Gedo, 1996 In this unique blending of clinical experience with in depth biographical study Gedo examines both the necessary traits that prepare a person for a creative career as well as the emotional vicissitudes of such a career the psychological issues talented persons must struggle with in order to be creative He then goes further to discuss crucial developmental experiences that may result in a creative personality childhood experiences the strong possibly negative effect of a possession of talent on personality and the influence of opportunities provided by a creator s environment Gedo also details attributes required of the successful artist the possible need to separate creativity from psychosis and the evolution of psychoanalytic views on creativity **Art and Identity in Spain, 1833-1956** Claudia Hopkins, 2024-08-08 Richly illustrated this is the first study in English to explore the longevity of Orientalist art in Spain over a period of 120 years It highlights how artists in Spain shaped perceptions of Al Andalus Iberia under Islam 711 1492 and northern Morocco from Spain s liberal revolution of the 1830s to the end of the Protectorate of Morocco in 1956 Combining art history with a cultural studies approach and using exemplary case studies Hopkins foregrounds the diverse issues that underpin Orientalist expression reflections on history and the nation cultural nationalism gender and sexuality aesthetics and art commerce colonialism and racial thinking In the process the book challenges over familiar understandings of Western Orientalism Beyond Fortuny and Sorolla many unfamiliar artists and exhibitions are introduced amongst them Villaamil whose nostalgic landscapes evoked the loss of Andalusian culture B cquer who celebrated Spanish Moroccan peace making through the lens of Velázquez the Symbolist Rusiñol whose images of the Alhambra are infused with melancholy Morcillo whose extraordinary camp images opened a new space for male subjectivity Tapir and Bertuchi who dedicated their lives to Morocco and the Moroccan Sarghini who participated in the state funded Painters of Africa exhibitions in Franco s Madrid an annual exhibition that served the colonial concept of a Hispano Moroccan brotherhood under the dictatorship This book traces the shifting impulses and meanings of Orientalist expression in Spain It makes an original intervention in the field of Spanish art studies and contributes new material to the ongoing debates about Western Orientalism *Art in Theory* Paul Wood, Leon Wainwright, Charles Harrison, 2020-12-11 A ground

breaking new anthology in the Art in Theory series offering an examination of the changing relationships between the West and the wider world in the field of art and material culture Art in Theory The West in the World is a ground breaking anthology that comprehensively examines the relationship of Western art to the art and material culture of the wider world Editors Paul Wood and Leon Wainwright have included 370 texts some of which appear in English for the first time The anthologized texts are presented in eight chronological parts which are then subdivided into key themes appropriate to each historical era The majority of the texts are representations of changing ideas about the cultures of the world by European artists and intellectuals but increasingly as the modern period develops and especially as colonialism is challenged a variety of dissenting voices begin to claim their space and a counter narrative to western hegemony develops Over half the book is devoted to 20th and 21st century materials though the book s unique selling point is the way it relates the modern globalization of art to much longer cultural histories As well as the anthologized material Art in Theory The West in the World contains A general introduction discussing the scope of the collection Introductory essays to each of the eight parts outlining the main themes in their historical contexts Individual introductions to each text explaining how they relate to the wider theoretical and political currents of their time Intended for a wide audience the book is essential reading for students on courses in art and art history It will also be useful to specialists in the field of art history and readers with a general interest in the culture and politics of the modern world Library of Congress Catalogs Library of Congress,1976 Six Encounters with Lincoln Elizabeth Brown Pryor,2018-02-06 Winner of the Barondess Lincoln Award from The Civil War Round Table of New York Fascinating reading this book eerily reflects some of today s key issues The New York Times Book Review From an award winning historian an engrossing look at how Abraham Lincoln grappled with the challenges of leadership in an unruly democracy An awkward first meeting with U S Army officers on the eve of the Civil War A conversation on the White House portico with a young cavalry sergeant who was a fiercely dedicated abolitionist A tense exchange on a navy ship with a Confederate editor and businessman In this eye opening book Elizabeth Brown Pryor examines six intriguing mostly unknown encounters that Abraham Lincoln had with his constituents Taken together they reveal his character and opinions in unexpected ways illustrating his difficulties in managing a republic and creating a presidency Pryor probes both the political demons that Lincoln battled in his ambitious exercise of power and the demons that arose from the very nature of democracy itself the clamorous diversity of the populace with its outspoken demands She explores the trouble Lincoln sometimes had in communicating and in juggling the multiple concerns that make up being a political leader how conflicted he was over the problem of emancipation and the misperceptions Lincoln and the South held about each other Pryor also provides a fascinating discussion of Lincoln s fondness for storytelling and how he used his skills as a raconteur to enhance both his personal and political power Based on scrupulous research that draws on hundreds of eyewitness letters diaries and newspaper excerpts Six Encounters with Lincoln offers a fresh portrait of Lincoln as the

beleaguered politician who was not especially popular with the people he needed to govern with and who had to deal with the many critics naysayers and dilemmas he faced without always knowing the right answer What it shows most clearly is that greatness was not simply laid on Lincoln's shoulders like a mantle but was won in fits and starts

The Gates of Hell Arline Boucher Tehan, 2010-10-13 The Gates of Hell Rodin's Passion in Stone is not just another biography of Rodin There are many excellent ones already Rather it is an attempt to understand the sculptor after immersion in his works by listening to his own words and those spoken about him For Rodin was more than a sculptor of genius He had the imagination and the courage to search for the truth not only with his artist's hands but with the penetrating gaze and mastery of the word that define the writer His book Les Cathedrales de France and his hundreds of letters offer a new close up of the artist both visual and verbal His musings on art and on life and his contemporaries' views of him form a biographer's trove This rich assemblage of words like a hoard of tiny fragments of stone and glass when pieced together form a mosaic likeness of an artist who was himself a story teller in stone

Image of the Sea Howard F. Isham, 2004 This book explores the unprecedented surge or oceanic feeling in the aesthetic expression of the romantic century As secular thought began to displace the certainties of a sacral universe the oceans that give life to our planet offered a symbol of eternity rooted in the experience of nature rather than Biblical tradition Images of the sea permeated the minds of the early Romantics became a significant ingredient of romantic expression and continued to emerge in the language literature art and

music of the nineteenth century These pages document the evidence for this oceanic consciousness in some of the most creative minds of that century
