Network Analysis Mac Elwyn Van Valkenburg, 1965 *Microcirculation* John Grayson, 2012-12-06 The recognition of the microcirculation as an ideal interdisciplinary meeting place for the life sciences is really a postwar phenomenon The European and the American Societies more than any other organizations launched the idea and the success of the European Society's International Meetings gave impetus to a growth of interest from a handful of specialists to the wide interdisciplinary study which microcirculation now represents The meeting held in Canada in June 1975 was however the first truly international meeting devoted to the microcirculation It too was a success from every point of view and the exchange of knowledge and new ideas was rewarding It is our present hope that the tradition of European meetings with their characteristic European flavor will continue but larded by larger international congresses conceived on a worldwide basis For the present conference we were fortunate in the presence of Dr B Zweifach He was once referred to as the father of the microcirculation This claim unfortunately I cannot accept That honor probably belongs to Harvey who by one of the most brilliant strokes of inductive reasoning in medical history inferred the existence of capillaries though he could not see them Ben Zweifach's role was rather that of the midwife presiding at the birth rather than the conception The baby he delivered long years ago has since thriven lustily and its growth is in no small measure due to the continuing zeal of Zweifach and his associates **Circuit Analysis** Elias Morshed Sabbagh, 1980 **Circuit Analysis** Sabbagh, 1961-05-01
