Russian Youth, 2016 Russian Youth James O. Finckenauer, 1995-01-01 Focusing on Russian youth Finckenauer criminal justice Rutgers U explores the process of legal socialization how young people learn about rules norms and laws and how they decide that certain rules are regulators of their behavior He compares legal socialization in Russia and the US discuss **Russian Youth** James O. Finckenauer, Focusing on Russian youth Finckenauer criminal justice Rutgers U explores the process of legal socialization how young people learn about rules norms and laws and how they decide that certain rules are regulators of their behavior He compares legal socialization in Russia and the US discuss **Russian Youth** James Finckenauer, James O. Finckenauer, 2018-02-20 In the generation that has passed what have we learned about the rule of law legality legal reasoning and deviance in Russia And what about the general subject of legal socialization how young people learn about rules norms and laws what their attitudes about rules and laws are and if and whether this knowledge and these attitudes shape their behavior The second edition of *Russian Youth* asks and answers these questions **World Criminal Justice Systems** Richard J. Terrill, 2010-04-07 This comparative text provides an understanding of major foreign criminal justice systems by discussing and comparing the systems of six of the world's more industrialized countries England France Sweden Russia China and Japan each representative of a different type of legal system as well as a chapter on Islamic law that uses Saudi Arabia Iran and Turkey as main examples Political historical organizational procedural and critical issues confronting the justice systems are explained and analyzed Each chapter contains material on government police judiciary law corrections juvenile justice and other critical issues Each chapter introduces a country and then covers concepts to know government police judiciary law corrections and juvenile justice *Building The Russian State* Valerie Sperling, 2018-02-13 Has the Russian state managed to lay the institutional groundwork for long term stability and democratic governance In *Building the Russian State* Valerie Sperling assembles a group of cutting edge scholars to critically assess the crises in Russia's transitional institutions Part I of the book shows that Russia's political elites are less focused on serving public interests than on enriching themselves and examines how these elites are ruling Russia Part II focuses on the growth of organized crime the decay of the military the precariousness of the Russian Federation the weakness of the labor movement the corruption of the courts the challenges facing international reformers and the authoritarianism of the super presidential political system By focusing on the challenges failures and occasional successes of the Russian political system this volume offers upper level undergraduates and other scholars valuable insight into post Soviet politics state building and transitions to democracy Changing Legal and Civic Culture in an Illiberal Democracy István H. Szilágyi, László Kelemen, Sam Gilchrist Hall, 2021-05-25 *Changing Legal and Civic Culture in an Illiberal Democracy* is a unique empirical study on recent developments in legal and civic consciousness in Hungary Drawing its methodology from social psychology this book illuminates a shift in legal consciousness during the time in which Orbán's government has cemented Hungary's reputation as

an illiberal democracy The book foregrounds the voices of the Hungarian population in how they view the shift towards increasingly right wing politics and an erosion of the rule of law It opens with an extensive theoretical introduction of the historical development and psychological dimensions of legal consciousness in Hungary and relates the Hungarian research to international developments It then presents its empirical results and offers a jargon free account of ordinary people s changing perceptions of their relationship to Hungary s civic and legal cultures before finally examining the correlations between surveys Methodologically the book establishes that theories of legal consciousness and social change are bolstered by empirical data Offering a new way of approaching shifts in legal consciousness and the rule of law in Balkan and Eastern European countries this text will be of great interest to researchers and students of social psychology law international relations and Central European studies

Realizing the Potential of Immigrant Youth Ann S. Masten,Karmela Liebkind,Donald J. Youth in a Changing Karelia Vesa Puuronen,Pentti Sinisalo,Larissa Shvets,2018-04-27 This title was first published in 2000 The book is aimed at uncovering certain features of the future of Karelia which is partly situated in Russia and Finland The authors believe that this can be done by studying in depth the opinions values norms beliefs fears and hopes of young people living in two neighbouring but profoundly different societies Russia and Finland Young people are constructing these societies in the 20th century The book is based on a comparative research project financed by the Academy of Finland which was carried out during 1995 1997 by an international inter disciplinary research group The novelty of the book is based on the use of different research methods and theoretical starting points One of the crucial questions raised by the book concerns the applicability of Western theories in research into Russian society and people The analysis shows that many of the concepts applied frequently in Western social sciences do not apply in research relating to Russian specific culture The book proposes that more attention should be paid to the challenges of comparative research

The Institutions of Education William K. Cummings,2003-01-01 At many times in educational history including the past decade there are reports of crisis and cries for reform The successes of foreign competitors are pointed to new moneys are sought and laws passed Occasionally these reform efforts make a difference Just as often they end up as mere rhetoric and the educational indicators continue to slide Education is a dynamic sector with its

ups and downs To understand these ups and downs and to gain a clearer grasp of the essentials of reform we need to look deeply into the origins and development of successful and failed reforms This book seeks to answer that need To do so it stresses two important themes First the essence of educational practice lies in the institutionalised ideals and norms of an educational system not in how much is spent on education or how many people are involved in education Second while many contemporary observers of education tend to think that sound educational practice is pretty much the same around the world this book argues that these are at least six distinctive educational InstitutionS currently in place in the modern world each with its unique strengths and weaknesses Each also has its own cycle of reform and renewal So the landscape of educational reform is much broader than most observers acknowledge The book is unique in highlighting the principle characteristics of Japanese education alongside those of Soviet Russia and the core educational systems of Western Europe and North America While the account focuses on national differences the analysis actually begins from the ground up looking at particular schools that emerged early in the six modernising experiences These early schools are described here as representative schools for the practices they initiated have had a profound influence on the direction of subsequent reforms in their respective national settings
