**Shanidar** Ralph S. Solecki,1972      **Shanidar** Ralph S. Solecki,1972      *Shanidar, the First Flower People* Ralph S. Solecki,1971 The exploration of Shanidar Cave in Iraq has resulted in one of the most significant archaeological finds of recent years the first archaeological traces of human nature And Ralph Solecki s firsthand account superbly communicates the excitement the continual surprises the labor ingenuity and technical subtlety that attended the discovery Book jacket

*The Palaeolithic Origins of Human Burial* Paul Pettitt,2010-12-20 Humans are unique in that they expend considerable effort and ingenuity in disposing of the dead Some of the recognisable ways we do this are visible in the Palaeolithic archaeology of the Ice Age The Palaeolithic Origins of Human Burial takes a novel approach to the long term development of human mortuary activity the various ways we deal with the dead and with dead bodies It is the first comprehensive survey of Palaeolithic mortuary activity in the English language Observations in the modern world as to how chimpanzees behave towards their dead allow us to identify core areas of behaviour towards the dead that probably have very deep evolutionary antiquity From that point the palaeontological and archaeological records of the Pliocene and Pleistocene are surveyed The core chapters of the book survey the mortuary activities of early hominins archaic members of the genus *Homo* early *Homo sapiens* the Neanderthals the Early and Mid Upper Palaeolithic and the Late Upper Palaeolithic world Burial is a striking component of Palaeolithic mortuary activity although existing examples are odd and this probably does not reflect what modern societies believe burial to be and modern ways of thinking of the dead probably arose only at the very end of the Pleistocene When did symbolic aspects of mortuary ritual evolve When did the dead themselves become symbols In discussing such questions The Palaeolithic Origins of Human Burial offers an engaging contribution to the debate on modern human origins It is illustrated throughout includes up to date examples from the Lower to Late Upper Palaeolithic including information hitherto unpublished      *The Origins of Modern Humans* Fred H. Smith,James C. Ahern,2013-07-09 This update to the award winning The Origins of Modern Humans A World Survey of the Fossil Evidence covers the most accepted common theories concerning the emergence of modern *Homo sapiens* adding fresh insight from top young scholars on the key new discoveries of the past 25 years The Origins of Modern Humans Biology Reconsidered allows field leaders to discuss and assess the assemblage of hominid fossil material in each region of the world during the Pleistocene epoch It features new fossil and molecular evidence such as the evolutionary inferences drawn from assessments of modern humans and large segments of the Neandertal genome It also addresses the impact of digital imagery and the more sophisticated morphometrics that have entered the analytical fray since 1984 Beginning with a thoughtful introduction by the authors on modern human origins the book offers such insightful chapter contributions as Africa The Cradle of Modern People Crossroads of the Old World Late Hominin Evolution in Western Asia A River Runs through It Modern Human Origins in East Asia Perspectives on the Origins of Modern Australians Modern Human Origins in Central Europe The Makers of the Early

Upper Paleolithic in Western Eurasia Neandertal Craniofacial Growth and Development and Its Relevance for Modern Human Origins Energetics and the Origin of Modern Humans Understanding Human Cranial Variation in Light of Modern Human Origins The Relevance of Archaic Genomes to Modern Human Origins The Process of Modern Human Origins The Evolutionary and Demographic Changes Giving Rise to Modern Humans The Paleobiology of Modern Human Emergence Elegant and thought provoking The Origins of Modern Humans Biology Reconsidered is an ideal read for students grad students and professionals in human evolution and paleoanthropology

**The Lost Civilizations of the Stone Age** Richard Rudgley, 2000-01-25 Examines the history of mankind during the Neolithic Age and presents evidence that the Stone Age human was more advanced than science originally thought Includes figures and photographs *Milestones in Archaeology*

Tim Murray, 2007-04-13 This engaging work uses key discoveries events people techniques and controversies to give the general reader a rich history of archaeology from its beginnings in the 16th century to the present The history of archaeology leads from the musty collections of dilettante antiquarians to high tech science The book identifies three major developmental periods Birth of Archaeology 16th 18th centuries Archaeology of Origins and Empires 19th century and World Archaeology 20th century An introductory essay acquaints the reader with the essence of the science for each period The short entries comprising the balance of the book expand on the themes introduced in the essays Organized around personalities techniques controversies and conflicts the encyclopedia brings to life the history of archaeology It broadens the general reader's knowledge by detailing the professional significance of widely known discoveries while introducing to wider knowledge obscure but important moments in archaeology Archaeology is replete with the visionaries and swashbucklers of popular myth it is also filled with careful and dedicated scientists

**Some Thoughts about the Evolution of Human Behavior: A Literature Survey** Arthur J. Boucot, 2021-05-20 On his death Arthur Boucot 1924 2017 left an unfinished manuscript in which he surveyed the skeletal behavioral and cultural changes that have characterized Homo from its first recognition in the Late Pliocene to the present The results edited after his death provide a heavily referenced sourcebook for future workers in diverse fields

