Selected Letters On Politics Society:

Selected Letters on Politics and Society Alexis de Tocqueville, 1985-01-01 Correspondence by the eminent nineteenth century French historian documents his political views his careers as a writer and politician and his complex personality

Alexis de Tocqueville Alexis de Tocqueville, 1985 *Tocquevillian Ideas* Zbigniew Rau, Marek Tracz-Tryniecki, 2014-04-01 This book offers a new European centered approach to Tocqueville's thought Although Tocqueville is often revered as a classic writer on the subject of American democracy this book focuses on the multifaceted importance of his ideas within a European context This collection of essays presents Tocqueville's vision of a diverse and united Old Continent exploring his ideas of liberty virtue religion patriotism greatness civic participation and democracy These thoughts are analyzed not only in the context of Tocqueville's output but also in the light of their potential to describe the dilemmas of contemporary Europe and to offer remedies for its problems [Libraries, Classrooms, and the Interests of Democracy](#) John Buschman, 2012-07-30 In *Libraries Classrooms and the Interests of Democracy* Dr Buschman details the connections between our educative institutions and democracy and the resources within democratic theory reflecting on the tensions between marketing advertising consumption and democracy *The Democratic Sublime* Jason A. Frank, 2021 The transition from royal to popular sovereignty during the age of democratic revolutions from 1776 to 1848 entailed not only the reorganization of institutions of governance and norms of political legitimacy but also a dramatic transformation in the iconography and symbolism of political power The personal and external rule of the king whose body was the physical locus of political authority was replaced with the impersonal and immanent self rule of the people whose power could not be incontestably embodied This posed representational difficulties that went beyond questions of institutionalization and law extending into the aesthetic realm of visualization composition and form How to make the people's sovereign will tangible to popular judgment was and is a crucial problem of democratic political aesthetics The *Democratic Sublime* offers an interdisciplinary exploration of how the revolutionary proliferation of popular assemblies crowds demonstrations gatherings of the people out of doors came to be central to the political aesthetics of democracy during the age of democratic revolutions Jason Frank argues that popular assemblies allowed the people to manifest as a collective actor capable of enacting dramatic political reforms and change Moreover Frank asserts that popular assemblies became privileged sites of democratic representation as they claimed to support the voice of the people while also signaling the material plenitude beyond any single representational claim Popular assemblies continue to retain this power in part because they embody that which escapes representational capture they disrupt the representational space of appearance and draw their power from the ineffability and resistant materiality of the people's will Engaging with a wide range of sources from canonical political theorists Rousseau Burke and Tocqueville to the novels of Hugo the visual culture of the barricades and the memoirs of popular insurgents The *Democratic Sublime* demonstrates how making the people's sovereign will tangible to popular

judgment became a central dilemma of modern democracy and how it remains so today *Sustaining a Free Society* Roger Soder,2021-08-01 It is difficult to create a free society but even more difficult to sustain that free society over time We want to sustain the essential elements of a free society but at the same time we must recognize that the world is always changing How then to adjust to changes and to improve what we have without losing sight of core values is our focus in *Sustaining A Free Society* The book first outlines in practical real world terms fifteen conditions that must be in place to sustain a free society One critical condition given extended consideration is the need for a long term time perspective Conditions do not exist in the abstract they are created by people and the choices we make Thus we need to consider the roles and responsibilities of those involved in a free a society citizens and those they choose as leaders We are not born knowing our responsibilities as citizens and leaders these matters have to be learned *Sustaining a Free Society* moves to a consideration of the role schools must play in ensuring that future generations know and value a free society and are prepared to in turn assume their responsibilities

Journeys to the Other Shore Roxanne L. Euben,2008-07-01 The contemporary world is increasingly defined by dizzying flows of people and ideas But while Western travel is associated with a pioneering spirit of discovery the dominant image of Muslim mobility is the jihadi who travels not to learn but to destroy *Journeys to the Other Shore* challenges these stereotypes by charting the common ways in which Muslim and Western travelers negotiate the dislocation of travel to unfamiliar and strange worlds In Roxanne Euben's groundbreaking excursion across cultures geography history genre and genders travel signifies not only a physical movement across lands and cultures but also an imaginative journey in which wonder about those who live differently makes it possible to see the world differently In the book we meet not only Herodotus but also Ibn Battuta the fourteenth century Moroccan traveler Tocqueville's journeys are set against a five year sojourn in nineteenth century Paris by the Egyptian writer and translator Rifa'a Rafi al Tahtawi and Montesquieu's novel *Persian Letters* meets with the memoir of an East African princess Sayyida Salme This extraordinary book shows that curiosity about the unknown the quest to understand foreign cultures critical distance from one's own world and the desire to remake the foreign into the familiar are not the monopoly of any single civilization or epoch Euben demonstrates that the fluidity of identities cultures and borders associated with our postcolonial globalized world has a long history one shaped not only by Western power but also by an Islamic ethos of travel in search of knowledge **Social**

Science Quotations Robert Merton,2018-04-27 *Social Science Quotations* has been prepared to meet an evident unmet need in the literature of the social sciences Writings on the lives and theories of individual social scientists abound but there has been no fully documented collection of memorable quotations from the social sciences as a whole The frequent use of quotations in scientific as well as literary writings that are mere summaries or paraphrases typically fail to capture the full force of formulations that have made quotations memorable This book of quotations invites the further reading or rereading of the original texts beyond the quotations themselves Sills and Merton draw extensively upon the writings that constitute

the historical core of the social sciences and social thought those works with staying power often described as the classical texts Many quotations have been drawn from these classical texts because the quotations contain memorable ideas memorably expressed Both consequential and memorable these words have been quoted over the generations entering into the collective memory of social scientists everywhere and at times diffusing into popular thought and into the vernacular as well This book is useful to social scientists anthropologists economists historians political scientists psychiatrists psychologists sociologists and statisticians and for all who want to learn or verify memorable formulations and phrases concerning social thought and social theories It is particularly useful for graduate students taking courses that examine the history of their discipline
