## **Self Overcoming Of Nihilism:**

**The Self-Overcoming of Nihilism** Keiji Nishitani, 1990-10-02 The first English translation by Graham Parker with Setsuko Aihara of a forty year old Japanese classic Nishitani's treatment of the problem of nihilism with particular reference to Nietzsche's philosophical ideas and from a perspective influenced by Buddhist thought Paper edition unseen 14 95 Annotation copyrighted by Book News Inc Portland OR

**Nietzsche and Zen** André van der Braak, 2011-08-16 In Nietzsche and Zen Self Overcoming Without a Self Andr van der Braak engages Nietzsche in a dialogue with four representatives of the Buddhist Zen tradition Nagarjuna c 150 250 Linji d 860 Dogen 1200 1253 and Nishitani 1900 1990 In doing so he reveals Nietzsche's thought as a philosophy of continuous self overcoming in which even the notion of self has been overcome Van der Braak begins by analyzing Nietzsche's relationship to Buddhism and status as a transcultural thinker recalling research on Nietzsche and Zen to date and setting out the basic argument of the study He continues by examining the practices of self overcoming in Nietzsche and Zen comparing Nietzsche's radical skepticism with that of Nagarjuna and comparing Nietzsche's approach to truth to Linji's Nietzsche's methods of self overcoming are compared to Dogen's zazen or sitting meditation practice and Dogen's notion of forgetting the self These comparisons and others build van der Braak's case for a criticism of Nietzsche informed by the ideas of Zen Buddhism and a criticism of Zen Buddhism seen through the Western lens of Nietzsche coalescing into one world philosophy This treatment focusing on one of the most fruitful areas of research within contemporary comparative and intercultural philosophy will be useful to Nietzsche scholars continental philosophers and comparative philosophers

**Metaphysics and Mystery** Thomas Dean, 2019-07-15 Metaphysics and Mystery The Why Question East and West is a critical analysis comparison and evaluation of philosophical answers Western and Asian to the question Why is there something rather than nothing The question first posed by the 17th C philosopher Leibniz was reintroduced in the 20th C by Heidegger Volume One begins with an introduction that lays out the issues raised by the Why question It then analyzes contemporary Western philosophers who provide either cosmological metaphysical or existential ontological answers to the question It also considers transitional answers that bridge the two Volume Two examines Asian philosophers classical and contemporary who though rejecting the assumptions behind the question put forward nondualist answers that have a direct bearing on it It concludes with an argument for a revised understanding of the Why question that draws on the strengths and weaknesses of these Western and Asian philosophies and explores implications for ethics and religious thought

Hegel's Foundation Free Metaphysics Gregory S. Moss, 2020-05-20 Winner of the Hegel Prize 2022 Contemporary philosophical discourse has deeply problematized the possibility of absolute existence Hegel's Foundation Free Metaphysics demonstrates that by reading Hegel's Doctrine of the Concept in his Science of Logic as a form of Absolute Dialecticism Hegel's logic of the concept can account for the possibility of absolute existence Through a close examination of Hegel's concept of self referential universality in his Science of Logic Moss demonstrates how Hegel's concept of singularity

is designed to solve a host of metaphysical and epistemic paradoxes central to this problematic He illustrates how Hegel's revolutionary account of universality particularity and singularity offers solutions to six problems that have plagued the history of Western philosophy the problem of nihilism the problem of instantiation the problem of the missing difference the problem of absolute empiricism the problem of onto theology and the third man regress Moss shows that Hegel's affirmation and development of a revised ontological argument for God's existence is designed to establish the necessity of absolute existence By adopting a metaphysical reading of Richard Dien Winfield's foundation free epistemology Moss critically engages dominant readings and contemporary debates in Hegel scholarship Hegel's Foundation Free Metaphysics will appeal to scholars interested in Hegel German Idealism 19th and 20th century European philosophy metaphysics epistemology and contemporary European thought Nietzsche and Phenomenology Élodie Boulil,Christine Daigle,2013-06-19 What are the challenges that Nietzsche's philosophy poses for contemporary phenomenology Elodie Boulil Christine Daigle and an international group of scholars take Nietzsche in new directions and shed light on the sources of phenomenological method in Nietzsche echoes and influences of Nietzsche within modern phenomenology and connections between Nietzsche phenomenology and ethics Nietzsche and Phenomenology offers a historical and systematic reconsideration of the scope of Nietzsche's thought The Cambridge Companion to Nietzsche Bernd Magnus,Kathleen Higgins,1996-01-26 The significance of Friedrich Nietzsche for twentieth century culture is now no longer a matter of dispute He was quite simply one of the most influential of modern thinkers The opening essay of this 1996 Companion provides a chronologically organised introduction to and summary of Nietzsche's published works while also providing an overview of their basic themes and concerns It is followed by three essays on the appropriation and misappropriation of his writings and a group of essays exploring the nature of Nietzsche's philosophy and its relation to the modern and post modern world The final contributions consider Nietzsche's influence on the twentieth century in Europe the USA and Asia New readers and non specialists will find this the most convenient accessible guide to Nietzsche currently available Advanced students and specialists will find a conspectus of recent developments in the interpretation of Nietzsche **Rude Awakenings** James W. Heisig,John C. Maraldo,1995-06-01 Can Zen tell us whether particular wars are right or wrong What role did D T Suzuki and other Zen figures play in the Japanese nationalism that fueled World War II What are we to make of nationalistic elements in the thought of Nishida Kitaro Tanabe Hajime Nishitani Keiji and other philosophers of the Kyoto School What connection was there between the Japanese project of overcoming the modernity of the West and the militarism of its 15 year war in Asia In a collection of carefully documented essays 15 Japanese and Western scholars take up these and other questions about the political responsibility of Japanese Buddhist intellectuals This well indexed and meticulously edited volume offers a variety of critical perspectives and a wealth of information for those interested in prewar and wartime history Zen Japanese philosophy and the problem of nationalism today *Heidegger's Nietzsche* José Daniel Parra,2019-04-29 Heidegger's Nietzsche

