Edward Wang, Okamoto Michihiro, Longguo Li, 2022-02-21 This volume provides a unique and critical perspective on how Chinese Japanese and Korean scholars engage and critique the West in their historical thinking It showcases the dialogue between Asian experts and their Euro American counterparts and offers valuable insights on how to challenge and overcome Eurocentrism in historical writing Lykophron's Alexandra, Rome, and the Hellenistic World Simon Hornblower, 2018-05-25 This volume takes as its subject one of the most important Greek poems of the Hellenistic period the Alexandra attributed to Lykophron probably written in about 190 BC At 1474 lines and with a riddling narrative and a preponderance of unusual vocabulary it is a notoriously challenging prospect for scholars but it also sheds crucial light on Greek religion in particular the role of women and on foundation myths and myths of colonial identity Most of the poem purports to be a prophecy by the Trojan princess Cassandra who foretells the conflicts between Europe and Asia from the Trojan Wars to the establishment of Roman ascendancy over the Greek world in the poet's own time The central section narrates in the future tense the dispersal of returning Greek heroes throughout the Mediterranean zone and their founding of new cities This section culminates in the Italian wanderings and foundational activity of the Trojan refugee Aeneas Cassandra's own kinsman Following Simon Hornblower's detailed full length commentary on the Alexandra OUP 2015 paperback 2017 this monograph asserts the poem's importance as not only a strongly political work but also as a historical document of interest to cultural and religious historians and students of myths of identity Divided into two Parts the first explores

Lykophron's geopolitical world paying special attention to south Italy perhaps the bilingual poet's own area of origin Sicily and Rhodes it suggests that the recent hostile presence of Hannibal in south Italy surfaces as a frequent yet indirectly expressed concern of the poem The thematic second Part investigates the Alexandra's relation to the Sibylline Oracles and to other apocalyptic literature of the period and argues for its cultural and religious topicality The Conclusion puts the case for the 190s BC as a turning point in Roman history and contends that Lykophron demonstrates a veiled awareness of this especially of certain peculiar features of Roman colonizing policy in that decade *Athenian Empire* Polly Low, 2008-04-07

In the fifth century BC the Athenian Empire dominated the politics and culture of the Mediterranean world This book offers a comprehensive analysis of the history and significance of the Athenian Empire It starts by exploring possible answers to the crucial questions of the origins and growth of the empire Subsequent sections deal with the institutions and regulations of empire and the mechanisms by which it was controlled the costs and benefits of imperialism for both rulers and ruled and the ideological cultural and artistic aspects of Athenian power The articles collected here engage with the full range of evidence available literary epigraphic archaeological and art historical and offer a compelling demonstration of the range of approaches and conclusions for which that evidence allows *The Economy of Classical Athens* Emmanouil M. L. Economou, 2023-10-06
