Sacramental Theology A General Introduction:

Sacramental Theology Kenan B. Osborne, 1988 A general introduction to the whole study of sacraments that analyzes them from the perspective of the sacrament that is Christ and the Church Ecumenical in its presentation it sets out the complete teaching of the Roman Catholic Church and relates this to a wide range of Anglican and Protestant thought as well The author brings together the teaching of Vatican II on the sacraments with the rich tradition of sacramental theology through the centuries

An Introduction to Catholic Sacramental Theology Alexandre Ganoczy, 2008-04-01 Ganoczy provides a complete overview of the history of Catholic sacramental theology and a clear explanation of contemporary theological developments The classical teaching of the Council of Trent and its later theological formulations are compared to the new theological language of the Second Vatican Council and the personalist theologies of modern thinkers such as Karl Rahner and Edward Schillebeeckx Introduction to Catholic Sacramental Theology moves clearly from 1 a sketch of the historical development of the sacramental concept to 2 the basic elements in a general theory of the sacraments to 3 discussion of the individual sacraments In the last chapter the author introduces his own expanded understanding of the sacraments Using the concepts of modern communication theory he envisions the sacraments as events of communication in the life of the concrete faith community in which each sacrament has its own particular form and purpose

Sacramental Theology Herbert Vorgrimler, 1992 Both resistance to and renewed interest in the sacraments mark current theological thought This work acknowledges human limitations of the sacraments but stresses that God's relationship to human beings cannot be other than sacramental Sacramental structures and events constitute salvation history and thus permeate all theology What makes this sacramental view comprehensible is faith faith is an indispensable precondition for a sacramental theology Therefore the author first demonstrates the preconditions of faith on which sacramental theology rests and what place it holds within the whole of theology Following this he briefly presents the concept of sacraments and the history of that concept the teachings of Church tradition on sacraments in general and the basic features of a sacramental theology Next he explains from a theological perspective the traditional sacraments of the Catholic Church including related topics such as indulgences and sacramentals

Introduction to Sacramental Theology Jose Granados, 2021-06-18 Introduction to Sacramental Theology presents a complete overview of sacramental theology from the viewpoint of the body This viewpoint is supported in the first place by Revelation for which the sacraments are the place where we enter into contact with the body of the risen Jesus It is a viewpoint secondly which is firmly rooted in our concrete human bodily experience thus allowing for a strong connection between faith and life creation and redemption From this point of view the treatise on the sacraments occupies a strategic role For the sacraments appear not as the last of a series of topics after dealing with Creation Christ the Church but as the original place in which to stand in order to contemplate the entire Christian mystery This point of view of the body which resonates with contemporary philosophy sheds fruitful light on classical themes such as

the relationship of the sacraments with creation the composition of the sacramental sign the efficacy of the sacraments the sacramental character the role of the minister or the relationship of the sacrament with the Church as a sacrament As a result of this approach the Eucharist takes on a central role since this is the sacrament where the body of Jesus is made present The rest of the sacraments are seen as prolongations of the eucharistic body so as to fill all the time and space of the faithful This foundation of the theology of the sacraments in eucharistic theology is supported by an analysis of the patristic and medieval tradition In order to support its conclusions Introduction to Sacramental Theology examines the doctrine of Scripture especially St John and St Paul the main patristic and medieval authors St Augustine Hugh of St Victor St Bonaventure St Thomas Aquinas the response of Trent to the protestant challenges up to modern authors such as Scheeben Rahner Ratzinger or Chauvet including the teaching of Vatican II about the Church as a kind of sacrament

The Oxford Handbook of Sacramental Theology Hans Boersma, Matthew Levering, 2015-08-06 As a multi faceted introduction to sacramental theology the purposes of this Handbook are threefold historical ecumenical and missional The forty four chapters are organized into the following parts five parts Sacramental Roots in Scripture Patristic Sacramental Theology Medieval Sacramental Theology From the Reformation through Today and Philosophical and Theological Issues in Sacramental Doctrine Contributors to this Handbook explain the diverse ways that believers have construed the sacraments both in inspired Scripture and in the history of the Church s practice In Scripture and the early Church Orthodox Protestants and Catholics all find evidence that the first Christian communities celebrated and taught about the sacraments in a manner that Orthodox Protestants and Catholics today affirm as the foundation of their own faith and practice Thus for those who want to understand what has been taught about the sacraments in Scripture and across the generations by the major thinkers of the various Christian traditions this Handbook provides an introduction As the divisions in Christian sacramental understanding and practice are certainly evident in this Handbook it is not thereby without ecumenical and missional value This book evidences that the story of the Christian sacraments is despite divisions in interpretation and practice one of tremendous hope

