

The background of the cover is a classical painting of a young woman with dark hair adorned with a small floral headpiece. She is wearing a light green, off-the-shoulder dress with ruffles and is holding a large bouquet of pink and red flowers. The lighting is soft, highlighting her face and the folds of her dress.

Selected Writings Of Heinrich Von Kleist:

Selected Writings Heinrich von Kleist, 2004-01-01 Aiming in his translation for an English haunted and affected by the strangeness of the original David Constantine offers a wealth of Heinrich von Kleist's key writings in this collection the most ambitious of its kind

Selected Writings Paul Valéry, 1950 This selection from representative works of the great French poet philosopher is based on the Paris Morceaux Choisis volume which was assembled by Valéry himself

Selected Writings: 1935-1938 Walter Benjamin, Howard Eiland, Gary Smith, 1996 This volume offers extensively annotated translations of essays that are key to Benjamin's rewriting of the story of modernism and modernity as well as a diary from 1938 and penetrating studies of Bertolt Brecht Franz Kafka and Eduard Fuchs

Clausewitz in His Time Peter Paret, 2014-12-01 Anything but a detached theorist Clausewitz was as fully engaged in the intellectual and cultural currents of his time as in its political and military conflicts Late eighteenth century thought helped shape the analytic methods he developed for the study of war The essays in this volume follow his career in a complex military society together with that of other students of war both friends and rivals providing a broad perspective that leads to significant documents so far unknown or ignored They add to our understanding of Clausewitz's early ideas and their expansion into a comprehensive theory that continues to challenge our thinking about war today

The Sick List Ansgar Allen, 2021-06-30 The Sick List is about menace about a menace Gordon and is written in the voice of a menace It reads like one of the pen portraits of surreal ultra violence in Bernhard's Gargoyles where education turns out to be the most deceitful panacea of all Katharine Craik In this novel an unnamed academic in an unnamed contemporary university relates his obsession with his tutor Gordon He pores over the increasingly bizarre misreadings in Gordon's annotations in a strange selection of stolen library books Is Gordon unraveling a mystery Or is his own mind unraveling Meanwhile an epidemic of catatonia breaks out academics are found slumped and unconscious at their desks Is reading itself the cause of this sickness Is the only escape to return to illiteracy Witty moving and beautifully written The Sick List plays with the dividing line between deploring and exemplifying what it most despises Inspired by the work of the Austrian novelist Thomas Bernhard it considers how the minds of educated people are moulded by both the breadth of literary culture and the narrowness of academic institutions The Sick List operates on the far side of literature John Schad Beyond Criticism Editions is the reincarnation of the Beyond Criticism book series originally published by Bloomsbury and now part of Boiler House Press own experiments with the radical new forms that literary criticism might take in the 21st century

The Making of a Terrorist Jeffrey Champlin, 2014-12-31 In *The Making of a Terrorist* Jeffrey Champlin examines key figures from three canonical texts from the German language literature of the late eighteenth and early nineteenth centuries Goethe's *Gotz von Berlichingen* Schiller's *Die Rauber* and Kleist's *Michael Kohlhaas* Champlin situates these readings within a larger theoretical and historical context exploring the mechanics aesthetics and poetics of terror while explicating the emergence of the terrorist personality in modernity In engaging and

accessible prose Champlin explores the ethical dimensions of violence and interrogates an ethics of textual violence

Difference and Orientation Alexander Kluge, 2019-09-15 Alexander Kluge is one of contemporary Germany's leading intellectuals and artists. A key architect of the New German Cinema and a pioneer of auteur television programming, he has also cowritten three acclaimed volumes of critical theory, published countless essays, and numerous works of fiction and continues to make films even as he expands his video production to the internet. Despite Kluge's five decades of work in philosophy, literature, television, and media politics, his reputation outside of the German-speaking world still largely rests on his films of the 1960s, 70s, and 80s. With the aim of introducing Kluge's heterogeneous mind to an Anglophone readership, *Difference and Orientation* assembles thirty of his essays, speeches, glossaries, and interviews revolving around the capacity for differentiation and the need for orientation toward ways out of catastrophic modernity. This landmark volume brings together some of Kluge's most fundamental statements on literature, film, pre and post cinematic media, and social theory, nearly all for the first time in English translation. Together, these works highlight Kluge's career-spanning commitment to unorthodox, essayistic thinking.

Crafting Flesh, Crafting the Self John B. Lyon, 2006 This book analyzes wounded human bodies in early nineteenth-century German literature and traces their connection to changing philosophical models of the self. It argues that literary representations and metaphors of violence against the body not only offer powerful physical referents for a concept of self but that they also define violence as an integral component of the self.

Law and the Humanities: Cultural Perspectives Chiara Battisti, Sidia Fiorato, 2019-12-02 This volume investigates interdisciplinary intersections between law and the humanities from the Renaissance to the present day. It allows for fruitful encounters between different disciplines, from literature to science, from the visual arts to the post-human, from the postmodern novel's experimentation to most recent approaches towards the legal interpretation of literary texts. This productive dialogue fosters original perspectives in the interpretation of and reflection upon identity, justice, power, and human rights, and values, thus underlining the role of literature in the articulation of relevant cultural issues pertaining to specific periods.

