Sacraments Of Desire:

The Sacraments of Desire Linda Gregg,1991-03 **The Sacrament of Desire** Alex D. Suderman,2022-09-26 This book explores the political theological implications of sacramental desire in Fyodor Dostoevsky's *The Brothers Karamazov* with Friedrich Nietzsche's *Thus Spoke Zarathustra* in critical dialogue with Henri de Lubac. Suderman demonstrates how the work of de Lubac, Dostoevsky and Nietzsche address a transcendent desire for a higher social and political unity in late modern Western cultures and the imperialistic and coercive tendencies latent within it concretely expressed in the Western church and the modern state. Specifically this book investigates how Dostoevsky and Nietzsche envision new forms of political embodiment that are neither escapist nor imperialist. Through a detailed examination of Zarathustra's dramatic discovery of the eternal return and Alyosha's mystical experience of the resurrection, Suderman demonstrates the metaphysical significance of their respective political ethics. While the intent of de Lubac is to recover the social implications of the sacraments of Roman Catholicism, Nietzsche and Dostoevsky espouse alternative articulations of community and the sacramental desire necessary for such embodiment: a desire rooted in their respective perceptions of God. **Christ the Sacrament of the Encounter with God** Edward Schillebeeckx,1987-06 A reprinting of Schillebeeckx's classic work. A standard in understanding the relationship between Christ, Sacrament and the Church. A positive and constructive ecclesial theology. **The Collected Works of Edward Schillebeeckx Volume 1** Edward Schillebeeckx,2014-09-25 This is a new edition of the 1963 classic which gave Christological thought a new direction. As far back as his first major book, Schillebeeckx propounded an anthropological approach to the sacraments. In *Christ the Sacrament of the Encounter with God* he draws on theologically fruitful work by phenomenological anthropologists like Merleau-Ponty, Buytendijk and Binswanger. That makes Schillebeeckx's distinctive idiom and modern approach appealing even today. He rediscovers as it were from within the notions forged by scholastic theology and thus restores to us a theology of the sacraments rooted in the biblical and patristic soil from which they first sprang. Schillebeeckx's speculative synthesis of this quest still has a fresh ring to it. He describes Christ as the primordial sacrament in a reflection on his public ministry, death and resurrection inspired by the universal human search for such a sacrament. He concludes that the church's sacraments have to be an earthly extension of the liberation brought by Christ's story. Schillebeeckx ends by describing sacraments as grace made visible that gives crowning moments in Christian life a mystical quality. Edward Schillebeeckx *Collected Works* bring together the most important and influential works of the Dutch Dominican and theologian Edward Schillebeeckx 1914-2009 in a reliable edition. All translations have been carefully checked or revised; some texts are presented in English for the first time. The page numbers of earlier editions are included. Each volume carries a foreword by an internationally renowned Schillebeeckx expert. This edition makes Schillebeeckx available for a new generation of scholars and students. **A Theology for Artisans of a New Humanity, Volume 1** Juan L. Segundo,2011-05-13 **A THEOLOGY FOR ARTISANS OF A NEW HUMANITY** Ask

Augustine Paul A. Tambrino, 2006-03 Ask Augustine is much more than a simple question and answer book Questions are used to challenge the reader's attention and to present information in the most effective manner The book is a series of short essays ranging in length from a sentence or two to several pages It is not a biblical or theological commentary concordance dictionary or encyclopedia but embraces some of the characteristics of them all **Sacraments of Initiation, Second Edition** Liam G. Walsh OP, 2022-01-07 This title is no longer available The original edition of this book presented a theology of sacraments that emerged out of a Church stirred into new life by the Second Vatican Council It is a theology that can claim to have been continuously received in the Catholic Church since then It is the theology that has been widely practiced and preached in pastoral life has been given catechetical shape in the Catechism of the Catholic Church However during the past 23 years some trends developed in pastoral theology and practice that were taking directions that seemed hard to reconcile with the decisions of the Council This new edition examines the way some theological counter currents have developed over those years both in theory and in practice The sacramental theology contained in this study maintains the broad ongoing agreement between what it proposes and mainstream Church teaching and practice The book examines the tradition of sacramental practice and teaching Biblical and historical studies continue to uncover new riches of the tradition and recent findings are discussed A careful listening to the tradition of rite and word is truly indispensable for sacramental theology It was out of such listening that Vatican II teaching on sacraments emerged and provision was made for recovering the full richness of the tradition Not all of the recent theological speculations and pastoral strategies given an equally serious acknowledgement to the tradition The liturgies that are studied in this book have been given to the Church in the wake of Vatican II The historical chapters will show the liturgies to be a contemporary expression of fidelity to core values of the Apostolic Tradition The chapters on the rite of each sacrament are mainly descriptive and historical but also include anthropological reflections that unveil the human significances of the various rites The chapters on the word examine the biblical and traditional word spoken in the churches about each sacrament and conclude with what is called a systematic essay The bibliography has updated to reflect the development in the field **Sacrifice As Gift** Michon M. Matthiesen, 2013 Sacrifice as Gift is a timely presentation of a forgotten vision of eucharistic sacrifice one that reconfigures the current philosophical and theological divide between sacrifice and gift **The Oxford Handbook of Catholic Theology** Lewis Ayres, Medi Ann Volpe, 2019-03-28 The Oxford Handbook of Catholic Theology provides a one volume introduction to all the major aspects of Catholic theology Part One considers the nature of theological thinking and the major topics of Catholic teaching including the Triune God the Creation and the mission of the Incarnate Word It also covers the character of the Christian sacramental life and the major themes of Catholic moral teaching The treatments in the first part of the Handbook offer personal syntheses of Catholic teaching but each offers an account in accord with Catholic theology as it is expressed in the Second Vatican Council and authoritative documentation Part Two focuses on the historical development of Catholic

Theology An initial section offers essays on some of Catholic theology's most important sources between 200 and 1870 and the final section of the collection considers all the main movements and developments in Catholic theology across the world since 1870 This comprehensive volume features fifty six original contributions by some of the best known names in current Catholic theology from the Americas Europe Asia and Africa The chapters are written in an engaging and easily comprehensible style functioning both as a scholarly reference and as a survey of the field There are no comparable studies available in one volume and the book will be an indispensable reference for students of Catholic theology at all levels and in all contexts The New Creation Herbert McCabe, 2010-12-30 A reissue of McCabe's classic book on the sacraments what it is to live in the Church