European Modernity and the Philosophy of the Future offers a study of two key figures in the history of philosophy By way of a textual interpretation of Martin Heidegger s reading of Friedrich Nietzsche it draws renewed attention to the question of ontology in the history of Western thought The discussion unfolds in the context of an epochal period of transition in European culture that in Heidegger s interpretation of Nietzsche is in the process of fulfillment The book examines the sources of this transformative event with special emphasis on the contrast between the modern predominance of Cartesian inter subjectivity and a manner of thought that dwells in the philosophical anthropology of classical Greek culture It partakes in the Platonic Aristotelian tradition of studying the life of the mind from architectonic perspectives highlighting the key comparative importance of philosophical vision in tandem with the voice of conscience In that spirit the book explores an encounter between Heidegger and Nietzsche at the interstice between hermeneutics and a therapeutic consideration of philosophy

Composing the Soul Graham Parkes,1994 A century and a half after his birth Nietzsche s importance and relevance as a thinker is greater than ever before and yet a major perspective on his life and work has been left untried the psychological approach Composing the Soul is the first study to pay sustained attention to Nietzsche as a psychologist and to examine the contours of his psychology in the context of his life and psychological makeup Featuring all new translations of quotations from Nietzsche s writings Composing the Soul reveals the profundity of Nietzsche s lifelong personal and intellectual struggles to come to grips with the soul Extremely well written this landmark work makes Nietzsche s life and ideas accessible to any reader interested in this much misunderstood thinker

Heidegger and the Will Bret W.

Davis,2007-04-11 The problem of the will has long been viewed as central to Heidegger s later thought Focusing on this problem this book aims to clarify key issues from the philosopher s later period and demonstrates how his so called turn is not a simple turnaround from voluntarism to passivism

Schelling Now Jason M. Wirth,2005 Previously considered a way station on the road to Hegel F W J von Schelling is today enjoying a renaissance among Continental philosophers and others These 14 essays bring Schelling in tune with such luminaries as Heidegger Derrida Bataille Foucault Deleuze Levinas and Irigaray and situate him squarely in the centre of current themes

**The Dao Companion to Japanese Buddhist**

**Philosophy** Gereon Kopf,2019-06-03 The volume introduces the central themes in and the main figures of Japanese Buddhist philosophy It will have two sections one that discusses general topics relevant to Japanese Buddhist philosophy and one that reads the work of the main Japanese Buddhist philosophers in the context of comparative philosophy It combines basic information with cutting edge scholarship considering recent publications in Japanese Chinese English and other European languages As such it will be an invaluable tool for professors teaching courses in Asian and global philosophy undergraduate and graduate students as well as the people generally interested in philosophy and or Buddhism

