and Civil War 1917-1921 Jonathan Smele, 2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history. It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves. However, until now, historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature. *The Russian Revolution and Civil War 1917-1921* offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history. The Bibliography focuses on the key years of 1917 to 1921, starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921, and covers all the key events of the intervening years. As such, it identifies these crucial years as something more than simply the creation of a communist state. **The Russian Revolution** Russell Trenton, 2015-07-15 This gripping historical narrative relates the circumstances that led to the end of the Romanov Dynasty and the Russian aristocracy, the heartrending struggles of the peasants, the violence and bloodshed of the revolution, and the rise of the new social order and its far-reaching consequences that continue to be felt in Russia today. In addition to the causes of the Russian revolution and the events that led to civil war, the narrative delves into the mindset of the Bolshevik leadership and recounts the profound transformation and industrialization of the economy in the Soviet era. **The Cambridge History of Russia: Volume 3, The Twentieth Century** Maureen Perrie, Ronald Grigor Suny, 2006-11-02 A major history of twentieth-century Russia by leading scholars in the field. *Society and Politics in the Russian Revolution* R. Service, 1992-05-12 The Russian Revolution of 1917 was an event of the greatest importance, but the social groups which were crucial to its development and outcome have been little written about. This book brings together a number of prominent British researchers whose work focusses on the connections among politics, social aspirations, and economics, and offers new insights into the reasons why, only months after the last tsar fell from power in February 1917, it was the Bolsheviks who seized control and established a communist regime.
