Blackwater Pond Mary Oliver, 2006-04-01 One of the astonishing aspects of Oliver's work is the consistency of tone over this long period. What changes is an increased focus on nature and an increased precision with language that has made her one of our very best poets. Stephen Dobyns, New York Times Book Review. Mary Oliver has published fifteen volumes of poetry and five books of prose in the span of four decades but she rarely performs her poetry in live readings. Now with the arrival of At Blackwater Pond Mary Oliver has given her audience what they've longed to hear: the poet's voice reading her own work. In this beautifully produced compact disc Mary Oliver has recorded forty of her favorite poems nearly spanning the length of her career from Dream Work through her newest volume New and Selected Poems Volume Two. The package is shrink wrapped so that the elegant clothbound audiobook can take its place on the poetry shelf. It also includes a fifteen page booklet with an original essay, Performance Note, photos of the author at Blackwater Pond and a full listing of the poems and their sources.

The Book of Samuel Mark Rudman, 2009-03-21 Crisis, breakdown, rejuvenation: this is the territory of poetry that Rudman takes readers into with this set of essays. Constructed as a series of character studies, the essays are rooted in autobiographical material with biographical counterpoints tying the poets distinctly to places. Even as they are placed, however, they are displaced. Rudman's subjects, from D. H. Lawrence to Czesław Miłosz to T. S. Eliot, are almost all exiles, either geographically or within themselves. This exile spins anger into energy, transmuting emotion into imagination the same way that Passaic Falls, known to William Carlos Williams, turns water into power. The mosaic style of the essays touches on nerve after nerve, avoiding the snags of academic jargon to

ease towards an illuminating truth about the artists shifting work and worlds Some of the Samuels Beckett and Fuller were able to navigate these shifts while others Coleridge and Johnson are shown to be less able to transmute their energy into motion *The New Cambridge Bibliography of English Literature: Volume 4, 1900-1950* George Watson, I.
