the beginning of the Korean War all combined to dampen the public mood In the wake of these events the Cold War invaded every home and convinced millions of Americans that the liberal establishment created by Franklin Roosevelt and sustained by Harry Truman had betrayed the public trust and placed the nation in mortal peril Revealing the intense interplay between foreign policy domestic politics and public opinion Lisle Rose argues that 1950 was a pivotal year for the nation Thermonuclear terror brought a clutching fear of mass death to the forefront of public awareness even as McCarthy's zealous campaign to root out subversives destroyed a sense of national

community forged in the Great Depression and World War II The Korean War with its dramatic oscillations between victory and defeat put the finishing touches on the national mood of crisis and hysteria Drawing upon recently available Russian and Chinese sources Rose sheds much new light on the aggressive designs of Stalin Mao and North Korea's Kim Il Sung in East Asia and places the American reaction to the North Korean invasion in a new and more realistic context Rose argues that the convergence of Korea McCarthy and the Bomb wounded the nation in ways from which we've never fully recovered He suggests in fact that the convergence may have paved the way for our involvement in Vietnam and by eroding public trust in and support for government launched the ultra Right's campaign to dismantle the foundations of modern American liberalism Engagingly written *The Cold War Comes to Main Street* is a sophisticated synthesis that cuts to the core of a half century of postwar national paranoia It calls into question the assumptions of several generations of scholars about foreign affairs and domestic policies and will force readers to reconsider their assumptions about just when and how the nation lost its sense of community confidence and civility

The New Hate Arthur Goldwag, 2012-02-07 From Birthers who claim that Barack Obama was not born in the United States to counter jihadists who believe that the Constitution is in imminent danger of being replaced with Sharia law conspiratorial beliefs have become an increasingly common feature of our public discourse In this deeply researched fascinating exploration of the ideas and rhetoric that have animated extreme mostly right wing movements throughout American history Arthur Goldwag reveals the disturbing pattern of fear mongering and demagoguery that runs through the American grain *The New Hate* takes readers on a surprising often shocking sometimes bizarrely amusing tour through the swamps of nativism racism and paranoid speculations about money that have long thrived on the American fringe Goldwag shows us the parallels between the hysteria about the Illuminati that wracked the new American Republic in the 1790s and the McCarthyism that roiled the 1950s and he discusses the similarities between the anti New Deal forces of the 1930s and the Tea Party movement today He traces Henry Ford's anti-Semitism and the John Birch Society's Insiders back to the notorious Protocols of the Elders of Zion and he relates white supremacist nightmares about racial pollution to nineteenth century fears of papal plots The most salient feature of what I have come to call the New Hate Goldwag writes is its sameness across time and space The most depressing thing about the demagogues who tirelessly exploit it in pamphlets and books and partisan newspapers two centuries ago on Web sites electronic social networks and twenty four hour cable news today is how much alike they all turn out to be

Threatening Anthropology David H. Price, 2004-04-20 An archival history of governmental investigations of anthropologists in the 1950s based on over 20 000 pages of documents obtained by the author under the Freedom of Information Act

The Red Network Elizabeth Kirkpatrick Dilling, 1935 First printing April 1934 Fourth printing January 1935

The Communist Party in Maryland, 1919-57 Vernon L. Pedersen, 2001 He also tracks the public's changing perception of the Communists from amused unconcern to alarm and details how the Ober antisubversive law and the HUAC hearings of the 1950s dismantled the Party

from without while planting seeds of paranoia that destroyed it from within Seven Social Movements That Changed America Linda Gordon, 2025-03-04 A brilliantly conceived and provocative work from an award winning historian that examines how seven twentieth century social movements transformed America How do social movements arise wield power and bring about meaningful change Renowned scholar Linda Gordon investigates these and other salient questions in this visionary cautionary timely and utterly necessary book Nicole Eustace narrating how some of America s most influential twentieth century social movements transformed the nation Beginning with the turn of the century settlement house movement the book compares Chicago s celebrated Hull House begun by privileged women to a much less well known African American project Cleveland s Phillis Wheatley House begun by a former sharecropper Expanding her highly praised book *The Second Coming of the KKK* the second chapter shows how a northern Klan became a mass movement in the 1920s Contrary to what many Klan opponents thought this KKK was a middle class organization its members primarily urban and well educated In the 1930s the KKK gave birth to dozens of American fascist groups small but extremely violent Profiles of two other 1930s movements follow the Townsend campaign for old age insurance named for its charismatic leader Dr Francis Townsend It created the public pressure that brought us Social Security which was considered radical at the time as was the movement to bring about federal unemployment aid for millions Proceeding to the 1955 1956 Montgomery bus boycott which jump started the career of Martin Luther King Jr the narrative shows how the city s entire Black population refused to ride segregated buses initiated by Black women their years long hard fought victory inspired the civil rights movement Gordon then examines the 1970s farmworkers struggle led by Cesar Chavez and made possible by the work of tens of thousands of the primarily Mexican American farmworkers Together they built the United Farm Workers Union winning better wages and working conditions for some of the country s poorest workers The book concludes with the dramatic stories of two Boston socialist feminist groups Bread and Roses and the Combahee River Collective which influenced the whole women s liberation movement Throughout the work Gordon concentrates not on ideologies but on how millions of grassroots activists strategized and changed the United States Separately and together these seven narratives bring to life the creativity and hard work of social movements and in doing so reveal how they have been central to American history in stories that reverberate with today s political activism

