City Council, 1910 Hodges' Scout Len Travers, 2015-12 Many Americans probably know the French and Indian War by way of the film adaptation 1992 of Cooper's Last of the Mohicans In it Michael Mann directs the young Daniel Day Lewis and in parts succeeds in capturing the strange solitude of warring in endless forest and the sudden ferocity of battle during this first truly world war Writing an unusual work of art and history Len Travers here excavates the story of a colonial American lost patrol during that war turning musty documents into a gripping tale that could reach well beyond an academic readership Fifty provincial soldiers left the fringes of settlement in fall 1756 aiming to safeguard the upper reaches of New York Within days near Lake George native warriors allies of the French jumped them Surprised and overwhelmed the colonists suffered death or capture The fifteen survivors lived for years as prisoners of their native captors Eventually a few of them managed to work their back to their villages and families living to tell their stories Travers's remarkable research brings human experiences alive giving us a rare full color view of the French and Indian War These personal accounts throw light on the motives means and methods of both colonists and Natives at war in the American wilderness They also speak to the nature of war itself In Public Houses David W. Conroy, 2018-08-25 In this study of the role of taverns in the development of Massachusetts society David Conroy brings into focus a vital and controversial but little understood facet of public life during the colonial era Concentrating on the Boston area he reveals a popular culture at odds with Puritan social ideals one that contributed to the transformation of Massachusetts into a republican society Public houses were an integral part of colonial community life and hosted a variety of official functions including meetings of the courts They also filled a special economic niche for women and the poor many of whom turned to tavern keeping to earn a living But taverns were also the subject of much critical commentary by the clergy and increasingly restrictive regulations Conroy argues that these regulations were not only aimed at curbing the spiritual corruption associated with public houses but also at restricting the popular culture that had begun to undermine the colony's social and political hierarchy Specifically Conroy illuminates the role played by public houses as a forum for the development of a vocal republican citizenry and he highlights the connections between the vibrant oral culture of taverns and the expanding print culture of newspapers and political pamphlets in the eighteenth century **New England Life in the Eighteenth Century** Clifford Kenyon Shipton, 1995 In 1859 John Sibley began a series of biographical sketches of all Harvard graduates at his death in 1885 he had published three volumes covering the Classes from 1642 1689 In 1930 the work was resumed by Shipton who carried the series through the Class of 1750 This book offers a selection from the nine volumes of Shipton's biographies The New England