**Society in Prehistory** Tim Megarry, 1995-12 Reveals a profound understanding of evolutionary biology and an excellent up to date knowledge of human evolution studies It is not only very well done but it is written from a novel point of view It needs to be very widely read and I hope that it will be Megarry is doing his subject a great service Bernard Campbell University of California Social scientists have tended to neglect prehistory in their approach to human societies Tim Megarry's lucid and authoritative book remedies this neglect It will be of great value to students of anthropology psychology and sociology Paul Hirst Birkbeck College University of London Stressing the importance of culture as a formative agent in the evolutionary emergence of modern humans Society in Prehistory provides an impressive interdisciplinary and deeply informed survey of prehistory Individual chapters focus on culture and evolution biology and culture primate societies the first hominids tools and culture the economics of foraging modern humans and human behavior

sex and the division of labor and sexuality and social life The book reveals that while social behavior is biologically grounded it is not biologically determined      *Life's Solution* Simon Conway Morris,2003-09-04 The assassin's bullet misses the Archduke's carriage moves forward and a catastrophic war is avoided So too with the history of life Re run the tape of life as Stephen J Gould claimed and the outcome must be entirely different an alien world without humans and maybe not even intelligence The history of life is littered with accidents any twist or turn may lead to a completely different world Now this view is being challenged Simon Conway Morris explores the evidence demonstrating life's almost eerie ability to navigate to a single solution repeatedly Eyes brains tools even culture all are very much on the cards So if these are all evolutionary inevitabilities where are our counterparts across the galaxy The tape of life can only run on a suitable planet and it seems that such Earth like planets may be much rarer than hoped Inevitable humans yes but in a lonely Universe      **The Foundations of Cognitive Archaeology** Marc A. Abramiuk,2012 In The foundations of cognitive archaeology Marc Abramiuk proposes a multidisciplinary basis for the study of the mind in the past arguing that archaeology and the cognitive sciences have much to offer one another Abramiuk draws on relevant topics from philosophy biological anthropology cognitive psychology cognitive anthropology and archaeology to establish theoretically founded and empirically substantiated principles of a discipline that integrates different approaches to mind related archaeological research Publisher description

**The Cambridge World Prehistory** Colin Renfrew,Paul Bahn,2014-06-09 The Cambridge World Prehistory provides a systematic and authoritative examination of the prehistory of every region around the world from the early days of human origins in Africa two million years ago to the beginnings of written history which in some areas started only two centuries ago Written by a team of leading international scholars the volumes include both traditional topics and cutting edge approaches such as archaeolinguistics and molecular genetics and examine the essential questions of human development around the world The volumes are organised geographically exploring the evolution of hominins and their expansion from Africa as well as the formation of states and development in each region of different technologies such as seafaring metallurgy and food production The Cambridge World Prehistory reveals a rich and complex history of the world It will be an invaluable resource for any student or scholar of archaeology and related disciplines looking to research a particular topic tradition region or period within prehistory      *The Importance of Religion* Gavin Flood,2011-11-07 The Importance of Religion reveals the significance of religion in modern times showing how it provides people with meaning to their lives and helps guide them in their everyday moral choices Provides readers with a new understanding of religion demonstrating how in its actions texts and world views religion is enduring and vividly engages with the mystery of the world Offers striking arguments about the relationship of religion to science art and politics Engagingly written by a highly respected scholar of religion with an international reputation      *From Atlantis to the Sphinx* Colin Wilson,2004-07-01 In this compelling book Colin Wilson argues that thousands of years before ancient Egypt and Greece held sway there was a great civilization whose

ships traveled the world from China to Antarctica Their advanced knowledge of science mathematics and astronomy was passed on to descendants who escaped to Egypt and South America From Atlantis to the Sphinx bases this assertion on a true fact that archaeologists and geologists are at odds over the age of the Sphinx Archaeologists claim that the Sphinx dates to classical dynastic Egypt around 2 400 b c But some geologists claim that it could have been built as early as 7 000 to 10 500 b c The geologists claim is based on the curious fact that the erosion of the Sphinx is more characteristic of water erosion than that of wind and sand Starting from the assumption that there was an advanced civilization in existence much earlier than previously thought Wilson goes on to claim that it could very well be Atlantis not a literal island that sank but more of a great civilization that either declined naturally or experienced a great catastrophe passing on only a fraction of its knowledge to other peoples From Atlantis to the Sphinx delves into what might have been a completely different knowledge system from that of modern man one as alien to us as that of the Martians The book sets out to reconstruct that ancient knowledge in a fascinating exploration of the remote depths of history a ground breaking attempt to understand how these long forgotten peoples thought felt and communicated with the universe

