Self At Liberty:

Liberty's Captives Daniel E. Williams, Christina Riley Brown, 2006 An astonishing variety of captivity narratives emerged in the fifty years following the American Revolution however discussions about them have usually focused on accounts of Native American captivities To most readers then captivity narratives are synonymous with godless savages the vast frontier and the trials of kidnapped settlers This anthology the first to bring together various types of captivity narratives in a comparative way broadens our view of the form as it shows how the captivity narrative in the nation building years from 1770 to 1820 helped to shape national debates about American liberty and self determination Included here are accounts by Indian captives but also prisoners of war slaves victims of pirates and Barbary corsairs impressed sailors and shipwreck survivors The volume s seventeen selections have been culled from hundreds of such texts edited according to scholarly standards and reproduced with the highest possible degree of fidelity to the originals Some selections are fictional or borrow heavily from other true narratives all are sensational Immensely popular with American readers they were also a lucrative commodity that helped to catalyze the explosion of print culture in the early Republic As Americans began to personalize the rhetoric of their recent revolution captivity narratives textually enacted graphic scenes of defiance toward deprivation confinement and coercion At a critical point in American history they helped make the ideals of nationhood real to common citizens

The Self and the Sonnet Rajan Barrett, 2010-09-13 The Self and the Sonnet is an interdisciplinary study which considers the sonnet a near eight hundred year old form and looks at the historical meanderings and the popularity of the form among cultures that are far removed from the location of its origin in Italy The book tracks the notion of the self from its Platonic beginnings to the Postmodern using insights from Charles Taylor Brian Morris and Calvin O Schrag so as to work out a model of the self Jan Pato ka s phenomenological notions of the self and Chaos Theory are important cohesive elements in the composition of this model A limit point in Mathematics is a point that is not in the set around which all the points cluster The book looks at the self from the limit points of the body mind world and language It analyzes sonnets which predominantly show a tendency to one of these limit points However it keeps in mind the other limit points as possibilities of a comprehensive analysis The motivation for this body of research comes primarily from the notion of the sonnet being a form that initially exists along with the epic as canonical writers of literary epics also write sonnets The historic and narrative moment of self in sonnet form calls for a questioning of both the self and the sonnet The book tries to address the questions What changes in the notion of self prompt the origin and persistence of the sonnet across cultures and Why and how is this form compatible with a self that is postmodern and global The Anglo American sonnet for the most is addressed but cultures and their attendant forms are also addressed when considering the sonnet The Arabic zajal the Persian ghazal the Chinese sonnet and the Korean Sijo sonnet are forms that are touched upon along with the Indian postcolonial versions like the forms of the sonnet in Modern Indian Languages such as Bangla Gujarati and Marathi
