## Self Love The Heart Of Healing:

**Self-love** Joseph Magno,2000 Self Love is an original and insightful study of a much maligned concept that may in fact hold the key to well being Author Joseph Magno explores the positive aspects of self love as well as the destructive consequences that can result when it is lacking Building on the perspective that human beings are inherently loving by nature Magno argues that self love is causally and reciprocally linked to selflessly loving others By contrast fear selfishness suffering and even the abuse of others may arise from a dearth of self love Magno further maintains that self love in the sense of self acceptance provides the essential link between physical and psychological health Putting theory into practice Magno also demonstrates how the principles he describes may be applied to recover self love and ultimately restore wholeness and well being Self Love offers a philosophy of holistic health that will be an important resource for psychologists social workers health care professionals or anyone seeking physical psychological or spiritual renewal **Self-Love**
