Russian Theatre in Practice Amy Skinner, 2019-04-18 Amidst the turmoil of political revolution the stage directors of twentieth century Russia rewrote the rules of theatre making From realism to the avant garde politics to postmodernism and revolution to repression these practitioners shaped perceptions of theatre direction across the world This edited volume introduces students and practitioners alike to the innovations of Russia's directors from Konstantin Stanislavsky and Vsevolod Meyerhold to Anatoly Efros Oleg Efremov and Genrietta Ianovskaia Strongly practical in its approach *Russian Theatre in Practice* The Director's Guide equips readers with an understanding of the varying approaches of each director as well as the opportunity to participate and explore their ideas in practice The full range of the director's role is covered including work on text rehearsal technique space and proxemics audience theory and characterization Each chapter focuses on one director exploring their historical context and combining an examination of their directing theory and technique with practical exercises for use in classroom or rehearsal settings Through their ground breaking ideas and techniques Russia's directors still demand our attention and in this volume they come to life as a powerful resource for today's theatre makers

Translated and Visiting Russian Theatre in Britain, 1945-2015 Cynthia Marsh, 2020-05-18 This book tackles questions about the reception and production of translated and untranslated Russian theatre in post WW2 Britain why in British minds is Russia viewed almost as a run of the mill production of a Chekhov play Is it because Chekhov is so dominant in British theatre culture What about all those other Russian writers Many of them are very different from Chekhov A key question was formulated thanks to a review by Susannah Clapp of Turgenev's *A Month in the Country* have the British staged a Russia of the theatrical mind

Soviet Theatre during the Thaw Jesse Gardiner, 2022-11-03 The era known as the Thaw 1953-64 was a crucial period in the history of the Soviet Union. It was a time when the legacies of Stalinism began to unravel and when brief moments of liberalisation saw dramatic changes to society. By exploring theatre productions, plays and cultural debates during the Thaw, this book sheds light on a society in flux in which the cultural norms, values and hierarchies of the previous era were being rethought. Jesse Gardiner demonstrates that the revival of avant-garde theatre during the Thaw was part of a broader re-engagement with cultural forms that had been banned under Stalin. Plays and productions that had fallen victim to the censor were revived or reinvented and their authors and directors rehabilitated alongside waves of others who had been repressed during the Stalinist purges. At the same time, new theatre companies and practitioners emerged who reinterpreted the stylized techniques of the avant-garde for a post-war generation. This book argues that the revival of avant-garde theatre was vital in allowing the Soviet public to reimagine its relationship to state power, the West and its own past. It permitted the rethinking of attitudes and prejudices and led to calls for greater cultural diversity across society. Playwrights, directors and actors began to work in innovative ways, seeking out the theatre of the future by re-engaging with the proscribed forms of the past. *Moscow Theatres for Young People: A Cultural History of Ideological Coercion and Artistic Innovation, 1917-2000*

Manon van de Water, 2006-04-15 This book shows how the totalitarian ideology of the Soviet period shaped the practices of Soviet theatre for youth. It weaves together politics, pedagogy and aesthetics to reveal the complex intersections between theatre and its socio-historical conditions. It paints a picture of the theatrical developments from 1917 through to the new millennium. *The Seagull*

Anatoly Efros, 2018-06-27 This book is an insider's account of the groundbreaking Moscow production of Chekhov's *The Seagull* directed by Anatoly Efros in 1966, which heralded a paradigm shift in the interpretation and staging of Chekhov's plays. It is a unique glimpse behind the curtain of the laboratory of new Russian theatre in the twentieth century. Efros's articles about Chekhov and *The Seagull*, his diaries, interviews and conversations, and most importantly, the original rehearsal records, combine to form an in-depth account of the director and his working process. This is an essential book for anyone with an interest in Chekhov and the history of modern Russian theatre. **The Royal Court Theatre and the Modern Stage**

Philip Roberts, 1999-11-25 An account of the leading forum of the modern stage includes a foreword by former Director of the Royal Court, Max Stafford Clark. *The Cambridge Companion to Chekhov*

Vera Gottlieb, Paul Allain, 2000-11-04 This volume of specially commissioned essays explores the world of Anton Chekhov, one of the most important dramatists in the repertoire and the creation, performance and interpretation of his works. The Companion, first published in 2000, begins with an examination of Chekhov's life, his Russia and the original productions of his plays at the Moscow Art Theatre. Later, film versions and adaptations of Chekhov's works are analysed with valuable insights also offered on acting Chekhov by Ian McKellen and directing Chekhov by Trevor Nunn and Leonid Heifetz. The volume also provides essays on special topics such as Chekhov as writer, Chekhov and women, and the Chekhov comedies and stories. Key plays

such as *The Cherry Orchard* and *The Seagull* receive dedicated chapters while lesser known works and genres are also brought to light The volume concludes with appendices of primary sources lists of works and a select bibliography
