**The Psychology Behind Wellness and Illness Why Do People Get Sick?** Dr. Talib Kafaji, 2020-09-08 There is an abundance of scientific research indicating that 85% of all diseases have an emotional component like feelings of anger apathy depression resentment which weaken the immune system and therefore damage our health On the other hand positive thoughts of love humor joy resiliency and compassion support good physical health Every thought whether positive or negative has physical consequences for better or worse on our health The wisdom in this regard states that illness is a conspiracy cooked up in the unconscious mind and manifested in our bodies It is no longer a question of staying healthy it is a question of finding a sickness you like to serve an internal unconscious purpose an illness manual if you will You may choose one that attacks the body part you are most uncomfortable with or don't like just to serve unconscious negative feelings