**How Compassion Made Us Human** Penelope Spikins, 2015-05-07 An intriguing look at how our capacity to care about and connect with others has contributed to our evolutionary success as a species Our ability to care about the wellbeing of others whether they are close family or strangers can appear to be unimportant in today's competitive societies But in this volume archaeologist Penny Spikins argues that compassion lies at the heart of what makes us human She takes us on a journey from the earliest Stone Age societies two million years ago to the lives of Neanderthals in Ice Age Europe using archaeological evidence to illustrate the central role that emotional connections had in human evolution Simple acts of kindness left to us from millions of years ago provide evidence for how social emotions and morality evolved and how our capacity to reach out beyond ourselves into the lives of others allowed us to work together for a common good and form the basis for human success

**The Origins of Human Society** Peter Bogucki, 2000-01-04 The Origins of Human Society traces the development of human culture from its origins over 2 million years ago to the emergence of literate civilization In addition to a global coverage of prehistoric life the book pays specific attention to the origins and dispersal of anatomically modern humans the development of symbolic expression the transition from mobile foraging bands to sedentary households early agriculture and its consequences the emergence of social differentiation and hereditary ranking and the prehistoric roots of ancient states and empires The Blackwell History of the World Series The goal of this ambitious series is to provide an accessible source of knowledge about the entire human past for every curious person in every part of the world It will comprise some two dozen volumes of which some provide synoptic views of the history of particular regions while others consider the world as a whole during a particular period of time The volumes are narrative in form giving balanced attention to social and cultural history in the broadest sense as well as to institutional development and political change Each provides a systematic account of a very large subject but they are

also both imaginative and interpretative The Series is intended to be accessible to the widest possible readership and the accessibility of its volumes is matched by the style of presentation and production *The Healing Hand* Guido Majno,1975 This journey to the beginnings of the physician's art brings to life the civilizations of the ancient world Egypt of the Pharaohs Greece at the time of Hippocrates Rome under the Caesars the India of Ashoka and China as Mencius knew it Probing the documents and artifacts of the ancient world with a scientist's mind and a detective's eye Guido Majno pieces together the difficulties people faced in the effort to survive their injuries as well as the odd chilling or inspiring ways in which they rose to the challenge In asking whether the early healers might have benefited their patients or only hastened their trip to the grave Dr Majno uncovered surprising answers by testing ancient prescriptions in a modern laboratory Illustrated with hundreds of photographs many in full color and climaxed ten years of work *The Healing Hand* is a spectacular recreation of man's attempts to conquer pain and disease Prehistoric Belief Mike Williams,2011-11-08 Starting with the dawn of what we would recognise as modern human thought this book journeys through 35 000 years of our human past It shows how our earliest ancestors learnt to enter trance states and the revolutionary effect this had on the way they interacted with their world Moreover by marrying the very latest research with vivid first person reconstructions the book will actually take readers back in time In its pages we join Stone Age hunting parties steal food from desperate starving cannibals sit eye to eye with a mouldy Bronze Age mummy and join the Celts for a feast where you truly are what you eat The story of our past has never been told this way before and has never been brought to life with such vividness This is the past as our ancestors would have known it **The Early Neolithic of the Eastern Fertile Crescent** Roger Matthews,Wendy Matthews,Kamal Rasheed Raheem,Amy Richardson,2020-07-31 The Eastern Fertile Crescent region of western Iran and eastern Iraq hosted major developments in the transition from hunter forager to farmer herder lifestyles through the Early Neolithic period 10 000 7000 BC Within the scope of the Central Zagros Archaeological Project excavations have been conducted since 2012 at two Early Neolithic sites in the Kurdistan region of Iraq Bestansur and Shimshara Bestansur represents an early stage in the transition to sedentary farming life where the inhabitants pursued a mixed strategy of hunting foraging herding and cultivating maximising the new opportunities afforded by the warmer wetter climate of the Early Holocene They also constructed substantial buildings of mudbrick including a major building with a minimum of 65 human individuals mainly infants buried under its floor in association with hundreds of beads These human remains provide new insights into mortuary practices demography diet and disease during the early stages of sedentarisation The material culture of Bestansur and Shimshara is rich in imported items such as obsidian carnelian and sea shells indicating the extent to which Early Neolithic communities were networked across the Eastern Fertile Crescent and beyond This volume includes final reports by a large scale interdisciplinary team on all aspects of the results from excavations at Bestansur and Shimshara through application of state of the art scientific techniques methods and analyses The net result is to re emphasise the enormous significance of the

Eastern Fertile Crescent in one of the most important episodes in human history the Neolithic transition *The Buried Soul*  
Timothy Taylor, 2005-08-15 Do cannibals exist Is there evidence for contemporary human sacrifice What are vampires The  
Buried Soul charts the story of the human response to death from prehistory to the present day This book is a radical  
adventure into the sepulchral world
