Russell Reising,1996 In this study of American cultural production from the colonial era to the present Russell Reising takes up the loose ends of popular American narratives to craft a new theory of narrative closure In the range of works examined here from Phillis Wheatley s poetry to Herman Melville s *Israel Potter* from Henry James s *The Jolly Corner* to the Disney Studio s *Dumbo* Reising finds endings that violate all existing theories of closure and narratives that expose the often unarticulated issues that inspired these texts Reising suggests that these non endings entirely refocus the narrative structures they appear to conclude accentuate the narrative stresses and ideological fissures that the texts seem to suppress and reveal shadow narratives that trail alongside the dominant story line He argues that unless the reader notices the ruptures in the closing moments of these works the social and historical moments in which the narrative and the reader are embedded will be missed This reading not only offers new interpretive possibilities but also uncovers startling affinities between the poetry of Phillis Wheatley and the fiction of Henry James between Charles Brockden Brown s *Wieland* and Melville s least studied novel and between Emily Dickinson s poem *I Started Early Took My Dog* and Disney s animated classic *Pursuing the implications of these failed moments of closure* Reising elaborates on topics ranging from the roots of domestic violence and mass murder in early American religious texts to the pornographic imperative of mid century nature writing and from James s descent into naturalist and feminist fiction to *Dumbo* s explosive projection of commercial racial and political agendas for postwar U S culture **Benton Spruance, the Artist and the Man** Lloyd M. Final Drafts Mark Seinfeld,1999-12 Some of the greatest writers in the history of the art Hart Crane Ernest Hemingway Jerzy Kosinski Sylvia Plath Anne Sexton and Virginia Woolf all chose to silence themselves by suicide leaving their families and friends with heartbreak and the world of literature with gaping holes Their reasons for killing themselves when known were varied and quite often unreasonable Some were plagued by depression or self doubt and others by frustration and helplessness in a world they could neither change nor tolerate Profoundly moving and morbidly attractive *Final Drafts* is a necessary historical record biographical treatment and psychological examination of the authors who left this cruel world by their own hands either instantly or over long periods of relentless self destructive behavior It is also a devoted examination of references to suicide in literature both by those who took their own lives and those who decided to live Mark Seinfeld has selected many well known mostly fiction writers from those whose work dates to over a century ago when the medical

community was ill equipped to deal with substance abuse and depression to more recent writers such as Kosinski Michael Dorris and Eugene Izzi who have left a puzzled literary community with a sad legacy Seinfeld reveals that many authors contemplated ending their lives in their work were obsessed with destroying themselves were unable in the case of the Holocaust to live with the fact that their contemporaries had been killed believed death to be a freedom from the horrors that forced them to create and sometimes were simply unable to withstand rejection or criticism of their work Other noted authors discussed in this volume include John Berryman Ambrose Bierce Harry Crosby John Davidson William Inge Randall Jarrell Arthur Koestler T E Lawrence Primo Levi Jack London Jay Anthony Lukas Tom McHale Yukio Mishima Henry de Montherlant Seth Morgan George Sterling Sara Teasdale Ernst Toller John Kennedy Toole Sergey Yesenin and many others

Sovereign Individuals of Capitalism (RLE Social Theory) Bryan S. Turner, Nicholas Abercrombie, Stephen Hill, 2014-08-21 In this sequel to their acclaimed *The Dominant Ideology Thesis* the authors develop their analysis of the social and cultural underpinnings of modern capitalism They confront a central assumption of western culture namely that the individual is sovereign and that capitalism above all other economic forms depends on individualism These ideas have an unbroken history from Alexis de Tocqueville to Milton Friedman The paradox of the modern world is that the moral emphasis on the individual is contradicted by the actual organization of economy and society The authors suggest that individualism and capitalism have no enduring or necessary relationship Their linkage is entirely accidental and was confined to one particular historical period in the West Against the background of what they term the Discovery of the Individual the authors show how individualism gave capitalism a particular shape and capitalism in turn highlighted the possessive features of the individual Oriental capitalism and late capitalism in the West bear no particular relationship to individualism indeed they flourish best in the absence of individualistic culture Collectivism increasingly dominates both economic and social life These issues once informed the sociological enterprise but have not been systematically addressed in recent times This book revives the classical tradition of the historical and comparative analysis of culture and economy in capitalist society in the context of the late twentieth century world

