**African Exodus** Chris Stringer, Robin McKie, 2015-07-14 A Choice Outstanding Academic Book A Library Journal Best Sci Tech Book A New York Times Notable Book Once in a generation a book such as African Exodus emerges to transform the way we see ourselves. This landmark book which argues that our genes betray the secret of a single racial stock shared by all of modern humanity has set off one of the most bitter debates in contemporary science. We emerged out of Africa the authors contend less than 100,000 years ago and replaced all other human populations. Employing persuasive fossil and genetic evidence the proof is in the blood not just the bones and an exceptionally readable style Stringer and McKie challenge long held beliefs that suggest we evolved separately as different races with genetic roots reaching back two million years. **Books do**

Eagle, 2017-03-27 This book is the first edited collection to explore the role of philosophy in the works of Cormac McCarthy significantly expanding the scope of philosophical inquiry into McCarthy's writings. There is a strong and growing interest amongst philosophers in the relevance of McCarthy's writings to key debates in contemporary philosophy for example debates on trauma and violence on the relationship between language and world and the place of the subject within history temporality and borders. To this end the contributors to this collection focus on how McCarthy's writings speak to various philosophical themes including violence war nature history materiality and the environment. Emphasizing the form of McCarthy's texts the chapters attend to the myriad ways in which his language effects a philosophy of its own beyond the

History in Black Yaacov Shavit, 2013-11-12 The development of Afrocentric historical writing is explored in this study which traces this recording of history from the Hellenistic Roman period to the 19th century Afrocentric writers are depicted as searching for the unique primary source of culture from one period to the next Such passing on of cultural traits from the ancient model from the classical period to the origin of culture in Egypt and Africa is shown as being a product purely of creative history

*Cruelty and Desire in the Modern Theater* Laurens De Vos, 2011-04-18 Departing from a refreshing look at the ideas of Antonin Artaud this book provides a thorough analysis of how both Sarah Kane and Samuel Beckett are indebted to his legacy In juxtaposing these playwrights De Vos minutely points out how both in their own way struggle with coming to terms with Artaud A key concept in Lacanian psychoanalytic theories desire lies at the root of the Theatre of Cruelty Kane and Beckett prove that desire and cruelty are inextricably linked to one another but that they appear in radically different disguises Relying on Kane and Beckett this book not only sheds a light on the precise intentions behind Artaud's project it also maps out the structural parallels and dichotomies between the Theatre of Cruelty and the literary genre of tragedy Immediately after the premiere of Sarah Kane's *Blasted* in 1995 some reviewers made a link with Antonin Artaud's Theatre of Cruelty These parallels however were solely based on the abundance of physical violence on stage In response to these assertions this book traces minutely Artaud's legacy for later generations Making use of Jacques Lacan's psychoanalytical ideas as a theoretical framework De Vos defines Artaud's project not so

much in terms of blood and goriness but rather as a theater of Passion revolving around notions as desire love and the subjectile a concept that was drawn attention to by Derrida In addition the idea of the scapegoat delineated by Ren Girard provides a leg up to clarify the intrinsic parallels as well as divergences between the Theatre of Cruelty and tragedy while also Lacan s analysis of Antigone is being looked at Phaedra s Love Cleansed and 4 48 Psychosis are extensively dealt with in this study and point out the development Kane went through in her short but at the same time long trajectory The third part on Beckett focuses primarily on Krapp s Last Tape and Not I and equally so calls in Lacan to understand self alienation and self conceptua

**Models of the Self** Shaun Gallagher,2013-10-22 A long history of inquiry about human nature and the self stretches from the ancient tradition of Socratic self knowledge in the context of ethical life to contemporary discussions of brain function in cognitive science It begins with a conflict among the ancients On one view which comes to be represented most clearly by Aristotle the issue is settled in terms of a composite and very complex human nature Who I am is closely tied to my embodied existence The other view found as early as the Pythagoreans and developed in the writings of Plato Augustine and Descartes held that genuine humanness is not the result of an integration of lower functions but a purification of those functions in favour of a liberating spirituality The animal elements are excluded from the human essence The modern debate on the problem of the self although owing much to the insights of Locke and Hume can still be situated within the context of the two schools of ancient thought and this has led many to despair over the lack of apparent progress in this problem Today of course we often tend to look to science rather than philosophy to develop our understanding of a wide range of fundamental issues To what extent is the problem of the self a scientific issue Can insights from the study of neuropsychology and cognitive development in infancy provide a new perspective Can the study of schizophrenia and dissociative identity disorders tell us anything about the nature of human self consciousness Many would answer yes to the above questions but then is it not also the case that the study of exceptional self actualised human experience is equally relevant And can the phenomenological tradition dedicated to the systematic study of human experience and contemporary analytic approaches in philosophy help us out of some of the impasses that have bedevilled the empiricist tradition

**MODELS OF THE SELF** includes all these perspectives in an attempt to cast light on one of the most intractable problems in science and the humanities

**An Undoing** Matthew Hansen,2019-08-08 We ve all been through events in which we feel at least in the moment that there is no coming back Maybe it was a severe break up a fall from grace as a leader an occupational dream shattered a psychological and emotional breakdown or as in many western films you are a leader who has come to the middle of your life the hopes and expectations you held have crashed around you and all of a sudden you feel lost Our brains often translate this as some sort of trauma On paper my life looked perfect married four kids house in the downtown area of one of the best cities in the United States and a vocation that many spend much time and money trying to gain However at some

point I lost myself I got swallowed up in the hype and movement and forgot what it was all about I want to invite you into my story and take you on a journey of resilience the same journey that helped me come back better than before the journey that will help you begin to recreate your life

**I See Men as Trees, Walking** Bryan M. Christman, 2024-10-17 He took the blind man by the hand and when he had spit on his eyes and laid his hands on him he asked him Do you see anything He said I see men but they look like trees walking Then Jesus laid his hands on his eyes again and he saw everything clearly Mark's account of a blind man needing two healing touches from Jesus graphically depicts the stubborn blindness of his disciples Peter epitomized this blindness when he was tempted by the popular view that Jesus was the Rome conquering savior of Israel rather than the suffering Servant of God Also the disciples didn't understand that Jesus miraculously fed the famished crowds with a few loaves and fish to meet immediate need and provide leftover fragments of food for future need Salvation was pictured for all time Essentially Mark's Gospel gathered leftovers historical fragments of Jesus' life to convey God's salvation across history to those Kierkegaard called the follower at second hand Like Peter disciples and even the crowds are tempted to false salvations where self is lost But ironically persons only become a self by taking up their own cross enabled by Jesus' second touch
