Litan,2010-12-01 With an ever increasing number of liability lawsuits are corporations electing to play it safe rather than risk
the uncertainties accompanying innovation In *The Liability Maze* experts address the issues surrounding safety and
innovation and present the most detailed and comprehensive study to date on the actual impact of U S liability law In recent
decades it has been widely assumed that liability laws promote safety by significantly raising the price companies must pay
for negligence product defects and accidents More recently others have suggested that the broad and unpredictable sweep of
these laws actually deters innovation The risks of lawsuits are so great that corporations are showing more caution in
product innovation than ever before The contributors focus on five sectors of the economy where the liability system appears
to have had the greatest effects positive or negative the private aircraft automobile chemical and pharmaceutical industries
and the medical profession They suggest that in many sectors liability law has hampered innovation In others it has
stimulated safety improvements although perhaps not so much as vigilant safety regulations *Hoover Handbook of World*
