Socialism and Communism John Murphy, 2014-07-15 The story of socialism and communism is a saga of idealism and cynicism revolution and repression power and powerlessness The entire political and economic history of the modern era is contained in this account forming a detailed and lively panorama The world is still grappling with age old questions regarding governance equality justice and freedom As this enthralling text details so vividly socialism and communism attempted to answer these questions definitively In that they failed but in doing so they highlighted the importance of the questions themselves and of the ordinary people whose lives hang in the balance waiting for answers

Mao Zedong's "Talks at the Yan'an Conference on Literature and Art" Bonnie McDougall, 2020-06-01 The writings of Mao Zedong have been circulated throughout the world more widely perhaps than those of any other single person this century The Talks at the Yan'an Conference on Literature and Art has occupied a prominent position among his many works and has been the subject of intense scrutiny both within and outside China This text has undoubted importance

to modern Chinese literature and history In particular it reveals Mao s views on such questions as the relationship between writers or works of literature and their audience or the nature and value of different kinds of literary products In this translation and commentary Bonnie S McDougall finds that Mao was in fact ahead of many of his critics in the West and his Chinese contemporaries in his discussion of literary issues Unlike the majority of modern Chinese writers deeply influenced by Western theories of literature and society including Marxism Mao remained close to traditional patterns of thought and avoided the often mechanical or narrowly literal interpretations that were the hallmark of Western schools current in China in the early twentieth century Many of the detailed discussions on the Talks in the West have been concerned with their political and historical significance However since Mao is a literary figure of some importance in twentieth century China McDougall finds it worthwhile to follow up his published remarks on the nature and source of literature and the means of its evaluation By better understanding the complex and revolutionary ideas contained in the Talks McDougall suggests we may acquire the necessary analytical tools for a more fruitful investigation into contemporary Chinese literature
