Chinese church and therefore Chinese theology has been divided in the People's Republic of China into registered and unregistered churches and that while the state approved church offers theologies that align with the nation's socialist values the unregistered or house churches have tended toward an evangelical theology that is now diverging with the resurgence of denominations in China What is less well known is that there has been a vibrant third field of Chinese theology Sino-Christian theology a contested academic discourse that makes no claims to be a confessional theology This theology fostered by academics in secular Chinese universities developed in the 1990s and has grown and diversified with the increasing number of scholars researching Christianity in China This volume offers essays on the message of Chinese Christian art for example alongside textual and Christological studies The phenomenon of Sino-Christian theology along with debates on its right to exist if not authored by professing Christians overlaps with broader debates on the nature of a Chinese theology and its unifying features The second part of the volume draws together nine essays on theological concerns in the Chinese diaspora These range from the nature of diasporic experience itself to studies of individual writers and from fundamentalist

This is the definitive book on the legal and fiscal framework for civil society organizations CSOs in China from earliest times to the present day Civil Society in China traces the ways in which laws and regulations have shaped civil society over the 5 000 years of China s history and looks at ways in which social and economic history have affected the legal changes that have occurred over the millennia This book provides an historical and current analysis of the legal framework for civil society and citizen participation in China focusing not merely on legal analysis but also on the ways in which the legal framework influenced and was influenced in turn by social and economic developments The principal emphasis is on ways in which the Chinese people as opposed to high ranking officials or cadres have been able to play a part in the social and economic development of China through the associations in which they participate Civil Society in China sums up this rather complex journey through Chinese legal social and political history by assessing the ways in which social economic and legal system reforms in today s China are bound to have an impact on civil society The changes that have occurred in China s civil society since the late 1980 s and most especially since the late 1990 s are nothing short of remarkable This volume is an essential guide for lawyers and scholars seeking an in depth understanding of social life in China written by one its leading experts

A Post-Colonial Enquiry into Europe's Debt and Migration Crisis Ranabir Samaddar,2016-10-10 This important and topical volume is composed around the debt and migration crisis in Europe in 2015 known as the Greece crisis and written almost concurrently as the two crises developed in quick succession The central argument here is that Europe s present crisis suggests a post colonial bind or to put in stronger terms a post colonial destiny of Europe The European situation bears remarkable similarity with the post colonial condition elsewhere in the world and suggests a strong bond between Europe s present situation and the post colonial bind in which much of the world finds itself The purpose of this volume is to examine in the light of 21st century capitalism notions such as debt crisis rupture dialogue mobilization neo liberalism war and migration and the old never to be settled question of ideology The volume ends with reflections on Europe s migration crisis

and reinforces the point that a critical post colonial sense of history accumulation globalization and the resilience of the nation form will help us reflect on the present European crisis and draw appropriate lessons
