Petkov,2003-06-01 This book reveals the social logic of the medieval rituals of reconciliation as showcased by the most potent rite the kiss of peace Ritual is presented as a contested ground on which individuals groups and political and moral authorities competed for and appropriated political sovereignty The thesis of the study is that by employing ritual and bodily mnemonics as strategic tools the forces of order and official morality strove to organize personality structures around a hegemonic value system Researching three analytical fields the legal bonds of peace the emotional economy of ritual and the building of identity the book highlights the contents and evolution of ritual reconciliation in diverse cultural contexts in the period between the eleventh and the sixteenth centuries **Soul, Self, and Society** Edward L. Rubin,2015 Morality is not

declining in the modern world Instead a new morality is replacing the previous one Centered on individual self fulfillment and linked to administrative government it permits things the old morality forbid like sex for pleasure but forbids things the old morality allowed like intolerance and equality of opportunity **Self and Society in Medieval France** Guibert of

Nogent,1970 **"Strong of Body, Brave and Noble"** Constance Brittain Bouchard,1998-03-30 Medieval society was dominated by its knights and nobles The literature created in medieval Europe was primarily a literature of knightly deeds and the modern imagination has also been captured by these leaders and warriors This book explores the nature of the nobility focusing on France in the High Middle Ages 11th 13th centuries Constance Brittain Bouchard examines their families their relationships with peasants townspeople and clerics and the images of them fashioned in medieval literary texts She incorporates throughout a consideration of noble women and the nobility's attitude toward women Research in the last two generations has modified and expanded modern understanding of who knights and nobles were how they used authority war and law and what position they held within the broader society Even the concepts of feudalism courtly love and chivalry once thought to be self evident aspects of medieval society have been seriously questioned Bouchard presents bold new interpretations of medieval literature as both reflecting and criticizing the role of the nobility and their behavior She offers the first synthesis of this scholarship in accessible form inviting general readers as well as students and professional scholars

to a new understanding of aristocratic role and function

Motherhood, Religion, and Society in Medieval Europe,

400-1400 Lesley Smith, Conrad Leyser, 2016-04-22 Who can concentrate on thoughts of Scripture or philosophy and be able to endure babies crying Will he put up with the constant muddle and squalor which small children bring into the home The wealthy can do so but philosophers lead a very different life So according to Peter Abelard did his wife Heloise state in characteristically stark terms the antithetical demands of family and scholarship Heloise was not alone in making this assumption Sources from Jerome onward never cease to remind us that the life of the mind stands at odds with life in the family For all that we have moved in the past two generations beyond kings and battles fiefs and barons motherhood has remained a blind spot for medieval historians Whatever the reasons the result is that the historiography of the medieval period is largely motherless The aim of this book is to insist that this picture is intolerably one dimensional and to begin to change it The volume is focussed on the paradox of motherhood in the European Middle Ages to be a mother is at once to hold great power and by the same token to be acutely vulnerable The essays look to analyse the powers and the dangers of motherhood within the warp and weft of social history beginning with the premise that religious discourse or practice served as a medium in which mothers and others could assess their situation defend claims and make accusations Within this frame three main themes emerge survival agency and institutionalization The volume spans the length and breadth of the Middle Ages from late Roman North Africa through ninth century Byzantium to late medieval Somerset drawing in a range of types of historian including textual scholars literary critics students of religion and economic historians The unity of the volume arises from the very diversity of approaches within it all addressed to the central topic

Nature, Man, and Society in the Twelfth Century M-D Chenu, Jerome Taylor, Lester K. Little, 1997-01-01 The nine essays in this collection selected from *La th ologie au douzi me si cle* inquire into the historical context and origins of medieval scholasticism They are representative of Chenu s finest work If P re Chenu considers history of theology to be the central concern of this collection it is because he conceives of theology as an all encompassing science one which reflects the comprehensive unity of intellectual life as that develops within a culture Literary history and criticism cultural history philosophy biblical exegesis historiography ecclesiastical and social history the history of education all these and more are here involved in their interdependence From the Translators Note First published as *La th ologie au douzi me si cle* by J Vinn 1957 English translation published by University of Chicago Press 1968

The Solitary Self Linda Georgianna, 1981 The *Ancrene Wisse* is a spiritual guide for female recluses written at the request of three anchoresses who were voluntarily enclosed for life within small cells Georgianna analyzes this complex and skillfully composed treatise and examines its detailed portrayal of the rich alternately rewarding and frustrating inner life of the solitary

Texts and the Self in the Twelfth Century Sarah Spence, 1996-12-12 *Texts and the Self in the Twelfth Century* analyses key twelfth century Latin and vernacular texts which articulate a subjective often autobiographical stance The contention is that the self forged in medieval literature could not

have come into existence without both the gap between Latinity and the vernacular and a shift in perspective towards a visual and spatial orientation This results in a self which is not an agent that will act on the outside world like the Renaissance self but rather one which inhabits a potential middle ground or space of agency explained here partly in terms of object relations theory *Women, Family, and Society in Medieval Europe* David Herlihy, 1995 A selection of Herlihy's essays compiled as a tribute to his influence His particular interest in the nature of the family and the role of women within that unit is amply reflected in this volume Articles include Did women have a renaissance The Florentine Merchant family in the Middle Ages Biology and History Suggestions for a Dialogue **Architecture and Society in Normandy 1120-1270** Lindy Grant, 2005-01-01 This wide ranging book explores the architecture principally ecclesiastical of Normandy from 1120 to 1270 a period of profound social cultural and political change In 1204 control of the duchy of Normandy passed from the hands of the Anglo Norman Angevin descendants of William the Conqueror to the Capetian kingdom of France The book examines the enormous cultural impact of this political change and places the architecture of the time in the context of the Normans complicated sense of their own identity It is the first book to consider the inception and development of gothic architecture in Normandy and the first to establish a reliable chronology of buildings Lindy Grant extends her investigation beyond the buildings themselves and also offers an account of those who commissioned built and used them The humanized story she tells provides sharp insights not only into Normandy's medieval architecture but also into the fascinating society from which it emerged **A Mediterranean Society** S. D. Goitein, 1967 One of the best comprehensive histories of a culture in this century Amos Funkenstein Stanford University
