John Barth, Sabbatical, a Romance Heide Ziegler, 1983 **John Barth (Routledge Revivals)** Heide Ziegler, 2014-10-10 John Barth represents most completely what has been termed postmodernism not because his work comprises more postmodernist features than other contemporary writers but because for Barth life and art are two sides of the same coin In this brief study first published in 1987 Heide Ziegler examines all Barth s novels She argues that each pair of novels first exhausts and then replenishes those literary genres that hinge on a particular world view the existentialist novel the Bildungsroman the Kunstlerroman or the realistic novel Through the division of labour between character and author Barth manages to develop a new mode of literary parody which projects itself beyond the mocked literary model and even self parody into the realm of future fiction This book is ideal for students of literature and postmodern studies Chessie Eric A. Cheezum, 2024-05-21 This work breathes new life into Chessie the Chesapeake Bay s local sea monster that has not only become part of the region s mythology but also a harbinger of tremendous cultural transformation around the Chesapeake

Bay **Romantic Postmodernism in American Fiction** Eberhard Alsen, 2023-12-21 Intended for teachers and students of American Literature this book is the first comprehensive analysis of romantic tendencies in postmodernist American fiction The book challenges the opinion expressed in the Columbia History of the American Novel 1991 and propagated by many influential scholars that the mainstream of postmodernist fiction is represented by the disjunctive and nihilistic work of such writers as Kathy Acker Donald Barthelme and Robert Coover Professor Alsen disagrees He contends that this kind of fiction is not read and taught much outside an isolated but powerful circle in the academic community It is the two part thesis of Professor Alsen s book that the mainstream of postmodernist fiction consists of the widely read work of the Nobel Prize laureates Saul Bellow and Toni Morrison and other similar writers and that this mainstream fiction is essentially romantic To support his argument Professor Alsen analyzes representative novels by Saul Bellow J D Salinger Norman Mailer Flannery O Connor John Updike Kurt Vonnegut Philip Roth Thomas Pynchon Toni Morrison the later John Barth Alice Walker William Kennedy and Paul Auster Professor Alsen demonstrates that the traits which distinguish the fiction of the romantic postmodernists from the fiction of their disjunctive and nihilist colleagues include a vision of life that is a form of philosophical idealism an organic view of art modes of storytelling that are reminiscent of the nineteenth century romance and such themes as the nature of sin or evil the negative effects of technology on the soul and the quest for transcendence

Final Fridays John Barth, 2012-04-10 For decades acclaimed author John Barth has strayed from his Monday through Thursday morning routine of fiction writing and dedicated Friday mornings to the muse of nonfiction The result is Final Fridays his third essay collection following The Friday Book 1984 and Further Fridays 1995 Sixteen years and six novels since his last volume of non fiction Barth delivers yet another remarkable work comprised of 27 insightful essays With pieces covering everything from reading writing and the state of the art to tributes to writer friends and family members this collection is witty and engaging throughout Barth s unaffected love of learning San Francisco Examiner Chronicle and joy in thinking that becomes contagious Washington Post shine through in this third and with an implied question mark final essay collection

Cycles of Influence Stephen Benson, 2003-03-01 Analyzes how the folktale has influenced the development of narrative theory and how postmodern fiction has drawn on the folktale to experiment with diverse narrative concepts In this wide ranging and insightful analysis Stephen Benson proposes a poetics of narrative for postmodernism by placing new emphasis on the folktale Postmodernist fictions have evidenced a return to narrative to storytelling centered on a sequence of events rather than a spiraling of events as found in modernism and recent theorists have described narrative as a central instance of the human mind By characterizing the folktale as a prime embodiment of narrative Benson relates folktales to many of the theoretical concerns of postmodernism and provides new insights into the works of major writers who have used this genre which includes the subgenre of the fairy tale in opening narrative up to new possibilities Benson begins by examining the key features of folktales their emphasis on a chain of events rather than description or consciousness their

emphasis on a self contained fictional environment rather than realism the presence of a storyteller as a self confessed fabricator their oral and communal status and their ever changing state which defies authoritative versions He traces the interactions between the folktale and Italo Calvino s Fiabe Italiane between selected fictions of John Barth and the Arabian Nights between the work of Robert Coover and the subgenre of the fairy tale and between the Bluebeard stories and recent feminist retellings by Angela Carter and Margaret Atwood The arguments presented will interest not only folklorists and scholars of narrative but also readers in fields ranging from comparative literature to feminist theory *The New Romanticism* Eberhard Alsen,2014-02-04 The New Romanticism is an overview of the romantic trend taken up by American novelists in the twentieth century Includes three classic essays by Saul bellow Thomas Pyncheon and Toni Morrison
