Sacred Place Chosen People Land And National Identity In Welsh Spirituality:

Sacred Place, Chosen People Dorian Llywelyn, 1999 An innovative theological study of the sense of holy place and the links between nationality nationalism and spirituality Is nationalism fundamentally opposed to any ideas of equality tolerance or international understanding or can it be expressed in humanitarian and Christian forms **Cartographies of Culture**

Damian Walford Davies, 2012-06-15 *Cartographies of Culture* New Geographies of Welsh Writing in English offers a pioneering new examination of the links between maps and imaginative writing Concerned to draw literary studies and geography into a fruitful dialogue the book offers a genuinely interdisciplinary study of literary texts in relation to the spatialities of culture Taking the anglophone literature of Wales as its main data field the book offers a boldly imaginative and stringently theorised analysis of five literary maps What emerges is nothing less than a new way of reading literature through and as maps **Welsh Environments in Contemporary Poetry** Matthew Jarvis, 2021-03-15 *Welsh Environments*

in Contemporary Poetry examines the question of how recent English language poetry from Wales has responded to the diverse physical environments of Wales The first volume to offer a sustained assessment of Welsh poetry in English within the context of recent developments in environmental literary criticism this book also draws on aspects of human geography to explore the rich contemporary poetics of Welsh space and place Opening with an examination of poets from the 1960s as well as the early work of R S Thomas *Welsh Environments in Contemporary Poetry* subsequently concentrates on the poetry of writers who have come to prominence since the 1970s Gillian Clarke Ruth Bidgood Robert Minninnick Mike Jenkins Christine Evans and Ian Davidson Close reading of key texts reveals the way in which these writers variously create Welsh places landscapes and environments fashioning rural and urban spaces into poetic geographies that are both abundantly physical and inescapably cultural Far from reducing Wales to mere scenery the poetry that emerges from this book engages with the environments of Wales not just for their own sake but as a crucial way of exploring key issues in Welsh culture from the negotiation of female identity in a land of masculine myths to the exploration of Welsh space in a global context **Sex, Sects and Society** Russell Davies, 2018-03-28 This book will provide an educational and entertaining read It will explain the contradictions and complexities of the Welsh national identity This book will reveal the hardships and horrors of some people's lives It will reveal how religion and superstition ebbed and flowed together J.O. Francis, *Realist Drama and Ethics* Alyce von Rothkirch, 2014-06-15 This book rediscovers and re-evaluates the work of the Welsh dramatist J O Francis 1882 1954 and his contribution to the development of Welsh drama in the twentieth century More than a prize winning dramatist whose plays were performed all over the world Francis can also be described as one of the founding fathers of modern Welsh drama whose work has helped establish theatrical realism on the Welsh stage His creative non-fiction for the popular press and for radio gives a unique perspective on how Wales was seen through the eyes of a perceptive London Welsh observer Using much previously unpublished material this volume is an excellent introduction to one of Wales's foremost dramatists and is

innovative in the way that it creates a picture of the amateur dramatic scene of south Wales 1920-40 based on sound statistical analysis of available evidence. It situates Francis's work in its cultural context and brings this exciting period in Welsh cultural history to life in its introduction to a new audience.

Toward a Catholic Theology of Nationality Dorian Llywelyn, 2010-06-28 Nationality continues to be an important part of how people identify themselves and others. Who am I is inseparable from the question Who and what are we. Historically many nations have made use of the Bible and Christian notions to understand themselves and to justify their political ambitions. Catholic theology however has never elaborated on a systematic treatment of nationality. Dorian Llywelyn forges a new approach treating the nation as a form of culture. He addresses some key questions: How are the religious and national aspects of human identity connected? What does Catholic doctrine have to say about nationality and nationalism? Is there really such a thing as a Christian nation? Is Catholicism compatible with patriotism? Llywelyn's wide-ranging book introduces the reader to contemporary approaches to nationality: nationality, national identity, nationalism and patriotism. Drawing from the insights of sociology, history and anthropology, he investigates the many ways in which nations and Christianity have intertwined and explores what scripture and twentieth-century papal teaching have to say on the matter. He provides an original Catholic theology of national belonging, one which is based on the implications of the Incarnation. Examining popular devotions to the Virgin Mary as national patroness and drawing from the metaphysical acumen of the medieval thinker John Duns Scotus, Llywelyn argues for the theological value of nationality and proposes that global community and cultural and national diversity are mutually necessary values.

The Nations of Wales M. Wynn Thomas, 2016-05-20 Opens up a period in Welsh cultural history that has been almost completely overlooked. First monograph to explore Welsh history between 1890-1914.

A New History of the Church in Wales Norman Doe, 2020-03-05 This book marks the centenary of the Church in Wales following its disestablishment in 1920. Part I provides a historical overview from the Age of the Saints to Victorian times; the disestablishment campaign; Christianity in Wales since 1920 and broad issues faced over the century. Part II explores the constitution: bishops and archbishops, clergy and laity. Part III examines doctrine, liturgy, rites of passage and relations with other faith communities. Part IV deals with the church and culture: education, the Welsh language and social responsibility. Part V discusses the changing images of the Church and its future. Around themes of continuity and change, the book questions assumptions about the Church including its distinctive theology and Welshness, ecumenical commitment, approach to innovation and response to challenges posed by the State and wider world in an increasingly pluralist and secularised Welsh society over the century.

The Holy Land in English Culture 1799-1917 Eitan Bar-Yosef, 2005-10-27 The dream of building Jerusalem in England's green and pleasant land has long been a quintessential part of English identity and culture, but how did this vision shape the Victorian encounter with the actual Jerusalem in the Middle East? *The Holy Land in English Culture 1799-1917* offers a new cultural history of the English fascination with Palestine in the long nineteenth century, from Napoleon's failed Mediterranean campaign of 1799 which

marked a new era in the British involvement in the land to Allenby's conquest of Jerusalem in 1917 Bar Yosef argues that the Protestant tradition of internalizing Biblical vocabulary Promised Land Chosen People Jerusalem and applying it to different often contesting visions of England and Englishness evoked a unique sense of ambivalence towards the imperial desire to possess the Holy Land Popular religious culture in other words was crucial to the construction of the orientalist discourse so crucial in fact that metaphorical appropriations of the Holy Land played a much more dominant role in the English cultural imagination than the actual Holy Land itself As it traces the diversity of Holy Lands in the Victorian cultural landscape literal and metaphorical secular and sacred radical and patriotic visual and textual this study joins the ongoing debate about the dissemination of imperial ideology Drawing on a wide array of sources from Sunday school textbooks and popular exhibitions to penny magazines and soldiers diaries the book demonstrates how the Orientalist discourse functions or to be more precise malfunctions in those popular cultural spheres that are so markedly absent from Edward Said's work it is only by exploring sources that go beyond the highbrow the academic or the official that we can begin to grasp the limited currency of the orientalist discourse in the metropolitan centre and the different meanings it could hold for different social groups As such *The Holy Land in English Culture 1799-1917* provides a significant contribution to both postcolonial studies and English social history

The Big Society in a Small Country Dan Boucher, 2013 This book argues that the Big Society concept is in a real sense more Welsh than English It contends that Wales can add value to the development of big society ideas in practice and at the same time renew its own economic life identity and traditions
