modern insurgency The labeling of an insurgent enemy as using Maoist Warfare has been a common phenomenon since Mao's victory over the Guomindang in 1949 from Malaya and Vietnam during the Cold War to Afghanistan and Syria today Yet this practice is heavily flawed This book argues that Mao did not invent a new breed of insurgency failed to produce a coherent vision of how insurgencies should be fought and was not influential in his impact upon subsequent insurgencies Consequently Mao's writings cannot be used to generate meaningful insights for understanding those insurgencies that came after him This means that scholars and policymakers should stop using Mao as a tool for understanding insurgencies and as a straw man against whom to target counterinsurgency strategies **Communist China Digest**, 1966 **Chinese Animated**

### **The State, Identity, and the National Question in China and Japan**

Germaine A. Hoston, 2021-02-09 The first decades of the twentieth century witnessed an explosion of nationalist sentiment in East Asia as in Europe This comprehensive work explores how radical Chinese and Japanese thinkers committed to social change in this turbulent era addressed issues concerning national identity social revolution and the role of the national state in achieving socio economic development Focusing on the adaptation of anarchism and then Marxism Leninism to non European contexts Germaine Hoston shows how Chinese and Japanese theorists attempted to reconcile a relatively new appreciation for the nation state with their allegiance to a vision of internationalist socialist revolution culminating in stateless socialism Given the influence of Western experience on Marxism Chinese and Japanese theorists found the Marxian national question to be not merely one of whether the working man has no country but rather the much more fundamental issue of the relative value of Eastern and Western cultures Marxism argues Hoston thus placed native Marxists in tension with their own heritage and national identity The author traces efforts to resolve this tension throughout the first half of the twentieth century and concludes by examining how the tension persists as Chinese and Japanese dissidents seek identity affirming modernity in accordance with the Western democratic model **China's Road to Development** N.

Ong Weichong, 2014-10-03 The Malayan Communist Party's MCP decisive defeat in 1960 led many academics and Counterinsurgency COIN experts to overlook the resurrection of its armed struggle in 1968. Most scholars continue to regard the so-called Second Emergency in Malaysia 1968-1989 as a non-event and most of the recently published work on the MCP tends to focus on the earlier Malayan Emergency 1948-1960. This book looks at the Second Emergency through recently released archival material from the National Archives in London, the National Australian Archives and the Australian War Memorial as well as interviews with military and diplomatic officers from the UK and Thailand. It presents the first serious strategic and operational study of the Second Emergency and analyses three areas of historical significance: the CPM's strategy for armed struggle in the Second Emergency; the actual effectiveness of the CPM's subversive propaganda on its target population; and most importantly, the counterinsurgency COIN response and strategy of the Malaysian state and to a lesser extent, the counter-subversion strategy of Singapore in the post-colonial era. The Chinese Strategic Mind Hong Liu, 2024-06-05 In this thoroughly revised edition of *The Chinese Strategic Mind*, Hong Liu underscores how the distinctive foundations of Chinese and Western thought lead to divergent focuses, objectives and approaches. He aptly introduces a framework for comprehending the Chinese strategic mindset, exploring its origins, evolution and implementation.
