

What Is Self-Destructive Behavior?

Self-destructive behavior is when you do something that can cause yourself emotional or physical harm. These behaviors can come in many forms, such as binge drinking, becoming overly self-critical, and self-harm. There are many different types of self-destructive tendencies, and they can be repeating patterns of behavior or manifest independently. Sometimes there are conscious risk evaluations made before engaging in these behaviors. However, the risks/consequences are often unknown or unanticipated by the individual.

Treating Self-Destructive Behaviors in Trauma Survivors Lisa Ferentz, 2012-08-21 This is a book for clinicians who specialize in helping trauma survivors and through the course of treatment find themselves unexpectedly confronted with client disclosures of self destructive behaviors including self mutilation and other manifestations of deliberately hurting the body such as bingeing purging starving substance abuse and other addictive behaviors Going Mad to Stay Sane Andy White, 2015-07-14 Self destructive behaviour has traditionally been viewed in an entirely negative light As a result attempts are constantly made to fix it without asking what its actual purpose may be Going Mad to Stay Sane invites us to rethink our attitudes It sets out to understand the soul's purpose in visiting violence upon itself substance abuse compulsive sexuality obsessive dieting or the grandiose hauteur of a superiority complex all come under scrutiny In analysing its roots and its manifestations the author asks us to consider the possibility that the impulse to visit violence upon oneself may be the only means available for the soul under siege to preserve itself and state its distress Self destructiveness is a notoriously difficult phenomenon to bring to healing not least because the various schools of psychology have such partisan attitudes towards it approaching it from within the narrow parameters of their chosen theories This book rather than arguing for one perspective or another finds a place for them all within the compass of a mythical tale the story of King Midas who wished for everything he touched to be turned to gold Through the tale of King Midas Andy White shows how our self destructive urges can also point the way to our salvation Andy White was born and brought up in Africa He trained in London practised as a psychotherapist for many years and now lives in North Devon as a writer and artist [www andywhiteartist com](http://www.andywhiteartist.com) Coming soon Path to Wholeness a guide to the individuation process A Tao of the Soul says Satish Kumar *Treating Self-destructive Behaviors in Trauma Survivors* Lisa Ferentz, 2012 This is a book for clinicians who specialize in helping trauma survivors and through the course of treatment find themselves unexpectedly confronted with client disclosures of self destructive behaviors including self mutilation and other manifestations of deliberately hurting the body such as bingeing purging starving substance abuse and other addictive behaviors Arguing that standard safety contracts are not effective the book introduces viable treatment alternatives assessment tools and new ways of understanding self destructive behavior using a strengths based approach that distinguishes between the experimental Non Suicidal Self Injury NSSI that some teenagers occasionally engage in and the self destructive behaviors that are repetitive and chronic It also explores a cycle of behavior and uses case studies to show clinicians how to personalize the cycle with clients and form a template for treatment In its final sections the book focuses on countertransference responses and the different ways in which therapists can work with self destructive behaviors and avoid vicarious traumatization by adopting tools and strategies for self care **Letting Go of Self-Destructive Behaviors** Lisa Ferentz, 2014-08-27 Letting Go of Self Destructive Behaviors offers inspiring hopeful creative resources for the millions of male and female adolescents and adults who struggle with eating disorders addictions

Faux, 1972 *Psychodynamic Treatment of Anorexia Nervosa and Bulimia* Craig Johnson, 1991-01-01 Recent research has indicated that approximately one third of the patients who present with disordered eating also have significant personality disorders or Axis II co morbidity These patients are difficult to treat and usually require longer term informed individual psychotherapy This important volume addresses the challenges of treating these patients with chapters written by established psychodynamically oriented clinicians who have been doing longer term treatment Editor Craig Johnson has fashioned a valuable contribution to the continuing search for effective treatment interventions for this group of patients This volume is aimed at clinicians and researchers working in the field of eating disorders *Self destructive behavior* , 1972 **Traumatic Stress** Bessel A. Van der Kolk, Alexander C. McFarlane, Lars Weis?th, 1996-05-03 This book should be of value to all mental health professionals researchers and students interested in traumatic stress as well as legal professionals dealing with PTSD related issues Suicide as Psychache Edwin S. Shneidman, 1993 A collection of previously published articles discussing the definition of suicide analyses of its occurrence and possible therapeutic responses The Many Faces of Suicide Norman L. Farberow, 1980 Basic Concepts of Psychiatric-mental Health Nursing Louise Rebraca Shives, 2007 This seventh edition includes new chapters and maintains popular features from previous editions such as self awareness prompts while adding research boxes and student worksheets at the end of each chapter Suicide Jason Manning, 2020-05-28 The conventional approach to suicide is psychiatric ask the average person why people kill themselves and they will likely cite depression But this approach fails to recognize suicide s social causes People kill themselves because of breakups and divorces because of lost jobs and ruined finances because of

public humiliations and the threat of arrest While some psychological approaches address external stressors this comprehensive study is the first to systematically examine suicide as a social behavior with social catalysts Drawing on Donald Black s theories of conflict management and pure sociology Suicide presents a new theory of the social conditions that compel an aggrieved person to turn to self destruction Interpersonal conflict plays a central but underappreciated role in the incidence of suicide Examining a wide range of cross cultural cases Jason Manning argues that suicide arises from increased inequality and decreasing intimacy and that conflicts are more likely to become suicidal when they occur in a context of social inferiority As suicide rates continue to rise around the world this timely new theory can help clinicians scholars and members of the general public to explain and predict patterns of self destructive behavior Pathways to Suicide Ronald W. Maris,1981-01-01 **Psychodynamic Concepts in General Psychiatry** Harvey J. Schwartz,Efrain Bleiberg,Sidney H. Weissman,1995 Psychodynamic Concepts in General Psychiatry brings together 37 nationally recognized psychodynamic psychiatrists who discuss in detail their understanding of how to work with specific types of patients Separate chapters on clinical syndromes including some of the most challenging that psychiatrists encounter for example in self destructive posttraumatic and abused patients provide both a historical review of dynamic perspectives and a detailed discussion of differential diagnosis and treatment selection for each disorder Extensive clinical examples illustrating the underlying psychodynamic conflicts of patients with these disorders are presented as well Also addressed in this volume are the psychological aspects of the settings in which therapy is practiced and the ways in which those settings affect both the psychiatrist and the patient The final section contains chapters on current topics of particular relevance the psychology of prescribing and taking medication the meaning and impact of interruptions in treatment and the provocative findings of new outcome research and cost offset studies The book closes with a recommended curriculum for training in psychodynamic psychiatry *The Clinical Guide to Child Psychiatry* David Shaffer,Anke A. Ehrhardt,Laurence L. Greenhill,1985

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club.