Models of the Eucharist, Second Edition Irwin, Kevin W., 2020 In this book updated with the texts of the third edition of the Roman Missal Kevin Irwin reflects on the jewel in the crown of Catholicism the celebration of the Eucharist His book theological pastoral and contemporary is essentially concerned with issues about the Eucharist that face us today decades after the truly historic and unprecedented revisions that took after the Second Vatican Council Some of these concerns are the result of unforeseen developments about the Eucharist resulting from other factors for example the decline in numbers of clergy which has led in some places to Sunday celebrations without the Mass Other concerns arise from a lack of proper catechesis about the Mass and a keen desire to understand why and how the Eucharist is at the center of Catholic life In addition to being expressly theological this book is also expressly pastoral in that it is a reflection on the life lived by the church as it enacts the Eucharist and seeks to live out what the Eucharist celebrates The book is aimed at the

audience of educated Catholics who seek a deeper appreciation of what the Eucharist is and who want to appropriate that understanding in the way they live their lives This book will be of particular interest to pastoral ministers both those present and those in training and the communities of faith whom they serve Doors to the Sacred Joseph Martos,1991 This historical introduction the only such study of the sacraments in the Catholic Church available has been called illuminating thorough reliable **The New Apologetics** Ian S. Markham,2020-03-27 Skepticism about Christianity abounds Building on the work of Charles Taylor Ian S Markham argues that contemporary skepticism is more a mood than an intellectual repudiation of Christian theology In its attempt to accommodate science the church too often opts for deistic responses that take the spiritual out of the material Against this response Markham argues for a rich imaginative account of the world that is grounded in Christian revelation and affirms spiritual causation angels and the reality of the saints It is a clarion call for the Western church to learn from the church in the Global South and create a rich theology that lives up to its professed values as a genuinely inclusive church Ecology, Liturgy, and the Sacraments Irwin, Kevin W.,2023 This book is based on the principle that the liturgy is the enactment of the work of our redemption through the raising up acknowledging and revering elements of the cosmos the earth and our fellow creatures in our common home It is inspired by Pope Francis s encyclical Laudato Si On Care for Our Common Home in its entirety not just the sections on the Eucharist and liturgy because it presents a world view and requires respecting and caring for all creatures who share this planet It is illuminated by research into the history of sacramental theologies and the contemporary context of concern for the environment In effect there is no such thing as one Roman Catholic theology of the sacraments and more often than not differing contexts in the life of the church and the world required differing contents for sacramental theology The author argues that concern for the environment is a traditional Catholic premise based on the goodness of creation and that God is creator of heaven and earth He also argues that an ecological approach to sacramental theology can help to understand underlying factors and principles in the enactment of the liturgy of the sacraments about how and where God is discovered in the world in general and in the liturgy and sacraments in an intense and focused way through engagement with all who dwell in our common home

Toward a Priestly Christology Adriani Milli Rodrigues,2018-11-02 Toward a Priestly Christology is a constructive theology on the person and work of Christ from the standpoint of a systematic thinking about his priesthood This priesthood is usually discussed in biblical scholarship on the Christology of Hebrews and also explored in historical or systematic theology with its connections with soteriology and ecclesiology However there is a scarcity of studies that attempt to systematize this topic in its basic components and their ontological foundations in order to provide conceptual clarity for a constructive discussion of the priestly Christology in systematic theology The book makes a contribution to this discussion by engaging firstly with the main models of Christ s priesthood in Christian theology and then with a theological reading of the letter to the Hebrews In both steps the author conceptually articulates the priesthood in terms of need agent actions and goal

Then he observes the conceptual articulation from the macro hermeneutical point of view of ontology especially noticing how assumptions on time and space impact the internal logic of Christ's priesthood. By using existing models of this priesthood as heuristic tools for systematic thinking, the work attempts to push Christian theology toward a more dynamic understanding of Christ's priesthood especially regarding the relationship between the ascended Christ and our Christian life.