**Nietzsche's**

**Philosophy of the Eternal Recurrence of the Same** Karl Lowith,2023-12-22 This long overdue English translation of Karl L with s magisterial study is a major event in Nietzsche scholarship in the Anglo American intellectual world Its initial

publication was extraordinary in itself a dissident interpretation written by a Jew appearing in National Socialist Germany in 1935 Since then L with s book has continued to gain recognition as one of the key texts in the German Nietzsche reception as well as a remarkable effort to reclaim the philosopher s work from political misappropriation For L with the centerpiece of Nietzsche s thought is the doctrine of eternal recurrence a notion which L with unlike Heidegger deems incompatible with the will to power His careful examination of Nietzsche s cosmological theory of the infinite repetition of a finite number of states of the world suggests the paradoxical consequences this theory implies for human freedom How is it possible to will the eternal recurrence of each moment of one s life if both this decision and the states of affairs governed by it appear to be predestined L with s book one of the most important if seldom acknowledged sources for recent Anglophone Nietzsche studies remains a central text for all concerned with understanding the philosopher s work This long overdue English translation of Karl L with s magisterial study is a major event in Nietzsche scholarship in the Anglo American intellectual world Its initial publication was extraordinary in itself a dissident interpretation written by a Jew

*Japan in Traditional and Postmodern Perspectives* Charles Wei-hsun Fu, Steven Heine, Professor of Religious Studies and Director of Asian Studies Steven Heine, 1995-01-01 This book displays the uniqueness and creativity of Japan in terms of the interplay between traditional and postmodern perspectives It deals with the traditional elements in Japanese culture in the light of or in contrast to postmodernism

**Nietzsche and Buddhist Philosophy** Antoine Panaïoti, 2013 An exploration of the complex and interesting relations between Nietzsche s philosophical thought and the Buddhist philosophy which he admired and opposed The volume will appeal to students and scholars interested in Nietzsche s philosophy Buddhist thought and in the metaphysical existential and ethical issues that emerge with the demise of theism

**Japanese and Continental Philosophy** Bret W. Davis, Brian Schroeder, Jason M. Wirth, 2011-01-13 Recognizing the importance of the Kyoto School its influence on philosophy politics religion Asian studies this text seeks to initiate a conversation between Japanese Western philosophers

*Nietzsche, German Idealism and Its Critics* Katia Hay, Leonel R. dos Santos, 2015-10-16 Nietzsche is known as a severe critic of German Idealism but what exactly is the relation between his thought and theirs And how does Nietzsche s stance differ from the critique of idealism in Kierkegaard and Schopenhauer The papers from leading international specialists in German Idealism Schopenhauer Kierkegaard and Nietzsche address these questions The aim of the volume is to introduce novel ways of addressing the complex relations between Nietzsche and his immediate philosophical predecessors Schopenhauer Kierkegaard Hegel Schelling Fichte and Kant The focus is on the profound interconnections and affinities between their ways of thinking Each paper considers one particular aspect of Nietzsche s philosophy such as his notion of spirit law power will his physiology or his critique of morality in relation to the above mentioned philosophers This largely systematic approach reveals surprising affinities between Nietzsche and the German idealists despite their patent differences and generates new perspectives from which to understand and reinterpret Nietzsche s thought Contributors Maria J Branco

Harrow,2013-09-15 The Art of the Text contributes to the fast developing dialogue between textual studies and visual culture studies It focuses on the processes through which writers think and readers respond visually and in essays by researchers in literature screen and visual studies the volume explores the viscosity of the literary and non literary text with a sustained focus on French material of the later nineteenth and twentieth centuries Visuality is appraised here not as a state but as a set of processes of adaptation resistance negotiation and transformation By reading visually the contributors here reactivate the visual textual relations of canonical texts from Romanticism to Naturalism Surrealism to high Modernism from film to fan literature television to picture language      **Nietzsche and The Antichrist** Daniel Conway,2019-01-24 This collection both reflects and contributes to the recent surge of philosophical interest in The Antichrist and represents a major contribution to Nietzsche studies Nietzsche regarded The Antichrist along with Zarathustra as his most important work In it he outlined many epoch defining ideas including his dawning realisation of the death of God and the inception of a new post moral epoch in Western history He called the work a crisis without equal on earth the most profound collision of conscience a decision that was conjured up against everything that had been believed demanded hallowed One certainly need not share Nietzsche s estimation of his achievement in The Antichrist to conclude that there is something significant going on in this work Indeed even if Nietzsche overestimated its transformative power it would be valuable nonetheless to have a clearer sense of why he thought so highly of this particular book which is something of an outlier in his oeuvre Until now there has been no book that attempts to account with philosophical precision for the multiple themes addressed in this difficult and complex work

*Philosophers of Nothingness* James W. Heisig,2001-05-01 The past twenty years have seen the publication of numerous translations and commentaries on the principal philosophers of the Kyoto School but so far no general overview and evaluation of their thought has been available either in Japanese or in Western languages James Heisig a longstanding participant in these efforts has filled that gap with *Philosophers of Nothingness* In this extensive study the ideas of Nishida Kitaro Tanabe Hajime and Nishitani Keiji are presented both as a consistent school of thought in its own right and as a challenge to the Western philosophical tradition to open itself to the original contribution of Japan