The Concept and Practice of Conversation in the Long Eighteenth Century, 1688-1848 Katie Halsey, Jane Slinn, 2009-05-05 This collection of essays brings together eighteenth-century scholars from a variety of disciplines to discuss conversation in the eighteenth century as concept and practice. At the heart of the volume is a simple question: are eighteenth-century conceptualisations of the role and purpose of conversation still relevant or useful to scholars and thinkers today? This volume contains essays by leading scholars of the period as well as early-career researchers and answers a need for a broad-ranging discussion of the concept of conversation in the arts, social sciences, and humanities. The long eighteenth century is a particularly fruitful starting point for work on this topic, since ideas about conversation permeated all types of writing in this period, from the early forerunners of scientific textbooks to philosophical dialogues. The collection covers an exceptionally wide range of long eighteenth-century authors, artists, lawmakers, texts, and works of art, and although the focus of the volume

is largely on eighteenth century Britain the volume takes note of the rich relationships between continental European thought and British intellectual life in the period and of the influence of British ideas in the newly independent American republic

John Banville Neil Murphy, 2018-05-18 John Banville offers a close analysis of most of Banville's major novels as well as the Quirke crime novels he has written under the pseudonym Benjamin Black and his dramatic adaptations of Heinrich von Kleist's plays From the beginning Banville's work has been marked both by the presence of a complex embedded discourse about the significance of art and by a concurrent self-conscious obsession with its own status as art His novels perpetually reveal an overt fascination with the visual arts in particular and with the aesthetic principle of literature as art This study argues that as a whole Banville's work presents an elaborate and richly textured coded account of his relationship with art and with the self-referential fictional world that his novels have conjured It is from this critical context that John Banville's central argument is derived This book asserts that Banville's fiction can be viewed both as an extended interrogation into the meaning and status of art as well as itself being a representative of the type of art that is admired in the pages of the novels As such it also represents an extremely sophisticated enactment of the novel form that goes beyond the self-reflexivity of late twentieth century fiction to chart new developments in the literary arts The book's critical process involves several specific reference points Firstly Banville's own theoretical statements about art in interviews essays reviews and journalistic writing over the past 40 years are synthesized into a coherent interpretation of the author's artistic vision which is thereafter used as a conceptual touchstone when considering his major works of fiction This is done in conjunction with investigating specific theoretical perspectives about the relationship between literature and art by critics such as Denis Donoghue and Susan Sontag and by philosophers of art Graham Gordon Etienne Gilson Peter Lamarque and Susanne Langer

Ethical Encounters Daniel Meyer-Dinkgräfe, 2020-06-12 The essays on dimensions of theatre ethics at the heart of contributions to this volume demonstrate how individual academics and theatre artists have thought about the ethical implications of theatre and present the concepts and paradigms that have guided and influenced their thinking They raise relevant issues and debate these in clearly defined but not uniform ways ways that have helped them to come to terms with the issues they raise The reader may agree or disagree with individual authors or individual arguments If such agreement or disagreement supports them to form and develop their own opinions and resultant actions this book has served its purpose This volume arises from the 2007 and 2008 TaPRA conferences and all of its essays at one level or another reflect upon what is possible within the environment of theatre Possibility is one form of ethical engagement with the boundaries of philosophy and performance and reminds us of the inherently political aspect of any ethical question So whilst the most obviously ethically oriented papers appear towards the end of the volume in a separate section let us bear in mind that throughout certain limits of representation will always be in question for any understanding of theatre

The Soul of the Marionette John Gray, 2015-05-19 Compared with that of humans the life of the marionette looks more like an enviable state of freedom

In his brilliantly enjoyable and freewheeling new book John Gray draws together the religious philosophic and fantastical traditions that question the very idea of human freedom We flatter ourselves about the nature of free will and yet the most enormous forces logical physical metaphysical constrain our every action Many writers and intellectuals have always understood this but instead of embracing our condition we battle against it with everyone from world conquerors to modern scientists dreaming of a human dominion almost comically at odds with our true state Filled with wonderful examples and drawing on the widest possible reading from the Gnostics to Philip K Dick *The Soul of the Marionette* is a stimulating and engaging meditation on everything from cybernetics to the fairground marionettes of the title *Haiti's Literary Legacies* Kir Kuiken, Deborah Elise White, 2021-11-04 The essays gathered in *Haiti's Literary Legacies* unpack the theoretical historical and political resonance of the Haitian revolution across a multiplicity of European and American Romanticisms and include discussion of Haitian British French German and U S American traditions Often referred to as the only successful slave revolt in history the revolution that forged Haiti at once fulfilled challenged and ultimately surpassed Enlightenment conceptions of freedom and universality in ways that became crucial to transnational Romanticism yet scholars and historians of Romanticism are only beginning to take the measure of its impact This collection works at the intersection of Romantic and Caribbean studies to move that project forward showing the myriad ways that literatures of the Romantic period respond to and are transformed by the Revolution in Haiti Demonstrating the Revolution's centrality to romantic writing *Haiti's Literary Legacies* urges an enlarged understanding of Romanticism and of its implications for the political historical and ecological genealogies of the present **Critical Practice** Martin McQuillan, 2019-02-21 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com What is the relationship between theory and practice in the creative arts today In *Critical Practice* Martin McQuillan offers a critical interrogation of the idea of practice led research He goes beyond the recent vocabulary of research management to consider the more interesting question of the emergence of a cultural space in which philosophy theory history and practice are becoming indistinguishable McQuillan considers the work of a number of writers and thinkers who cross the divide between theoretical and creative practice including Alain Badiou and Terry Eagleton and the longer tradition of theory writing that runs through the work of H l ne Cixous Roland Barthes and Louis Althusser His aim is to elucidate the contemporary ramifications of a relationship that has been contested throughout the long history of philosophy from Plato's dialogues to Derrida's *Envois*

