

He's one of the busiest men in town. While his door may say *Office Hours 2 to 4*, he's actually on call 24 hours a day.

The doctor is a scientist, a diplomat, and a friendly sympathetic human being all in one, no matter how long and hard his schedule.

According to a recent Nationwide survey:

MORE DOCTORS SMOKE CAMELS THAN ANY OTHER CIGARETTE

DOCTORS in every branch of medicine—113,597 in all—were queried in this nationwide study of cigarette preference. Three leading research organizations made the survey. The gist of the query was—What cigarette do you smoke, Doctor?

The brand named most was Camel!

The rich, full flavor and cool mildness of Camel's superb blend of costlier tobaccos seem to have the same appeal to the smoking tastes of doctors as to millions of other smokers. If you are a Camel smoker, this preference among doctors will hardly surprise you. If you're not—well, try Camels now.

Your "T-Zone" Will Tell You...

**T for Taste . . .
T for Throat . . .**

that's your
proving ground
for any cigarette.
See if Camels
don't suit your
"T-Zone" to a "T."

Yang,2021-12-09 This book fills a major gap in research into smoking and tobacco control in China In recent decades few studies have explored the significance of geographical factors and the role they have played either in affecting the prevalence of smoking or in tobacco control responses to the smoking epidemic in China In light of this the book investigates the importance of national regional and local environmental factors affecting smoking in China It shows how geographical social and institutional contexts have influenced the implementation and success of tobacco control initiatives and situates smoking trends in China in a broader global context The authors synthesize Chinese and western research on the smoking epidemic and uniquely focus on the importance of environmental factors and Chinese cultural perspectives in understanding smoking behaviour and the ineffectiveness of many tobacco control initiatives especially how these conflict with Chinese economic policy The book is aimed at academic and policy audiences both internationally and inside China and will be of interest to a wide audience not only geographers but also epidemiologists sociologists and others working in public health **Strategies to Control**
