## **Sacred Cow And The Abominable Pig Riddles Of Food And Culture:**

The Sacred Cow and the Abominable Pig Marvin Harris, 1987      Animals and Animality in the Babylonian Talmud Beth A. Berkowitz, 2018-04-19

Animals and Animality in the Babylonian Talmud selects key themes in animal studies animal intelligence morality sexuality suffering danger personhood and explores their development in the Babylonian Talmud Beth A. Berkowitz demonstrates that distinctive features of the Talmud the new literary genre the convergence of Jewish Christian and Zoroastrian cultures the Talmud's remove from Temple centered biblical Israel led to unprecedented possibilities within Jewish culture for conceptualizing animals and animality She explores their development in the Babylonian Talmud showing how it is ripe for reading with a critical animal studies perspective When we do we find waiting for us a multi layered surprisingly self aware discourse about animals as well as about the anthropocentrism that infuses human relationships with them For readers of religion Judaism and animal studies her book offers new perspectives on animals from the vantage point of the ancient rabbis

After World Religions Christopher R. Cotter, David G. Robertson, 2016-02-05

The World Religions Paradigm has been the subject of critique and controversy in Religious Studies for many years After World Religions provides a rationale for overhauling the World Religions curriculum as well as a roadmap for doing so The volume offers concise and practical introductions to cutting edge Religious Studies method and theory introducing a wide range of pedagogical situations and innovative solutions An international team of scholars addresses the challenges presented in their different departmental institutional and geographical contexts Instructors developing syllabi will find supplementary reading lists and specific suggestions to help guide their teaching Students at all levels will find the book an invaluable entry point into an area of ongoing scholarly debate

Rice Talks Nir Avieli, 2012-04-30

An anthropological study of the culture surrounding food in a thriving Vietnamese town Rice Talks explores the importance of cooking and eating in the everyday social life of Hoi An a prosperous market town in central Vietnam known for its exceptionally elaborate and sophisticated local cuisine In a vivid and highly personal account Nir Avieli takes the reader from the private setting of the extended family meal into the public realm of the festive extraordinary and unique He shows how foodways relate to class relations gender roles religious practices cosmology ethnicity and even local and national politics This evocative study departs from conventional anthropological research on food by stressing the rich meanings generative capacities and potential subversion embedded in foodways and eating In this very engaging narrative Avieli captures the flavor and richness of everyday lowland Vietnamese life as well as the trials and tribulations of attempting to eke out a livelihood fit within family hierarchical structures and correctly pay homage to the necessary deities and ancestors Sarah Turner McGill University Readers with an interest in Vietnamese Southeast Asian and Asian cuisines and or the influences of colonialism on local foodways will find the work useful Filled with descriptions of meals and dishes likely to get the culinarily minded reader drooling And almost any non academic writer planning to do food related research anywhere in the world could take something away from the final

chapter which discusses the practicalities of this type of research Robyn Eckhardt author of *EatingAsia* **The Torah and the Stoics on humankind and nature** J.J. Boersema,2021-09-06 The environmental problematique is intimately bound up with deep seated human attitudes regarding our relationship with nature Here in the west those attitudes have been shaped to no small degree by the canonical texts of the Bible and the classical philosophers In this book the author re examines some of these seminal texts arguing that what we today know as Christian cosmology is in fact a grafting of classical Greek philosophy onto ancient Israelite thought with certain valuable traditions being all but lost in the process The dietary laws of Leviticus and Deuteronomy in particular still prove surprisingly relevant today Often misread on this point the creation narratives of Genesis can likewise serve as a rich point of departure for examining our attitudes towards the natural world A reappraisal of these sources is necessary and feasible There is no need for an appeal to cosmologies alien to our own culture nor for recourse to New Age beliefs in all their variety *Adventures In Eating* Helen R. Haines,Clare A. Sammells,2011-05-18 Anthropologists training to do fieldwork in far off unfamiliar places prepare for significant challenges with regard to language customs and other cultural differences However like other travelers to unknown places they are often unprepared to deal with the most basic and necessary requirement food Although there are many books on the anthropology of food *Adventures in Eating* is the first intended to prepare students for the uncomfortable dining situations they may encounter over the course of their careers Whether sago grubs jungle rats termites or the pungent durian fruit are on the table participating in the act of sharing food can establish relationships vital to anthropologists research practices and knowledge of their host cultures Using their own experiences with unfamiliar and sometimes unappealing food practices and customs the contributors explore such eating moments and how these moments can produce new understandings of culture and the meaning of food beyond the immediate experience of eating it They also address how personal eating experiences and culinary dilemmas can shape the data and methodologies of the discipline The main readership of *Adventures in Eating* will be students in anthropology and other scholars but the explosion of food media gives the book additional appeal for fans of *No Reservations* and *Bizarre Foods* on the Travel Channel *Dubious Gastronomy* Robert Ji-Song Ku,2013-12-31 California roll Chinese take out American made kimchi dogmeat monosodium glutamate SPAM all are examples of what Robert Ji Song Ku calls dubious foods Strongly associated with Asian and Asian American gastronomy they are commonly understood as ersatz depraved or simply bad In *Dubious Gastronomy* Ku contends that these foods share a spiritual fellowship with Asians in the United States in that the Asian presence be it culinary or corporeal is often considered watered down counterfeit or debased manifestations of the real thing The American expression of Asianness is defined as doubly inauthentic as insufficiently Asian and unreliably American when measured against a largely ideological if not entirely political standard of authentic Asia and America By exploring the other side of what is prescriptively understood as proper Asian gastronomy Ku suggests that Asian cultural expressions occurring in places such as Los Angeles Honolulu New York

City and even Baton Rouge are no less critical to understanding the meaning of Asian food and by extension Asian people than culinary expressions that took place in Tokyo Seoul and Shanghai centuries ago In critically considering the impure and hybridized with serious and often whimsical intent Dubious Gastronomy argues that while the notion of cultural authenticity is troubled troubling and troublesome the apocryphal is not necessarily a bad thing The dubious can be and is often quite delicious Dubious Gastronomy overlaps a number of disciplines including American and Asian American studies Asian diasporic studies literary and cultural studies and the burgeoning field of food studies More importantly however the book fulfills the critical task of amalgamating these areas and putting them in conversation with one another Written in an engaging and fluid style it promises to appeal a wide audience of readers who seriously enjoys eating and reading and thinking about food