The Emergence of Neuroscience and the German Novel Sonja Boos, 2021-09-29 *The Emergence of Neuroscience and the German Novel* Poetics of the Brain revises the dominant narrative about the distinctive psychological inwardness and introspective depth of the German novel by reinterpreting the novel's development from the perspective of the nascent discipline of neuroscience the emergence of which is coterminous with the rise of the novel form In particular it asks how the novel's formal properties stylistic narrative rhetorical and figurative correlate with the formation of a neuroscientific

discourse and how the former may have assisted disrupted and or intensified the medical articulation of neurological concepts This study poses the question how does this rapidly evolving field emerge in the context of nineteenth century cultural practices and what were the conditions for its emergence in the German speaking world specifically Where did neuroscience begin and how did it broaden in scope And most crucially to what degree does it owe its existence to literature

Tragedy and Dramatic Theatre Hans-Thies Lehmann,2016-05-05 This comprehensive authoritative account of tragedy is the culmination of Hans Thies Lehmann s groundbreaking contributions to theatre and performance scholarship It is a major milestone in our understanding of this core foundation of the dramatic arts From the philosophical roots and theories of tragedy through its inextricable relationship with drama to its impact upon post dramatic forms this is the definitive work in its field Lehmann plots a course through the history of dramatic thought taking in Aristotle Plato Seneca Nietzsche Heidegger Lacan Shakespeare Schiller Holderlin Wagner Maeterlinck Yeats Brecht Kantor Heiner M ller and Sarah Kane

Heinrich Von Kleist's Poetics of Passivity (Studies in German Literature, Linguistics, and Culture) Steven R. Huff,2009 This book scrutinizes for the first time a key element in Kleist s thought and poetic process his obsession with the problem of passivity Scholars have long been attracted to the dynamic larger than life characters in Kleist s fiction and drama overlooking the fact that Kleist s works often turn on moments of stasis as these same protagonists are suddenly and sometimes brutally rendered passive Through a careful historically grounded and original investigation incorporating extensive primary research in late Enlightenment natural philosophy and eighteenth century medical practices the study sheds light on these nodal points in Kleist s work contending that these structures of passivity are so pervasive and so systematic in his work that they can justifiably and profitably be viewed as constituting a kind of poetics BOOK JACKET

Orientation in European Romanticism Paul Hamilton,2022-10-20 Exploring the experiments in individual and national self consciousness conducted during the Romantic period this essential comparative study of European literature philosophy and politics makes original and often surprising connections and contrasts to reveal how personal and social identities were re orientated and disorientated from the French Revolution onwards Reviving a contested moment in the history of aesthetic theory this study shows how the growing awareness of irresolution in Kant s third Kritik allowed Romantic writers to put the aesthetic to radical uses not envisaged by its parent philosophy It also recounts how they would go on to force philosophy to revise received notions of authority empowering women and subordinated ethnic groups to re orientate existing hierarchies The sheer range and variety of writers covered is testament both to the breadth of writing that Kant s philosophy so rashly legitimated and to the wider importance of philosophy to the understanding of Romantic literature Between Quran and Kafka Navid Kermani,2016-09-26 What connects Shiite passion plays with Brechts drama Which of Goethes poems were inspired by the Quran How can Ibn Arabis theology of sighs explain the plays of Heinrich von Kleist And why did the Persian author Sadeq Hedayat identify with the Prague Jew Franz Kafka One who knows himself and others will here too understand

Orient and Occident are no longer separable in this new book the critically acclaimed author and scholar Navid Kermani takes Goethe at his word He reads the Quran as a poetic text opens Eastern literature to Western readers unveils the mystical dimension in the works of Goethe and Kleist and deciphers the political implications of theatre from Shakespeare to Lessing to Brecht Drawing striking comparisons between diverse literary traditions and cultures Kermani argues for a literary cosmopolitanism that is opposed to all those who would play religions and cultures against one another isolating them from one another by force Between Quran and Kafka concludes with Kermanis speech on receiving Germanys highest literary prize an impassioned plea for greater fraternity in the face of the tyranny and terrorism of Islamic State Kermanis personal assimilation of the classics gives his work that topical urgency that distinguishes universal literature when it speaks to our most intimate feelings For of course love too lies between Quran and Kafka
