Ryan, 1999 An exploration of shamanism and the archetypal symbolism that sits at the foundation of all human life Not just an academic work Helps the reader experience the actual mindset of the shaman Presents a cohesive view of the recurrent patterns of symbolism and visionary experience that underlie all religion The human psyche contains archetypal patterns largely lost to contemporary society but which shamans have employed for over 30 000 years to gain access to the spiritual world Shamanic symbols both affect and reflect these durative patterns that exist with uncanny similarity in civilizations separated by expanses of time and distance The Strong Eye of Shamanism draws together the many facets of the art of shamanism presenting a cohesive view of the recurrent patterns of symbolism and visionary experience that underlie its practice The strong eye of the title refers to the archetypal symbolism that sits at the foundation of all

human life whether in Paleolithic caves or today's temples The author asserts that society has become separated from the power of those symbols that lead us into deeper understanding of our spirituality In today's world of splintered psyches a world in which people are in search of their souls shamanism survives as an age old technology of soul recovery a living Rosetta stone that reminds us of the shared foundation that exists beneath even the most radically different perspectives Through its study of shamanism archetypal psychology and symbolism *The Strong Eye of Shamanism* encourages individuals and society to look inward and remember that the deepest forms of awareness begin with the knowledge that the answers reside within us

Cauldron of the Gods Jan Fries, 2005 Imagine the forest As darkness falls the somber beeches disappear in misty twilight and shadows seem to gather under their branches Far away the blackbird's call tells of the coming of the night The birds cease their singing silence descends soon the beasts of the night will make their appearance Between tangled roots hidden by nettles and brambles the earth seems to ripple A few humps of earth seem to emerge from the ground They are the last traces of burial mounds of mounds which were tall and high 2500 years ago Many of them have disappeared hidden by tangled roots of beech and oak ploughed flat by careless farmers others again show caved in tops where grave robbers have looted the central chamber The locals shun these hills There are tales that strange fires can be seen glowing on the mounds and that on spooky nights great armed warriors arise from their resting places Then the doors to the deep are thrown open and unwary travelers have to beware of being invited into the halls of the dead and unborn Here the kings of the deep feast and celebrate time passes differently and strange treasures may be found Who

knows the nights when the gates are open Who carries the primrose the wish flower the strange blossom that opens the doors to the hollow hills