Inhuman Networks Grant Bollmer, 2016-08-11 Social media s connectivity is often thought to be a manifestation of human nature buried until now revealed only through the diverse technologies of the participatory internet Rather than embrace this view *Inhuman Networks Social Media and the Archaeology of Connection* argues that the human nature revealed by social media imagines network technology and data as models for behavior online Covering a wide range of historical and interdisciplinary subjects Grant Bollmer examines the emergence of the network as a model for relation in the 1700s and 1800s and follows it through marginal often forgotten articulations of technology biology economics and the social From this history Bollmer examines contemporary controversies surrounding social media extending out to the

influence of network models on issues of critical theory politics popular science and neoliberalism By moving through the past and present of network media Inhuman Networks demonstrates how contemporary network culture unintentionally repeats debates over the limits of Western modernity to provide an idealized future where the human is interchangeable with abstract flowing data connected through well managed distributed networks **The Red Network** Elizabeth

Dilling,2010-03 The Red Network A Who's Who and Handbook of Radicalism for Patriots Without committing them to its statements this book is admirably dedicated to all those sincere fighters for American liberty and Christian principles who because of their opposition to Red propaganda and the new social order of Marx and Lenin are denounced as professional patriots super patriots 100 per centers patrioteers and Tories by their Red opponents Particular mention is gratefully made of those patrioteers who have aided and encouraged the author in her effort to bring to the sound but still sleeping portion of the American public the truth about the Communist Socialist world conspiracy which with its four horsemen Atheism Immorality Class Hatred and Pacifism for the sake of Red revolution is boring within our churches schools and government and is undermining America like a cancerous growth **In a Generous Spirit** Christina Looper Baker,1996 Dorothy

Markey's family and culture prepared her to be a proper southern lady Yet Markey broke free of her cultural bonds and became instead a feminist a communist and under the pen name Myra Page a radical journalist and novelist Her activism on behalf of social justice racial equality and women's rights spanned the 1920s through her death in 1993 Page's work carried her far from her Virginia home to Moscow Mexico the rural South and New York As a journalist she wrote for the Daily Worker the New Masses Working Woman and Southern Worker Her novels captured workers struggles in an authentic voice The Gathering Storm Daughter of the Hills and Moscow Yankee With consummate skill Christina Baker weaves together historical research her own and others conversations with Page and Page's letters and other writings The resulting narrative is a vivid recreation of the life of an uncommon woman and her more than seventy years of striving for the things she believed in Teachers and Reform John F. Lyons,2008 Measuring the impact of the Chicago Teachers Union on public

education in Chicago **Eleanor and Franklin** Joseph P. Lash,2014-08-20 The 1 New York Times Bestseller Winner of the Pulitzer Prize and National Book Award In his extraordinary biography of the major political couple of the twentieth century Joseph P Lash reconstructs from Eleanor Roosevelt's personal papers her early life and four decade marriage to the four time president who brought America back from the Great Depression and helped to win World War II The result is an intimate look at the vibrant private and public worlds of two incomparable people **The Politics of Fear** Arthur

Goldwag,2024-03-05 From the author of Cults Conspiracies and Secret Societies a probing exploration of the bizarre and dangerous conspiracies that have roiled America over the past decade and captured the minds of so many Americans Some of the conspiracy theories now gripping American politics contend that Joe Biden was executed and replaced by a clone and that John F Kennedy Jr faked his death and will one day return to slay Trump's enemies But who is susceptible to them and

what makes them so politically potent Investigating the historical roots of our peculiar brand of political paranoia Arthur Goldwag helps us make sense of the senseless and in so doing uncovers three uncomfortable truths that it is older than Trumpism and will outlast it that theocratic authoritarianism is as hardwired in our American heritage as the principles of the Enlightenment and that the fear that our system is rigged is not altogether unfounded A probing surprising and critical examination of America s paranoid style The Politics of Fear sheds new light on the age old question What exactly are we so afraid of

Red Scared! Michael Barson, Steven Heller, 2001-04 Red Scared offers valuable lessons from the vault on how to identify Communists media reports on the jolly side of Stalin guidelines for bomb shelter chic and much more As they did in their other lively pop culture histories Teenage Confidential and Wedding Bell Blues Michael Barson and Steven Heller once again bring the nearly forgotten details of American culture into full relief with Red Scared **BOOK JACKET**
