**A Pragmatic Approach to Fluency and Disfluency in Learner Language** Maximiliane Frobenius, 2022-11-15 This monograph presents analyses of filled and unfilled pauses cut offs repair discourse markers and other phenomena often referred to as disfluencies in the context of advanced language learners PowerPoint presentations It adopts a multimodal perspective to demonstrate the functions of these elements in interaction Paired with gaze shifts pointing gestures and posture shifts they act as facilitators of joint visual orientation mutual understanding and accountable actions Therefore this volume suggests the name cofluency to reflect their potential functionality Cofluencies are essential elements of multimodal chunks and multimodal patterns and these are building blocks of a multimodal turn taking mechanism for presentations These concepts are illustrated and discussed based on excerpts from naturally occurring classroom data **Disfluency and Proficiency in Second Language Speech Production** Simon Williams, 2023-01-01 This book explores the concept of disfluency in speech production particularly as it occurs in the context of second language acquisition Drawing on examples from learner speech at three levels beginner intermediate and advanced the author argues that acquiring target language norms for performing disfluency is essential to an individual being recognized as fluent in a language by fellow speakers Starting with a survey of the psycholinguistic research in this area he then applies a sociolinguistic lens to examine how a learner's social and educational background impacts the types of disfluencies in their speech This book will be of interest to readers in fields such as applied linguistics and second language acquisition psychology and education **Discourse and language learning across L2 instructional settings** , 2012-01-01 Studies on discourse and language learning originated in the field of general education and they focused on first language learning environments However since 1980s research on discourse and language learning broadened the scope of investigation to respond to second and foreign language environments Recently the emergence of new language learning contexts such as computer mediated communication multilingual settings or content and language integrated contexts requires further research that focuses on discourse and language learning From this perspective the present volume aims to broaden the scope of investigation in foreign language contexts by exploring discourse patterns in the classroom and examining the impact of factors such as gender explicitness of feedback or L1 use on language learning through discourse With that aim in mind this volume will bring together research that investigates discourse in various instructional settings namely those of primary secondary and university L2 learning environments content and language integrated contexts and other new language learning settings The number and variety of languages involved both as the first language e.g English Finnish Basque Spanish Japanese French Italian Catalan as well as the target foreign language e.g English French Italian Japanese Spanish makes the volume specially attractive Additionally the different approaches adopted by the researchers participating in this volume such as information processing sociocultural theory or conversation analysis widen the realm of investigation on discourse and language learning Finally the

strength of the volume also lies in the range of educational settings primary secondary and tertiary education and the worldwide representation of contributors across seven different countries namely those of Spain France Austria Finland Germany Canada Australia and the United States The uniqueness of the volume is due to its eclectic and comprehensive nature in tackling instructional discourse Worldwide outstanding researchers like Julianne House Carme Mu oz Ute Smit Tarja Nikula or Roy Lyster to quote but a few adopt different perspectives in this joint contribution that will certainly broaden the scope of research on language learners discourse

*Classroom Assessment for Language Teaching* Eddy White, Tahnee Bucher, 2020-02-26 This book focuses where assessment has greatest relevance the classroom A great deal of research related to assessment is focused on the testing industry high stakes language proficiency testing and related analytical and statistical reports that are far removed from teachers and students experiences in the classroom Recently more attention has been paid to assessment in language classrooms and the many challenges that teachers face in both measuring and promoting student learning This book contributes to the body of knowledge related to teacher assessment competence and how it is manifested in the decisions they make about assessment procedures and instruments in their classes Focused on specific challenges related to classroom assessment each chapter reports on particular assessment issues faced by teachers their choices regarding such issues and the consequences actual or anticipated of their decision making This book will interest the thousands of teachers globally dealing with the numerous challenges associated with effective classroom assessment in language learning This collection of teacher voices stories and investigations provides possible solutions to such challenges and will serve to promote assessment literacy in the language teaching profession

**Reflections on Task-Based Language Teaching** Rod Ellis, 2018-06-18 Task based language teaching is now a well established pedagogic approach but problematic issues remain such as whether it is appropriate for all learners and in all instructional contexts This book draws on the author s experience of working with teachers together with his knowledge of relevant research and theory to examine the key issues It proposes flexible ways in which tasks can be designed and implemented in the language classroom to address the problems that teachers often face with task based language teaching It will appeal to researchers and teachers who are interested in task based language teaching and the practical and theoretical issues involved It will also be of interest to students and researchers working in the areas of applied linguistics TESOL and second language acquisition
