Sacred Scriptures Of World Religion 3ed:

Sacred Scriptures of the World Religions Joan Price, 2010-02-17 Price examines religions across the world offering an insight into each tradition's views of the world through their scriptural texts and spiritual practices **World Religions and Cults Volume 3** Bodie Hodge, Roger Patterson, 2016-11-30 This final book in the series focuses on the atheistic or humanistic type of religions. It would be one of the most valuable for the church in the Western World where anti-god and pro-evolution religions are beginning to explode for it was written to refute those religions and show how they fail. Unlike most books on world religions, this title dives into the secular humanistic religions. The book starts with God's Word as the absolute authority. In doing so, God becomes our guide to refute false religions. Humanistic religions are all around us and we need to be able to spot their tenets and oppose them instead of allowing them to subtly infiltrate our Christianity and undermine us from within. We need to know how to refute these humanistic religions. We need to know how to effectively present the gospel to people who have been deceived by humanistic religions **The World Religions Reader** Gwilym Beckerlegge, 2001 Gathers together material on six of the world's most influential faiths with readings drawn from a broad range of historical and contemporary sources **Readings in the Philosophy of Religion - Third Edition** Kelly James Clark, 2017-05-03 This anthology contains the best of both classical and contemporary sources offering a balanced historical approach to the philosophy of religion while reflecting the latest developments in the field. The included readings grapple with issues that are existentially compelling and provocative regardless of one's religious leanings. Topics are covered in a point-counterpoint manner designed to foster deep reflection. This third edition contains an entirely new section on early Chinese religion as well as new essays on religious language, feminism, and the cognitive science of religion **Nectar #3** Babaji Bob Kindler, Lex Hixon, Swami Sunirmalananda, Swami Ranganathananda, Annapurna Sarada, Rabbi Ariel Stone-Halpern, Rabbi Rami Shapiro, Llewellyn Vaughn Lee, 2001-06-07 This installment of Nectar is dedicated to the auspicious boon and blessing of sacred scripture. In Vedic tradition, scripture is seen as something revealed rather than written wisdom inherent in Consciousness instead of something created by the mind. It is nitya anadi and apaurasheya, eternally present and accessible without beginning or end and not ascribable to human authorship. Other viewpoints consider that these sacred teachings come from Ishvara, God's presence in the universe, or that the actual knowledge comes from God while the language is supplied by luminaries. Finally, one school believes that scripture is only a product of the finest human intellect. Whatever the case may be, these teachings are very valuable to all who would cross the ocean of birth and death, samsara, and establish themselves in their undying and immortal essence *The History of the Rise and Fall of the World's Religions and their Evolution* Younus Samadzada, 2022-01-14 This book chronologically documents the rise and fall of the major religions of the world and explores the role that various cultural factors such as dance, trance, music, song, and language have played in this evolution. The role that leaders play in the evolution of religion is also discussed. Starting from the primitive religions of

hunter gatherer societies in which religion was not part of any institution the next stages of human life from the agricultural revolution to the modern religions of today are discussed Among the modern religions discussed are Judaism Buddhism Christianity Islam Scientology and numerous others The reader is further provided with a unique perspective on the potential good and evil aspects of religion and the very reality of the existence of a God or gods and the possible downfalls of the religious belief system

The World's Religions after September 11 Arvind Sharma, 2008-11-30 This set is an unprecedented examination of religion's influence on modern life an honest assessment of how religion can either destroy us or preserve us and a thorough exploration of what steps might be necessary for all religions to join together as a force for good Convening on the fifth anniversary of the terrorist attack on the World Trade Center the global congress The World's Religions after September 11 explored the negative and positive possibilities of the religious dimensions of life The presentations from the congress have been pulled together in this set which addresses religion's intersection with human rights spirituality science healing the media international diplomacy globalization war and peace and more This comprehensive set includes contributions from such well known scholars of religion as Arvind Sharma and a host of others from all the world's religious traditions This set is an unprecedented examination of religion's influence on modern life an honest assessment of how religion can either destroy us or preserve us and a thorough exploration of what steps might be necessary for all religions to join together as a force for good Because of the attack on the World Trade Center on September 11 2001 the very concept of religion underwent a paradigm shift Instead of standing for virtue and piety peace and harmony the word religion also came to be inextricably associated with evil aggression and terror People around the world began to question whether the religious and secular dimensions of modern life can be reconciled whether the different religions of the world can ever coexist in harmony Indeed the very future of religion itself has sometimes seemed to be uncertain or at least suspect