Student Companion to Herman Melville Sharon Talley, 2006-12-30 Student Companion to Herman Melville provides a critical introduction to the life and literary works of Herman Melville the nineteenth century American author of *Moby Dick* as well as nine other novels and numerous short stories and poems In addition to providing an overview of Melville's life in relation to his literary works the book places his writings within their historical and cultural contexts and then examines each of his major works fully at the level of the nonspecialist and generalist reader The chapters that address major works by Melville feature close readings of the literary texts that include analysis of point of view setting plot characters symbolism themes and historical contexts when appropriate In addition the four chapters devoted to individual novels as well as the chapter on Melville's poetry feature alternate readings to introduce the reader to postcolonial feminist genre reader response and

deconstructionist approaches to literary criticism The book concludes with an extensive bibliography that includes lists of Melville's published works biographies contemporary reviews and recent critical studies Early Narratives from Typee to White Jacket Moby Dick Pierre The Piazza Tales Other magazine tales I and My Chimney The Paradise of Bachelors and the Tartarus of Maids and Israel Potter The Confidence Man Poetry including **Africa** Tony Binns, Etienne Nel, Alan Dixon, 2012-01-11 For many Africa is regarded as a place of mystery and negative images where reports of natural disasters and civil strife dominate media attention with relatively little publicity given to any of the continent's more positive attributes Africa has at last begun to receive the depth of interest it has long deserved in the shape of debates about trade aid and debt the Make Poverty History campaign and the UK's Commission on Africa But behind the superficial media façade Africa is a diverse complex and dynamic place with a rich history and a colonial engagement that although short lived was fundamental in determining the long term future of the continent At the start of the second decade of the twenty first century when the world is engulfed in a major financial crisis Africa has the dubious distinction of being the world's poorest continent This book introduces and demystifies Africa's diversity and dynamism and considers how its peoples and environments have interacted through time and space The background and diversity of Africa's social cultural economic political and environmental systems is examined as well as key development issues which have affected Africa in the past and are likely to be significant in shaping the future of the continent These include the impact of HIV AIDS sources of conflict and post conflict reconstruction the state and governance the nature of African economies in a global context and future development trajectories Africa Diversity and Development is a refreshing interdisciplinary text which enhances understanding of the background to Africa's current position and clarifies possible future scenarios It is richly illustrated throughout with diagrams and plates and contains a wealth of detailed case studies and current data *Women and Literary Celebrity in the Nineteenth Century* Brenda R. Weber, 2016-02-11 Focusing on representations of women's literary celebrity in nineteenth century biographies autobiographical accounts periodicals and fiction Brenda R Weber examines the transatlantic cultural politics of visibility in relation to gender sex and the body Looking both at discursive patterns and specific Anglo American texts that foreground the figure of the successful woman writer Weber argues that authors such as Elizabeth Gaskell Fanny Fern Mary Cholmondeley Margaret Oliphant Elizabeth Robins Eliza Potter and Elizabeth Keckley helped create an intelligible category of the famous writer that used celebrity as a leveraging tool for altering perceptions about femininity and female identity Doing so Weber demonstrates involved an intricate gender sex negotiation that had ramifications for what it meant to be public professional intelligent and extraordinary Weber's persuasive account elucidates how Gaskell's biography of Charlotte Brontë served simultaneously to support claims for Brontë's genius and to diminish Brontë's body in compensation for the magnitude of those claims thus serving as a touchstone for later representations of women's literary genius and celebrity Fanny Fern for example adapts Gaskell's maneuvers on behalf of Charlotte Brontë to portray the weak woman's body

becoming strong as it is made visible through and celebrated within the literary marketplace Throughout her study Weber analyzes the complex codes connected to transatlantic formations of gender sex the body and literary celebrity as women authors proactively resisted an intense backlash against their own success
