Sacred Profance:

The Sacred and the Profane Mircea Eliade, 1959 Famed historian of religion Mircea Eliade observes that even moderns who proclaim themselves residents of a completely profane world are still unconsciously nourished by the memory of the sacred Eliade traces manifestations of the sacred from primitive to modern times in terms of space time nature and the cosmos In doing so he shows how the total human experience of the religious man compares with that of the nonreligious This book serves as an excellent introduction to the history of religion but its perspective also encompasses philosophical anthropology phenomenology and psychology It will appeal to anyone seeking to discover the potential dimensions of human existence P 4 of cover *Discourse on Sacred and Profane Images* Gabriele Paleotti, 2012 In the wake of the Counter Reformation Cardinal Gabriele Paleotti the archbishop of Bologna wrote a remarkable treatise on art during a time when the Church feared rampant abuse in the arts Translated into English here for the first time Paleotti's *Discourse on Sacred and Profane Images* argues that art should address a broad audience and explains the painter's responsibility to his spectators The *Discourse* is introduced by historian Paolo Prodi who explains how even if the archbishop did not succeed in reforming the arts Paleotti's treatise constituted one last synthesis of art as a reading of creation and salvation history and sacred art as a vehicle of devotion *Culture and Power* David Swartz, 1997 Pierre Bourdieu is one of the world's most important social theorists and is also one of the great empirical researchers in contemporary sociology However reading Bourdieu can be difficult for those not familiar with the French cultural context and until now a comprehensive introduction to Bourdieu's oeuvre has not been available David Swartz focuses on a central theme in Bourdieu's work the complex relationship between culture and power and explains that sociology for Bourdieu is a mode of political intervention Swartz clarifies Bourdieu's difficult concepts noting where they have been misinterpreted by critics and where they have fallen short in resolving important analytical issues The book also shows how Bourdieu has synthesized his theory of practices and symbolic power from Durkheim Marx and Weber and how his work was influenced by Sartre Levi Strauss and Althusser *Culture and Power* is the first book to offer both a sympathetic and critical examination of Bourdieu's work and it will be invaluable to social scientists as well as to a broader audience in the humanities **Hierarchy** Knut Mikkelsen, Olaf H. Smedal, 2009 On the basis of diverse ethnographic contexts in Oceania Asia and the Middle East the author's challenge current conceptions of hierarchical formations and reassess former debates both with regard to new theoretical issues and the new world situation of post colonial and neocolonial agendas *The Paradoxical Breakthrough of Revelation* Uwe Carsten Scharf, 1999 No detailed description available for *The Paradoxical Breakthrough of Revelation* **World Scriptures** Kenneth Kramer, 1986 *World Scripture* is a guidebook to the primary source materials of the classical living religions of the world It is a guidebook which innovatively blends critical and interpretative tools with sacred symbols and stories of Ultimacy **Illness and Healing Among the Sakhalin Ainu** Emiko Ohnuki-Tierney, 1981-08-31 Originally published in 1981 this book explores the

issue of how a society understands human illness in the absence of a germ theory This is done through an interpretation of the illness categories and healing practices of the Sakhalin Ainu a hunting and gathering people resettled in Japan The text illustrates how illnesses relate to the Ainu view of the universe and how their medical system is intimately interwoven with their moral cosmology and social networks Even such minor ailments as headaches and boils are meticulously classified to mirror the classifications of such basic perceptual structures as space and time With the Ainu medical system as an example this book probes questions central to research in symbolic medical and linguistic anthropology structuralism and the anthropology of women

Epistemology and Practice Anne Warfield Rawls, 2005-03-03 In this original and controversial book Professor Rawls argues that Durkheim's *The Elementary Forms of Religious Life* is the crowning achievement of his sociological endeavour and that since its publication in English in 1915 it has been consistently misunderstood Rather than a work on primitive religion or the sociology of knowledge Rawls asserts that it is an attempt by Durkheim to establish a unique epistemological basis for the study of sociology and moral relations By privileging social practice over beliefs and ideas it avoids the dilemmas inherent in philosophical approaches to knowledge and morality that are based on individualism and the tendency to privilege beliefs and ideas over practices both tendencies that dominate western thought Based on detailed textual analysis of the primary text this book will be an important and original contribution to contemporary debates on social theory and philosophy
